PROVINCIAL PUBLIC WORKS CESS.

THE HON'BLE MR. REYNOLDS presented the report of the Select Committee on the Bill to provide for the levy of a cess for the construction and maintenance of provincial public works. It was not necessary for him to make any lengthy remarks on the subject, as the Committee had made hardly any

changes in the Bill, and such as had been made were of no great importance. It had been provided that the notices served under the Road Cess Act might also include notice of the amount due on account of the public works cess. This amendment was intended merely to promote convenience and to save expense. The two cesses would, however, be kept separate and be specified separately in the notice. But as both the cesses were payable in the same instalments and on the same dates, there was no necessity for the issue of separate notices. The Bill also provided for the publication of an annual statement of accounts, and conferred on the Lieutenant-Governor the same power to make rules as was conferred by the Road Cess Act. These were all the amendments that had been made by the Select Committee, with the exception of one or two verbal alterations. In the preamble of the Bill the word "charges" was inserted in addition to the words "construction and maintenance." It had since been suggested to him that there might be a doubt whether that would be sufficient to cover the charges for interest. The word was inserted with the express object of covering those charges, and it appeared to MR. REYNOLDS that it would be sufficient to include the charge for interest. He would now move that the report of the Select Committee be taken into consideration in order to the settlement of the clauses of the Bill, and that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee.

The HON'BLE BABOO KRISTODAS PAL said that, before the Council proceeded to take the report of the Select Committee into consideration, he wished to make one remark. The object of the Bill was to enable the local Government to raise sufficient funds for meeting the liabilities which had been thrown upon it by the Government of India. The amount which the local Government was required to raise was Rs. 27,50,000. But from information which he had received from the mofussil from well-informed persons, it appeared that the new Land Registration Act which had been lately put into force was likely to bring in a large amount of stamp revenue; it was estimated by competent persons that the increase of stamp revenue might amount to Rs. 50,00,000. He was not in a position to say whether that estimate was correct; but if the Government got a good windfall, it was worthy of consideration whether it was necessary to impose the new tax this year. The stamp revenue derivable on registration was sure; applications must be made by landlords, and as a large number of powers of attorney must be executed, a large accession of revenue might be thus looked forward to. His object in drawing attention to the subject was that as the stamp revenue had under recent orders been made over to the local Government, the increase would go to that Government, and if it should obviate the necessity of additional taxation this year, the Council would gain time, and would be better able to adapt the scheme of taxation to the views, feelings, and wishes of the people. He did not say that this windfall would obviate the necessity of taxation altogether, but it would give time to the Council to consider the most suitable form of taxation. He did not intend to make any motion, but merely threw out this suggestion for the consideration of the Council.

HIS HONOR THE PRESIDENT said that, with reference to the remarks of his hon'ble friend, he must say that he was not prepared to withdraw the present Bill upon the very vague statement that there was something being done which might bring in an increase of the stamp revenue. He had no doubt that the working of the Land Registration Act would have some effect upon the stamp revenue, but what the result would be nobody could say, or what amount would be collected under that Act in the different districts. Therefore he thought that on anything so vague he should not, after accepting the responsibility he had incurred in regard to providing the interest on the capital expended in extraordinary public works, be justified in setting aside the Bill before the Council on an estimate of possible receipts under the Land Registration Act. If there was any unexpected income of money under that head, it would stand to the good of the province and might possibly go towards the reduction of taxation in the coming year.

The motion was then agreed to.

Section 1 empowered the Lieutenant-Governor to exempt any district or estate from the operation of the Act. On the motion of the HON'BLE

MR. REYNOLDS the words "and may at any time, by a similar notification, cancel such exemption" were added to paragraph 2. It seemed necessary to provide for a possible cancellation of an order of exemption.

The HON'BLE MR. REYNOLDS withdrew the amendment to section 8 of which notice had been given.

The HON'BLE NAWAB MEER MAHOMED ALI said that under the Road Cess Act the cess was recoverable by sale of the moveable property of the defaulter. It was difficult to conceive why the mode of realization under the present Bill should be different. Arrears of income tax or license tax were realized from the defaulter by civil suit, and in such cases a sum of double the amount due was levied by way of penalty, and realized by sale of the moveable property of the defaulter. But section 8 of the Bill was more stringent than all the former Acts that had been passed. No difficulty had, he believed, been experienced by Government in realizing any tax that had been imposed upon the people; he was at a loss therefore to know why such a stringent provision had been adopted in this Bill, especially when it was considered how submissive and law-abiding the people of Bengal were reputed to be. He thought an arrear of revenue and an arrear of tax should not be realized in the same way. He would therefore, with His Honor's permission, move as an amendment in section 8 the substitution of the words "section 23 of Act X of 1871" in lieu of all the words after the word "demand" in line five.

The HON'BLE MR. REYNOLDS said that this section was unanimously agreed to in Select Committee. He thought his hon'ble friend was under a misapprehension as to the effect of the section. It was not proposed to recover arrears under the Sale Law, but under the certificate procedure of Bengal Act VII (B.C.) of 1868, which was a more convenient mode of recovery than the procedure prescribed in section 23 of the Road Cess Act. The procedure of Act VII of 1868 was not one of unusual stringency, as the same procedure applied to the Butwara Law, the Embankment Law, and the Irrigation Law, and several other public demands were also made recoverable under that procedure. He might also mention that the Board of Revenue had represented that the procedure prescribed by the Road Cess Act was cumbrous and inconvenient, and had suggested its amendment, and therefore there was no necessity to retain in any new measure a procedure which had been found to be inconvenient.

The HON'BLE NAWAB MEER MAHOMED ALI observed that these cesses were generally realizable from the zemindar, and it would be sufficient to make them recoverable by attachment and sale of moveable property, as a zemindar would immediately pay up the amount of cess to preserve his position and honor and dignity. As he had said before, the people of Bengal were more submissive and obedient to the law than the people of any other part of the country, and he thought some special consideration should be shown to them.

The HON'BLE MR. REYNOLDS said he thought that the wishes of his hon'ble friend would be met if in section 5 of the Bill the figures "23" were inserted between the figures "22" and "24," and if section 8 were omitted altogether. It did not appear to him to be advantageous to maintain the road cess procedure, but perhaps it was desirable to observe the same procedure for both cesses for the present; and in the event of the Road Cess Act being amended hereafter, the certificate procedure under Act VII of 1868 might be made applicable to the collection of both cesses. He would move the amendments to which he had referred.

The HON'BLE MR. REYNOLDS' amendments were put and agreed to.

RATE UPON IRRIGABLE LANDS.

THE HON'BLE MR. RAVENSHAW said that the Select Committee on the Irrigation Cess Bill had found it impossible to submit their report within the time prescribed. He would therefore move for an extension of two weeks' time, and that the HON'BLE MR. BELL be substituted in the Select Committee for the HON'BLE MR. BAYLEY, who would shortly leave the Presidency in attendance upon His Honor the Lieutenant-Governor.

The motion was put and agreed to.

The Council then adjourned to Saturday next, the 5th May.

RESOLUTION ON THE BUDGET ESTIMATES OF THE CALCUTTA PORT COMMISSIONERS FOR THE YEAR 1877-78.

GENERAL DEPARTMENT.—MARINE—CALCUTTA PORT TRUST.

Calcutta, the 25th April 1877.

READ—

Letter No. 3629 of 15th March 1877, from the Vice-Chairman to the Port Commissioners, submitting the Budget Estimates of the Port of Calcutta for the year 1877-78.

Read again—

Letter No. 72 of 6th April 1877, from the Vice-Chairman to the Port Commissioners, pointing out that by a clerical error the salary of the Superintendent of Inland Vessels' Wharves has been calculated at Rs. 350, instead of Rs. 400 per mensem, in estimate No. 14 (page 16 of the Budget Estimates).

Read also—

Letter No. 976 of 5th April 1877, from this Government to the Port Commissioners, calling for the detailed estimates of receipts and expenditure and opening balance of the Capital account, and for a statement of ways and means of that account.

Letter No. 129, dated 12th April 1877, from the Vice-Chairman, Port Commissioners, submitting the above information.

The estimates have been drawn up in the same form as last year, and are composed of the following parts:—

Part I.—Jetties.
Part II.—Inland Vessels' Wharves.
Part III.—Strand Bank Lands.
Part IV.—Port or River Division.
Part V.—New works.

The first four parts compose the Revenue account, and the fifth the Capital account.

2. The appendices to the estimates give details of the establishment and charges which are distributed over the several parts. This distribution has been made in the same proportions as were adopted in the estimates for the year just ended.

3. *Appendix A.*—The expenditure on account of control establishments has been estimated at Rs. 1,02,454 in 1877-78 against Rs. 97,518 in 1876-77, being an increase of Rs. 4,936. The excess is due to the payment of additional fees to Commissioners for attending Sub-Committee meetings, to increase of establishment in the Correspondence, Accounts, and Store Departments, and to the Workshop establishment, which had hitherto been charged direct to works, being now included in this appendix, and to increases in the salaries of the Superintendent and Assistant Superintendent of Machinery.

Appendix B.—The estimated cost of establishment, of working expenses, and of repairs to the dredger has exceeded that of last year by Rs. 4,280. The increase is owing to provision being made for the employment of an additional gunner for the Hopper Barges, to the increase in the salary of the present gunner, and to the increased provision for repairs. An estimate of receipts for towing vessels by the Hopper Barges has been added to this appendix, calculated on the actual amount recovered in five months of the year just closed. Deducting these receipts (Rs. 20,000) from the estimated expenditure, the total cost of dredging during 1877-78 is reckoned to be Rs. 16,986 as against Rs. 32,706 in 1876-77.

Appendices C, D, E, and F call for no special remarks.

4. In the estimates numbered 1 to 42 are given the details of income and expenditure of each of the four parts, viz:—

1 to 11. Details of Jetties, Part I.
12 to 19. Details of Inland Wharves, Part II.
20 to 25. Details of Strand Bank Lands, Part III.
26 to 42. Details of Port or River Division, Part IV.

5. The following are the noticeable points in connection with the detailed estimates:—

Receipts from Jetties. Estimate No. 1.

(1). The receipts from imports are reckoned at Rs. 5,03,556, and those from exports at Rs. 86,280, making a total of Rs. 5,89,836. This total, as

compared with that of the previous year, shows an increase of Rs. 47,836 in both the sources of income under this head, which is satisfactory.

Salaries of Jetty Establishments. Estimate No. 4.

(2). This estimate exceeds that of last year by Rs. 13,559. The excess is owing partly to provision being made for the permanent employment of an Additional Deputy Superintendent and of a Time-keeper under the head "Jetty Office," and partly to increases in establishments under the heads "First grade tallymen," "Sorters," "Gunners," "Import Warehouse" "Gate officers," "Baggage Warehouse," "Export Sheds," and "Crane Establishment."

Establishment for 30-ton Crane. Estimate No. 5.

(3). Rs. 5,808 have been estimated as the cost of the establishment which it will be necessary to employ when the crane is completed. It is considered that the provision made will be ample for the purpose, but until some experience has been gained in the working of the vessel, it will not be possible to form an exact estimate of her requirements.

Working expenses of Jetties. Estimate No. 6.

(4). The estimate under this head is Rs. 65,656 against Rs. 59,284 in 1876-77. The increase (Rs. 6,372) is due to the provision for coolie labour for exports being increased by Rs. 2,772, and that for steam and hydraulic cranes being increased by Rs. 3,600.

Renewal of Rolling Stock. Estimate No. 7.

(5). Rs. 7,000 have been provided for replacing a number of worn out trollies and hand trucks by new ones. As this stock will not go towards increasing the block, the charge incurred in its purchase is debited to revenue.

Municipal Taxes on Jetty Enclosures. Estimate No. 8.

(6). The municipal tax will amount to Rs. 31,602 against Rs. 33,640 in 1876-77. The decrease of Rs 2,038 is due to the reduction of ½ per cent. in the house and police rates.

New works to be met from Jetty Revenue. Estimate No. 10.

(7). The sum to be transferred from Revenue to the Capital account for new works will amount to Rs. 87,890 against Rs. 1,06,500 in 1876-77. Of this sum, Rs. 72,890 will be required for the extension of the jetty heads, and for providing additional shed accommodation at the jetties, and the remaining Rs. 15,000 will be required for converting Mullick's Ghât into quarters for the Jetty Police.

Receipts from Inland Vessels' Wharves. Estimate No. 12.

(8). It is estimated that the receipts from Inland Wharves will give an increase of Rs. 44,000 in 1877-78 as compared with the preceding year. The estimate is based upon the actual receipts of the first ten months of 1876-77.

Receipts from Tramway. Estimate No. 13.

(9). The receipts under this head are estimated at Rs. 36,000. This estimate is based upon an average monthly income of Rs. 3,000, but it is deemed probable that, when the tramway which commenced working from January last gets into full work, the figures given in this estimate will be considerably exceeded.

Salaries. Inland Vessels' Wharves. Estimate No. 14.

(10). The estimate for salaries shows a decrease of Rs. 3,912, viz. from Rs. 51,780 in 1876-77 to Rs. 47,868 in 1877-78. The decrease is owing to reductions in establishments employed at the Inland Wharves.

Tramway Establishment. Estimate No. 15.

(11). The cost of the establishment which it is considered will be required when the entire line of tramway is opened is estimated at Rs. 14,928. But the cost of the present establishment is Rs. 774 per mensem, or Rs. 9,288 per annum.

Tramway Working Expenses and Repairs. Estimate No. 17.

(12). Rs. 15,750 are reckoned as the cost of working expenses and repairs to the line of tramway.

New works from Revenue of Inland Vessels' Wharves. Estimate No. 19.

(13). Three sums are to be transferred from Revenue to the Capital account for new works, viz. a sum of Rs. 53,593 for completion of new road north of Ahecreetollah Ghât, a sum of Rs. 52,000 for pitching slope in front of Mint, and Rs. 25,000 for metalling the Inland Vessels' Wharf; the total amount being Rs. 1,30,593 against Rs. 73,500 in 1876-77.

Strand Bank Rents. Estimate No. 20.

(14). The receipts estimated at Rs. 1,22,794 show an increase of Rs. 18,000 as compared with the previous year. This estimate is based upon the actual receipts from the monthly rental of the Strand Bank lands.

Repairs and Improvements, Strand Bank Lands. Estimate No. 21.

(15). There is an increase of Rs. 13,600 as compared with the estimate for 1876-77, owing partly to the provision of Rs. 10,000 for widening roads and constructing foot-paths and drains, and partly to the provision of Rs. 3,600 for raising low lands.

Salaries. Strand Bank Lands. Estimate No. 22.

(16). The estimate, Rs. 2,032, shows an increase of Rs. 636 as compared with the preceding year. The increase is due to the horse allowance of Rs. 30 per mensem made to the rent collector, to the entertainment of a monthly writer on Rs. 20, and to the raising of the head peon's pay from Rs. 9 to 12 per mensem.

Municipal Taxes on Strand Bank Lands. Estimate No. 23.

(17). The decrease of Rs. 457 in the amount of the municipal taxes is owing to the reduction of half per cent. in the house and water rates.

Receipts from Mooring Hire. Estimate No. 26.

(18). The receipts estimated at Rs. 2,15,000 show an increase of Rs. 3,000 as compared with the previous year. The estimate is based upon the actual receipts of 1875-76, and not of 1876-77, as during the latter year the receipts increased considerably, owing to the additional tonnage employed in the conveyance of rice from Calcutta to Madras.

Receipts from Harbour Master's Department. Estimate No. 27.

(19). The collections from the Harbour Master's Department have been reckoned at Rs. 1,40,000 against Rs. 1,35,000 in 1876-77. The estimate under this head is also based upon the actual receipts of 1875-76, and not of 1876-77, as the earnings during the latter year were very materially augmented by the frequent entry and departure of steamers engaged in carrying rice from Calcutta to Madras.

Moyapore Magazine. Estimate No. 29.

(20). An income of Rs. 6,000 is estimated, being a decrease of Rs. 1,500 as compared with the estimate (Rs. 7,500) for the year 1876-77.

Interest of Government Securities. Estimate No. 31.

(21). There will be an increased income of Rs. 1,840 over the estimate (Rs. 21,110) for the year 1876-77.

Fines for Breach of Port Rules. Estimate No. 34.

(22). The receipts are estimated at Rs. 1,000, showing an increase of Rs. 600 as compared with 1876-77. The estimate is based upon the actual receipts of the past year.

River Police Establishment. Estimate No. 35.

(23). There is an increase of Rs. 540 in the cost of establishment as compared with the estimate for 1876-77, owing to the pay of the Superintendent of River Police having been increased by Rs. 60 per mensem, or Rs. 720 a year. Of this sum (Rs. 720), one-fourth (Rs. 180) is borne by Government, and three-fourths (Rs. 540) are defrayed by the Port Commissioners.

Salaries of Port Works Establishment. Estimate No. 40.

(24). The estimate for establishments employed on port works shows an increase of Rs. 144, which is due to annual increments of pay under the head "Port Pilotage Collecting Department," but this increase is reduced by Rs. 48 by a revision of establishment under the head "Steam Launches *Vectis* and *Phillis*." The total increase therefore is Rs. 96.

Pensions and Gratuities. Estimate No. 42.

(25). The estimate under this head shows an increased expenditure of Rs. 238 as compared with the previous year.

Probable balance on the 1st April 1877. Estimates Nos. 43-46.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h. and 22h. The maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the raingauge is one foot above the ground.

The following orders, issued by the Government of India in the Financial Department, are republished for general information:—

No. 195.—*Simla, the 27th April* 1877.—*Notifications.—Accounts and Finance.*—From the Secretary to the Government of India, Financial Department, to the Secretary to the Government of Bengal,—No. 1801, dated Fort William, the 26th March 1877.

In the Financial Statement made before the Legislative Council of the Governor-General, the Hon'ble Sir John Strachey announced the resolution of the Government of India to enforce provincial responsibility for the financial results of works constructed at the public expense for local and provincial purposes. The reasons for this resolution have been fully explained by Sir John Strachey, and the policy itself, and its consequences to the Lower Provinces of Bengal, have been discussed with His Honor the Lieutenant-Governor.

2. It now only remains for me to forward to you, for submission to His Honor the Lieutenant-Governor, the accompanying abstract statement showing the financial results of Irrigation Works and State Railways in Bengal from 1871-72 to 1875-76, with estimates for 1876-77 and 1877-78.

3. This statement is prepared upon the principle of charging to the works half-a-year's interest on the capital expended during the year, in addition to a year's interest on the capital expended to the beginning of the year. It will be observed that it is estimated that, to defray the working expenses of the canals in Bengal in 1877-78 and make good the interest upon their capital cost, a sum of Rs. 22,19,000 must be provided from separate provincial resources. The interest due upon the capital expended upon State Railways in Bengal is estimated at Rs. 8,21,000, of which it is estimated that the net traffic earnings will supply Rs. 2,36,000, and the net sum of Rs. 5,28,000 is required to hold the Imperial Treasury harmless as regards State Railways.

4. Thus the sum due in 1877-78 to the Government of India from the Province of Bengal, in accordance with the resolution announced in the Financial Statement, is estimated to be—

	Rs.
For canals	22,19,000
,, railways	5,28,000
Tatal ...	27,47,000

and, as announced by Sir John Strachey, the Government of India has taken credit for this sum in the estimates of the year 1877-78.

5. The calculations from which this demand is deduced do not include the capital expended on the Calcutta and South-Eastern Railway; but it is proposed to entrust the working of that railway to the Government of Bengal, and any profits that can be obtained from it may be appropriated to provincial uses.

6. The Governor-General in Council will accordingly make over to the use and responsibility of the Government of Bengal all the State canals and railways in Bengal, on condition that the Government of Bengal guarantee to the Government of India a net income calculated in the way in which the sum of Rs. 27,47,000 is calculated in the annexed statement.

7. If the canals and railways together yield less than the sum thus calculated, the Government of Bengal must supply the deficiency from separate provincial resources; if hereafter they should yield more, the surplus will be added to the balance of the local Government in the Imperial Treasury.

8. The transactions of the canals and railways will continue to be recorded as at present in the general accounts and estimates of India; the obligation now imposed upon the Government of Bengal will not interfere with the existing practice in this respect; but the local Government must include these transactions in the accounts and estimates which it is required to publish yearly under the rules for the administration of revenues and services entrusted to local Governments.

9. The present orders deal only with the financial part of the question; other questions connected with the future management of the works will have to be considered in the Public Works Department.

ORDERED that this letter and the abstract statement be published in the *Gazette of India*.

Ordered also that the letter and abstract statement be communicated to the Public Works Department for information and further orders, and to the Comptroller-General and the Accountant-General, Bengal, for information and guidance.

General Abstract Statement shewing the Financial Results of Irrigation Works and State Railways in Bengal from 1871-72 *to* 1875-76, *also Regular Estimates of the same for* 1876-77, *and Estimates for* 1877-78.

CHOLERA IN THE DISTRICTS OF CHITTAGONG AND NOAKHALLY.

FINANCIAL DEPARTMENT.—MISCELLANEOUS—No. 1308.

Calcutta, the 4th May 1877.

From—H. J. S. COTTON, Esq., Junior Secy. to the Govt. of Bengal,
To—The Commissioner of the Chittagong Division.

I AM directed to acknowledge the receipt of your letter No. 75G., dated 27th April 1877, in which you submit a report on the epidemic of cholera that has recently occurred in your division.

2. The Lieutenant-Governor deeply deplores the terrible effects of this outbreak, which have resulted, it is believed, in a mortality unprecedented even in the annals of cholera. At the same time, it is satisfactory to be able to say that the exertions of all the officers of Government to alleviate the disease were unremitting. All possible assistance was afforded, and very great credit is due to both Dr. Murray and Dr. Lyons, the Civil Surgeons of Chittagong and Noakholly, for the zealous and indefatigable manner in which they devoted themselves to their professional duties during a most trying period. The especial acknowledgments of Government are also due to Dr. Coates, the Sanitary Commissioner, who was deputed to Chittagong in December, and who not only organised a scheme for affording medical relief and for utilizing to the utmost the available agency, but himself personally visited the worst localities, lived among the people, and afforded them encouragement by his presence and advice. With two unfortunate exceptions, the native assistant surgeons and native doctors also did their duty well.

No. 75G, dated Chittagong, the 27th April 1877.

From—E. E. Lowis, Esq., Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Financial Department.

With reference to your letter No. 585, dated the 23rd February last, I have the honor to submit the following report on the severe epidemic of cholera which has occurred in my division. Statements showing the number of deaths that occurred up to 31st January 1877 have already been submitted with this office memorandum No. 662G, dated 13th ultimo, and similar statements showing the number of deaths which have occurred during the whole period from effect of cholera in both the districts of my division are herein enclosed, showing at a glance the terrible results of this outbreak of sickness.

2. I beg also to submit sketch maps showing the places where cholera prevailed in an epidemic form and caused great loss of life among the inhabitants, and also showing the localities at which the medical relief centres were formed.

3. Almost immediately after the cyclone of the 30th October, cholera broke out in those places which had suffered the most from the storm-wave. In Chittagong, cholera broke out immediately after the cyclone in Seetacoond and Coomirah, north of the station on the Dacca road. About the same time (7th November) cholera appeared at Bakolia and Changao, east of the station, in the town thana, and extended to the adjoining villages. On the 19th November it broke out in Moishkhali, Goshail Dengah, and Potengah, also in town thana: these places lie west of the station: these villages had also suffered much from the storm-wave; and on the 8th December the epidemic reached Kolagao, on the left bank of the Kurnafoolee, south of the sudder station, in Puttea thana, whence it extended by degrees to the adjoining villages. Kolagao had also been inundated by storm-wave. On the same date it appeared in Noapara and Raojan, where the storm-wave did not reach, though a small portion of the former was inundated by the overflowing of the river Kurnafoolee and its tributary the Halda; and on the 27th December it reached as far south as Banskhali on the Sungoo river in Satkanea. It thus gradually extended through the whole sudder sub-division of the district and Kutubdea, though it first appeared and raged with greater virulence in places inundated by the storm-wave.

4. The available native doctors were at once sent out to Seetacoond and Bakolia, where cholera first appeared; but in other places no medical assistance could at first be rendered, except by the distribution of cholera pills, as there were no extra native doctors or good medicines available. Assistance was, however, promptly indented for, as well as stores of medicines, both of which were urgently required. These were sent with all possible despatch, but the epidemic spread over the district in so short a time that, although the extra doctors with medicines arrived as early as could be expected, the disease had made great head before their arrival.

Dr. Coates, the Sanitary Commissioner, arrived here in December, just when men and medicines were most wanted; and with his valuable aid a scheme was drawn up for utilizing to the utmost the agency at our disposal. Nor did Dr. Coates content himself with simply giving advice; he personally visited some of the worst localities, carrying medicines with him, which he distributed on the spot, and by his presence and advice did much to allay alarm and anxiety in the minds of the people. It was determined to post the native doctors at different central places, dividing the stricken tracts into circles; and to ensure that the native doctors were on the alert, sub-assistant surgeons were placed in immediate charge of all these circles, the whole being under the control of the Civil Surgeons, to whom the native doctors submitted regular returns showing number of patients, success of treatment, stock of medicine in hand, &c. By this means the Civil Surgeons were kept informed of what was going on, and could exercise control. The two assistant surgeons and nine native doctors supplied by Government for this district were thus disposed of; and at the same time educated and charitable villagers were supplied with medicines for distribution to the village people who lived at a distance from the medical centres; while rules for observance of sanitary measures were circulated as widely as possible to

all the villages, especially where the epidemic prevailed. Some of the native gentlemen also in the town distributed medicines gratis; in short, the aid and sympathy of every one who could render any help were enlisted. The disease reached its climax about the end of December, when several European residents were attacked. Soon after this there was heavy rain, which checked the virulence of the disease to a certain extent. Cholera in Chittagong has abated since the heavy rains in February last, but it is yet to be found more or less throughout the district, as the disease appears to be epidemic in Chittagong. As I write, I learn from the Magistrate that news has reached him of cholera having broken out in Cox's Bazar, and to the extreme south of the district, a part which had hitherto escaped; the disease appears to have been carried there by persons returning from Akyab, where, I believe, cholera is now raging.

5. The district of Noakholly suffered even more severely than Chittagong, and in consequence cholera appeared in a virulent form and spread at once over almost all parts of the district, as well as in the groups of thickly inhabited islands of Sundeep, Hatea, Bamni, &c., &c. The disease first appeared where the salt-water had penetrated, and this tract being more extensive than in Chittagong, it appeared in a greater number of places simultaneously, and spread more rapidly, causing at the same time greater devastation. As in Chittagong, the disease seems to have reached its climax in Noakholly in the end of December; and from persons who came to attend the durbar in the beginning of January, I received most alarming accounts of the state of depression to which the people were reduced.

6. To prevent the spread of the disease, much the same measures were taken as at Chittagong; in fact, a scheme practicable for both districts was concerted with Dr. Coates, and the instructions issued and suggestions made were identical for both districts. These instructions appear to have been admirably worked by Dr. Lyons, who appears to have been indefatigable in the discharge of his duties at this trying time. The following measures were as far as possible carried out by him:—

1*st*.—Protection of drinking-water tank in station, and excavation of wells or tanks in large villages south-east and south-west of the district.

2*nd*.—Burning and burying of corpses and carcasses, and, where not practicable, they were floated out with the tide.

3*rd*.—People advised to make early applications for medicines and to avoid exposure and fatigue.

4*th*.—Police to see that the bodies of those who died from cholera were burnt or buried, and to advise relatives or friends of the cholera-stricken to destroy bedding, &c., and to bury as soon as possible all cholera evacuations.

5*th*.—Burning of large fires to windward of affected villages.

6*th*.—Fallen trees and branches in tanks and water-courses to be removed.

7*th*.—Recommending people to be specially careful about drinking-water, which should be boiled and allowed to cool before using.

8*th*.—Attention to conservancy and burning of refuse heaps.

9*th*.—Recommending that the people in the bazar (Shudharam) and neighbourhood should be required to clear up their latrines, or if that was impracticable, that the exposed filth should be sufficiently covered with earth to render it inoffensive.

10*th*.—Stagnant water in drains and water-courses to be baled out.

11*th*.—Thatching-grass fields in station to be cut down.

12*th*.—That brick-making operations carried on along some of the large drains in the station should be removed to outlets of drainage.

13*th*.—Personal inspection by the Civil Surgeon of fish and other supplies in bazar on frequent occasions; and two fishmongers detected selling fish unfit for use were prosecuted.

14*th*.—Forbidding the sinking of bodies in the khals.

7. Medical relief was afforded from the very outset of the epidemic (viz. from the 4th November 1876) at the charitable hospital, where, on the 8th November alone, as many as 114 persons applied for medicines for their

friends; police thanas and outposts also were furnished with cholera medicine as fast as they could be prepared and sent out.

Native doctors and compounders were entertained, and on the 7th November one of the former engaged on the islands of Sundeep was placed there for duty, and two of the latter were on the 9th of November sent to Ingadia and Chur Uria, while on the 11th November the sub-divisional native doctor proceeded to Faquir Hât. Meanwhile, further help had been called for, and on the 12th November two out of four native doctors telegraphed for arrived and were sent to Hatiya and Sundeep. On the 14th a compounder was despatched to Chaprassee Hât, and the remaining two native doctors telegraphed for on the 7th November, on their arrival on the 24th November, were sent to Farashgunge and Bamni. On the 27th and 29th two locally engaged native doctors were sent to Zorwargunge and Chagulnaya, and on the 30th November two more Government men arrived and were posted to Sundeep and Nulchira in Hatea. On the 8th December two more arrived from Calcutta and were despatched to Mirkaserai and Sundeep, and on the 11th December two more native doctors arrived and were sent to Sundeep. On the 16th December two assistant surgeons arrived, and in pursuance of the plan proposed by Dr. Coates were placed, one in charge of the Mirkaserai circle, and the other to Sundeep in the first instance, but he was afterwards directed to supervise Hatiya as well. In January I sent off a party of native doctors who had come by steamer with instructions to proceed to Noakholly, and *en route* to report themselves to the Fenny sub-divisional officer in case their services might be urgently required there. Of these, one assistant surgeon and a native doctor were detained by the officer in charge of Fenny sub-division, and stationed—the former at Kazi Hât, and the latter at Bamni; the remainder reported themselves at Noakholly, and were posted on 23rd January—a sub-assistant surgeon to Bhullooah, and four native doctors to Moonshee Hât, Moigdee, Chur Fakira, and Gungadas Moonshee's Hât. On the 7th February another native doctor arrived and was sent to Shantashita to replace a locally entertained compounder who had fallen sick.

8. Supplies of cholera medicines were furnished to the District Superintendent of Police, to intelligent people of Luckhipore, Begumgunge, Shantashita, Shonadea, Dulal Bazar, and to many others who desired to be provided with them for distribution; the officers, both European and Native, proceeding into the interior were also liberally supplied. Renewal of supplies on their requisitions were also made, and continued to be made, to native doctors and police thana officers.

9. The native doctors and compounders were given verbal and written instructions to explain to the people to be careful in their diet, drinking-water, and conservancy arrangements, &c.

10. One assistant surgeon was placed in inspecting charge of the islands, another of Mirkaserai or Eastern Division, a third of Bhullooah or Western Division, and the fourth was deputed to Kazir Hât by the sub-divisional officer. The sub-assistant surgeon, besides inspecting the work of the native doctors and seeing that the latter moved about their circles, were also provided with medicines and directed to treat cholera cases themselves.

11. According as the medical relieving officers arrived and could be entertained, they were sent to the parts most needing their services, and when the disease abated in one place they were sent to another. The staff consisted of four assistant surgeons, 16 Government native doctors and three local, three Government compounders and three local—total 29. Besides this, for jail, police, and dispensary works there were two native doctors and one compounder.

12. All the native doctors have been withdrawn from the islands, and the assistant surgeon who was there left for Calcutta on the 23rd February, while the services of the locally engaged men have also been dispensed with. There now remain at Noakholly two assistant surgeons and eight native doctors, who are distributed as follows:—

One assistant surgeon at Bhullooah and the other at Kazir Hât, and a native doctor at Moigdee, Begumgunge, Dulal Bazar, Bammi, Mirkaserai, Boktar Moonshee's Hat, and two in a reserve in Noakholly.

13. The services of the extra establishment at Chittagong have been dispensed with, and any necessity for keeping up that at Noakholly will, I trust, soon disappear.

Causes of disease: salt inundation.

14. The primary cause of the disease was of course the cyclone and storm-wave. Wherever the salt-water penetrated vegetation was killed and the drinking water spoiled, and there the cholera first began. In fact Dr. Coates found the limits of the first outburst coincident with the extent to which the salt-water penetrated. This was peculiarly marked along the Dacca road, the embankment of which saved the country to the east of it from inundation. Along that road every village to the west which had suffered from inundation was visited at once with cholera, while the villages on the other side of the road escaped at first. A poisoned state of atmosphere was added to bad drinking-water, for the storm-wave swept away everything before it, and the whole sea-coast towards the north was strewn with the carcasses of cattle and human bodies. In other places also the khals, tanks, the sea-shore were full of carcasses and corpses. No vultures were to be seen at first, and the people, who have suffered a great shock from the cyclone, could not be persuaded to bury the dead bodies. The local authorities tried their best, with the small agency at their disposal, to bury or float away the carcasses, but long before it could be accomplished the atmosphere was tainted, and so great was the smell that travellers passing along the roads, especially along the Seetacoond road, kept their nostrils and mouth covered with their hands or dress: and the same state of things in an intensified form was to be found all over the islands forming part of the Noakholly district. Salt-water, too, accumulated in innumerable ditches and other low places from which it was impossible to drain it, and this added to the evil.

Poisoned atmosphere.

Bad food.

15. The disease was further intensified by the use of bad food, the greater portion of the grain and other food upon which the people depended for their living having been destroyed or damaged. The people used the damaged grain for about a fortnight after drying it in the sun; large quantities of grain contaminated by salt-water were also carried away from the town by the people, who mobbed the merchants' godowns for the same, the police being unable to restrain them.

Use of bad water.

16. Bad water I have already alluded to as a cause of sickness. The water of almost all the tanks on the sea-coast was rendered either salt or brackish, while all vegetation in them was destroyed by the admission of salt-water, and the accumulation of carcasses and débris in them made the water more impure than ever. The narrow strip of country, about 24 miles long and four miles wide, along the west of the Dacca trunk road, portion of the eastern bank of Kurnafoolee, Banskhali, and northern part of the Kutubdea, as well as the islands and coast of Noakholly, were submerged, and the people had no alternative but to use the water of those tanks. Where tanks were distant the people fared rather better, for, by digging small wells for themselves, they obtained, it is true, brackish water, but water that was less contaminated by decayed vegetable matter.

17. Thanks to the promptitude with which our indents for men and medicine were attended to, and thanks especially to the counsel and help of Dr. Coates, the late terrible outbreak of disease has been checked and successfully combatted. I do not mean to say that medical help was afforded to every sufferer; but it has been afforded to many; and the very fact of help being at hand did much to dispel anxiety and give the people courage and confidence. To Dr. Coates, as I have said, is due the organization of a scheme for affording medical aid and for utilizing to the utmost the agency at our disposal, as well as for valuable professional suggestions and instructions; but the best devised scheme will break down if inefficiently administered; and it is due to the Civil Surgeons of Chittagong and Noakholly, Dr. Murray and Dr. Lyons, to state that but for their personal exertions and the interest taken by them in the work, the disease would not have been as successfully dealt with as it has. The Magistrates of the two districts afforded valuable help, but of course professionally they could do little. The sub-assistant surgeons and native doctors did well with two unfortunate exceptions, viz. Sub-Assistant Surgeon Baboo Shibkisto Dass, who refused

to go to Sundeep when cholera there was at its worst, and a sub-assistant surgeon who deserted his duty at Mirkaserai. Both these cases have been separately reported. With these exceptions the other native doctors have done excellent service.

18. I have not been able to submit this report as soon as I hoped, for cholera has taken longer to abate than I expected; it was not till after 1st April that I could say it had almost entirely disappeared, and until I could report to that effect, it seemed useless reviewing the success of the measures adopted for its suppression.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table,—"Prof. papers on Indian Engineering No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Clouds.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above being all comparable, afford the data for constructing a meteorological chart for the month which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

REYNOLDS postponed the motion which stood in his name for the passing of the Bill to provide for the levy of a cess for the construction, charges, and maintenance of provincial public works in Bengal, until after the consideration of the amendments of which notice had been given by the hon'ble member opposite, Raja Pramatha Natha Roy.

The Hon'ble Rajah Pramatha Natha Roy said there was no provision in the Bill requiring the cess to be realized from the sharers of an estate. The Road Cess Act required the holder of an estate to pay the entire amount of road cess, leaving him to recover from his co-sharers such sums as might be payable in respect of their shares by the tedious process of a civil suit. That procedure was adopted in order to make the task of collection easy to the Government. But as a matter of fact, zemindars found it so difficult to realize anything from their co-sharers that there was hardly an instance of one shareholder attempting to recover from another. The passing of the recent land registration law would enable the Collector to ascertain who were the sharers in an estate; and it would therefore now be easier for the Collector to realize both the road cess and the public works cess from all co-sharers, than to oblige landholders to recover from their co-sharers. The object of the amendment he was about to move was to render sharers who were separately registered under sections 10 and 11 of Act XI of 1859 liable for the payment of the proportion of the public works cess which was payable in respect of their shares. He moved that the following section be introduced after section 5:—

Section 6.—"In the case of any joint estate, every sharer of such estate shall be entitled to pay his share of the amount of the public works cess to the Collector in the manner prescribed by section 22 of the said District Road Cess Act separately, and shall not be liable to pay more than his share in the case of any default on the part of his co-sharers."

The Hon'ble Mr. Reynolds said he regretted that these amendments had been brought forward, because, if the Council departed from the principle of the procedure under the Road Cess Act, it would produce confusion in the accounts, and would render it difficult to assess and to collect the rate. There was one point, and only one, in which the Select Committee thought it desirable to depart from the procedure of the Act of 1871: it was the provision to substitute the certificate procedure of Act VII of 1868 for the procedure laid down in section 23 of Act X of 1871. But at the last meeting of the Council the recommendation of the Committee in that respect was reconsidered, and it was determined, on the motion of the Hon'ble Nawab Meer Mahomed Ali, that the procedure under the Road Cess Act should be retained. Mr. Reynolds accepted that amendment, not because he thought the procedure of the Road Cess Act was preferable to the procedure of Act VII of 1868, but because he understood it to be the sense of the Council that the road cess procedure should be temporarily retained, although the proposed departure from it might be an improvement. Therefore he thought it undesirable that the Council should now go into the point whether any improvements or alterations of procedure might now be made. There were, besides, strong objections to the principle of the amendment before the Council. The principle of the road cess and of the public works cess was that those who were liable for the payment of the Government revenue should also be liable for the payment of the cess. In the case of sharers in joint estates all proprietors were jointly and severally liable for the payment of the Government revenue, and they were similarly liable for the payment of road cess. But the amendment proposed that every sharer should be allowed to pay his share of the road cess separately in proportion to the amount of his share. He could do that now if he had opened a separate account under Act XI of 1859; but so long as he did not do so, Mr. Reynolds thought it was as objectionable to authorize separate payment of the road cess or of the provincial public works cess, as it would be in the case of the land revenue.

The Hon'ble Baboo Kristodas Pal said he did not clearly understand whether it was considered objectionable to realize the provincial public works cess directly from sharers whose names were registered under Act XI of 1859. The intention of the amendment appeared to him to go only so far.

The Hon'ble Mr Reynolds said he believed that it was the practice at present to receive payment of road cess from registered shareholders. But the amendment would include sharers whose names were not so registered. The road cess was payable by the persons by whom land revenue was payable. If a separate account was opened for the payment of land revenue, then the road cess would be separately payable by the persons who had so opened separate accounts. But there was no mention in the amendment confining its

operation to recorded sharers who had opened separate accounts, and therefore under it the provincial public works cess would have to be collected from every joint sharer.

The HON'BLE RAJAH PRAMATHA NATHA ROY observed that if he was informed correctly the practice under the Road Cess Act was to realize the cess from one sharer, even where the other sharers had opened separate accounts under Act XI of 1859; and there was no provision in the Road Cess Act to prevent such a procedure.

The motion was then negatived.

HIS HONOR THE PRESIDENT said he thought it was hardly desirable to proceed now to amend the Road Cess Act. It seemed almost a pity to take up one or two sections and amend the Act piecemeal. There were other questions which would come up, and which might sooner or later make it desirable to amend the Act. He thought it was better to let these amendments stand over until the Council could take up a well-considered general amendment of the Act. The amendments might all be very good, but this was hardly the time to consider them.

The HON'BLE RAJAH PRAMATHA NATHA ROY said he would be prepared to withdraw his amendments if the proposed section 9 were agreed to. At present no remuneration was given to the persons who had to collect the cess from the ryots. The agents employed by the zemindars for the collection of rents demanded additional pay for the additional work imposed upon them. There were cases in which these agents received a commission on the gross collections made by them, and they were now taking an additional percentage for the collection of the road cess, and they would no doubt also demand further remuneration for the collection of the public works cess, and these percentages the zemindars would be obliged to pay in addition to the cesses which they were called upon to collect: they had, in fact, to pay for the collection of Government cesses, which was very hard upon them. He therefore moved that the following section be introduced after section 5, and he hoped it would be agreed to:—

Section 9.—"It shall be lawful for the person to whom any sum shall as public works cess have been directly paid by the holder of any tenure or tenures for which no rent is paid, to retain one-fourth thereof as and for his remuneration for costs and risk of collecting the same; and where such sum shall have been paid as aforesaid by any cultivating ryot, to retain fifteen per centum thereof as and for his remuneration as aforesaid."

HIS HONOR THE PRESIDENT said he thought this section stood in exactly the same position as the other sections proposed by the hon'ble member. It might be right, or it might not, that a certain amount of commission should be given to zemindars to cover losses from bad debts and to cover the cost of collection. At present the Act which had been passed by the Council for the imposition of the road cess deliberately ruled otherwise. Therefore he did not think that at the last moment it was quite right to propose any alteration of the scheme of the road cess, especially on the very short notice which had been given. No doubt the amendment was upon a subject which was worthy of consideration, and HIS HONOR had already publicly said that he was quite prepared to consider what remuneration should be given to the zemindars for the collection of these cesses. But he did not think that the Council would be in a position, without consulting the local officers of Government and others interested, to say what was the exact amount of *mashaira* which should be allowed to zemindars to cover their losses. He therefore thought the consideration of this section should stand over until the general amendment of the Act was taken up, so as to enable the Government to inquire what was best to be done in regard to this matter.

The HON'BLE RAJAH PRAMATHA NATHA ROY said that under the circumstances stated by His Honor the President he would withdraw the amendment.

The amendment was then by leave withdrawn.

The HON'BLE MR. REYNOLDS moved that the Bill be now passed. He said it was not necessary for him on this occasion to go into the principle of the measure which had been formerly recognised by the Council, but he would wish to be allowed to make a few remarks on what was said at the last meeting of the Council with reference to the necessity for this Bill. It was

suggested by the hon'ble member opposite (Baboo Kristodas Pal) that possibly the receipts from the stamp revenue under the Registration Act might be so large as to dispense with any necessity for further taxation, and MR. REYNOLDS thought that an estimate was made that the Government might possibly receive 50 lakhs upon that account. It was very difficult to make any estimate of what the real receipts in consequence of the Registration Act would be. Government had called for information on the subject from district officers, but that information was not yet available. As far as he had been able to ascertain, from such information as he had collected, the receipts from this source would be very much smaller than had been suggested, and in fact would be very small indeed. The number of estates on the towzee was about 150,000—the exact number was 151,589. Taking them at 150,000, and estimating that we should have three applications from sharers in each estate, we should have 450,000 applications in respect of estates paying revenue to Government. Besides that, we should have to take into account *lakhiraj* estates and applications from managers and mortgagees. The former were required, and the latter permitted, to make applications under the Registration Act. It would be very difficult to say what number of *lakhiraj* lands there were, but he believed it would be considered a liberal estimate if he took the number of these at the same number as estates paying revenue to Government. That gave a total of 900,000 applications. Besides that, we had to take into account the extra stamp fees from *mooktarnamahs*. A great proportion of the applications for registry would be filed by *mooktars* possessing general powers of attorney, and would not require fresh stamps. Then we must consider that perhaps one-third or 300,000 *mooktarnamahs* would be filed in connection with these applications, making in all a total of 1,200,000 applications and mooktarnamahs, which, at the stamp duty of eight annas each, would make a total of six lakhs of rupees. He did not take into account the revenues derived from fees realized from registration of transfers, because they did not form part of the provincial revenues, but would be credited to the Imperial Government. We then had to consider how much of these six lakhs would come into the coffers of the Government of Bengal. The notification under the Act declared that all persons should register by the 1st of November, and a period of six months was given, after which certain disabilities and penalties would be incurred by those who had not registered. It had not been ascertained yet quite exactly how many applications had been made, but we had to remember that the stamp revenue was made over to the provincial Government from the 1st of April; so that five out of the six months would elapse before this revenue would belong to the local Government, and for those five months it would belong to the Government of India, and the Government of Bengal would receive the receipts only for a single month. He could hardly say what the amount of revenue during that month would be, but there could be little doubt that there would also be many claims which would be brought forward after the six months had expired; and on the whole he thought it might be safely said that the additional revenue which would accrue to the local Government from the operation of this Act would not exceed five or six lakhs of rupees. It must also be remembered that the local Government would have to make good to the Government of India the sum of $2\frac{3}{4}$ lakhs in addition to the estimated revenue from stamps, so that there would really be only a small surplus under the provincial Land Registration Act, and such surplus was entirely insufficient to meet the additional calls which we should be obliged to meet in respect of provincial public works. He thought he need not detain the Council with any further remarks.

The HON'BLE BABOO KRISTODAS PAL said that when, at the last sitting of the Council, he referred to the increase of stamp revenue which might be expected from the enforcement of the Land Registration Act, he said he had no distinct data before him such as would enable him to give an estimate of the exact amount to be derived, but from information he had received from competent persons in the mofussil, he was led to believe that it would at least cover the amount which the local Government sought to raise by the two Bills now before the Council. He thanked the hon'ble member for favouring him with the data which he had obtained for forming an approximate estimate of the expected increase of revenue from the Land Registration Act. That amount, the hon'ble

* Telegrams of the 14th May show rainfall during the seven days immediately preceding.

member thought, would not exceed four or five lakhs of rupees, and the hon'ble member had given his reasons for this estimate. BABOO KRISTODAS PAL dared say the hon'ble member had made the fullest inquiry before arriving at that conclusion; but it struck him that there was one important omission in his first item. If he had followed the hon'ble member correctly, he said that the number of estates in the Lower Provinces of Bengal amounted to 150,000. If he remembered aright the figures given in the land revenue reports of the Board of Revenue for the last three or four years, he believed that the number of estates in the permanently-settled districts was 150,000. Now the districts of Orissa—Balasore, Cuttack, and Pooree—so far as he was aware, contained a multitude of small estates, some of them comprising only five or six beeghas of land, and the number of shareholders was again very large. So he was not quite sure whether the small estates in Orissa, which were so large in number, had been included in the grand total mentioned by the hon'ble member. A large revenue, he thought, might be expected from the working of the Land Registration Act in Orissa alone. Last week he received a letter from Cuttack, in which it was stated that in March last the sale of stamps for purposes of the Land Registration Act produced Rs. 50,000 in the district of Cuttack alone. Then again he might mention that he had a conversation lately with one of the most experienced judicial officers in Tirhoot, who told him that the sale proceeds of stamps in connection with the Land Registration Act in that district would probably amount to Rs. 1,00,000. In that district the estates were small, and the number of sharers very considerable. Of course he spoke only from what he had learnt from others. He had no official data before him, and he might state that he would be greatly disappointed if the increase of revenue from the sale of stamps for purposes of the Land Registration Act did not exceed Rs. 5,00,000.

Then, with regard to the remark of the hon'ble member, that the notification requiring people to register their titles to lands, which was issued in November last, allowed six months from that date, and that the sale of stamps for applications made previous to April would not benefit the provincial revenues, BABOO KRISTODAS PAL fully admitted that fact; but he believed the hon'ble member was aware that there had been a rush for registration only since April last, and that people had been sleeping, as it were, over the thing for the past four or five months, and had rarely taken active steps for filing applications. Of course there had been applications filed during the preceding five months, but he did not think the number was very great; so that the bulk of the increased revenue would be derived by the local Government since the stamp revenue had been made over to the local Government, from the 1st of April last.

In conclusion he desired to state that, consistently with what he had said on the occasion of the introduction of the Bill into Council, when he took the liberty to object to the principle of the Bill, he felt it his duty to enter his formal protest against the passing of the Bill into law.

The HON'BLE BABOO ISSER CHUNDER MITTER said he wished to add a few words in respect of the revenue which was expected to be derived from the sale of stamps in connection with the operation of the Land Registration Act. Whatever might be the revenue which might come in under this head, against the receipts from the sale of stamps must be set down the expenditure which must be incurred in carrying on the operations consequent on the registration of estates. He was in a position to say that for every estate on the towzee there would be an expenditure of about three rupees for the sevice of processes, which expenditure would go a great way to take up the receipts which might be got from the sale of stamps. He was aware that there was another head under which there would be receipts, namely fees for registration; but these fees would perhaps scarcely suffice to cover the cost of the innumerable forms which had been printed. And if all these things were taken into consideration, he believed that the anticipated increase of revenue would not be large.

HIS HONOR THE PRESIDENT said he thought that there was only one point bearing upon this question, and that was whether we had any such knowledge of the anticipated increase of revenue as would justify the Government in withdrawing this Bill. Whatever information we possessed of the receipt of Rs. 20,000 here and Rs. 20,000 there was all speculative, and he was quite certain that

it would not in any way meet the requirements of the Government in respect of interest upon provincial public works. He did not understand that the hon'ble member now maintained that the Government was in such a position as to warrant it in relying on that revenue to meet the requisition of the Government of India.

In addition to what had been already said as to the possible receipts under the Land Registration Act, he might state that he had obtained last night an exact account of the receipts in one division containing five or six very large districts. That account showed a total increase of Rs. 70,000 in the stamp revenue in that division, and that entirely bore out the rough estimate which had been made by the revenue officers of the Government at his request, by taking the number of estates in the province and the value of the stamp involved in each registration.

The motion was then agreed to and the Bill passed.

COMPULSORY RATE ON IRRIGABLE LANDS.

The Hon'ble Mr. Ravenshaw said that in dealing with the compulsory Irrigation Bill the Committee had found considerable difficulty in so adapting the procedure of the Bill as to suit the peculiarities of different parts of the country; and, moreover, it had been found that in some places time might properly be afforded to zemindars and people to construct field-channels and prepare themselves for the system of compulsory irrigation. It had also been pointed out that in some districts cadastral surveys had been carried out, and it was very desirable that survey of irrigable areas in all districts be completed, so that the Bill might provide one procedure for all parts of the country. Therefore it was desirable that postponement of the Bill be allowed until the cadastral survey in Orissa was carried out. He understood also that the Government proposed to depute a special officer to make local inquiries and to advise the Committee in working out the different clauses of the Bill, and as to the best manner of adapting its procedure to suit local requirements. In consideration of these circumstances he had the honour to move that the Select Committee be allowed six months' time to enable them to report on the Bill. During that time it was hoped that cadastral surveys and construction of field-channels would be pushed on to completion.

The Hon'ble Mr. Bayley observed, with reference to what had fallen from the last speaker, that he did not think there was any hope of the cadastral surveys being completed in the different districts in so short a time as six months.

The Council then adjourned *sine die*.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

D'après une délibération du conseil général de la Martinique, sanctionnée par décret due 1er février 1867, la colonie était autorisée à percevoir pendant dix ans, sur les navires français étrangers armés au long cours et au grand cabotage entrant dans le port de Fort-de-France, un droit de tonnage réglé ainsi qu'il suit :

The mean pressure, temperature, &c., are deduced from observations made at 6h, 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

FINANCIAL DEPARTMENT.

NOTIFICATION.

No. 616.

Simla, the 27th May 1878.

His Excellency the Right Hon'ble the Governor-General in Council has resolved to borrow Two-and-a-half Crores of Rupees for the public service in the following manner.

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of four-and-a-half per centum per annum, payable half-yearly, on the Fifteenth day of March and the Fifteenth day of September: the form and conditions of these Notes will be, *mutatis mutandis*, those of the Notes of the Transfer Loan of 1st May 1865, except as to rate of interest, and that they will not be discharged before the Fifteenth day of September 1893. No Note will be issued for less than one hundred rupees, or for any amount not being a multiple of one hundred rupees.

3. Tenders for the whole or part of the above-named sum of Two-and-a-half Crores of Rupees will be received by the Comptroller-General from this date to noon of Monday, the Twenty-fourth day of June next.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller-General, Treasury Buildings, Calcutta, and enclosed in a sealed cover superscribed "Tender for Loan."

5. Tenders will be opened at the Office of the Comptroller-General in Calcutta, at noon on Monday, the Twenty-fourth day of June next.

6. Accepted tenders must be paid, in three equal instalments, on the following dates:—

One-third on Monday, the Eighth day of July 1878:
One-third on Thursday, the Eighth day of August 1878:
One-third on Monday, the Ninth day of September 1878:

but the whole or any part of any tender may be paid at any time after its acceptance is notified.

7. Interest upon each payment will be paid in advance from the date when such payment is received to the Fifteenth day of September next.

8. Payment of any accepted tender may be made to the account of the Government in one of the Presidency Banks of Bengal, Madras, or Bombay, or in any Branch of any of the Presidency Banks, or into any Government treasury or treasuries in India which may be named in the tender.

9. Each tender must be accompanied by a receipt from one of the Presidency Banks of Bengal, Madras, or Bombay, or one of their Branches, or from an Officer in charge of some Government treasury, or by a cheque on a banker in Calcutta, Madras, or Bombay, or by Government Promissory Notes made payable to the Comptroller-General for not less than one-hundredth, or if the tender be for less than five lakhs of rupees, then for not less than one-fiftieth part of the tender: this deposit of one or two per centum will be treated as in part payment of the last instalment, and will be forfeited if the allotment is not fully taken up: a cash deposit may, after the tender in support of which it is made is accepted, be replaced by a Government Promissory Note.

10. Scrip receipts for instalments paid will be given by the Presidency Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government treasuries at which payment is made: these receipts will, as soon as possible, be exchanged for Promissory Notes.

11. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and placed upon the table, in a sealed envelope, when the tenders are opened, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

12. The rate stated in a tender must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. Tenders at the recorded minimum rate, and at rates above the recorded minimum, will be accepted in the order of the rates tendered, beginning with the highest rate: the amount allotted at the lowest rate at which tenders are accepted, will be divided amongst those who have tendered at this rate, in proportion, as nearly as may be found convenient, to the amounts of their tenders.

14. The names of the persons whose tenders are accepted in whole or in part, will be posted, for general information, at the Presidency Banks of Bengal, Madras, and Bombay.

NOTIFICATIONS.

Simla, the 15th May 1877.

RULES FOR THE CUSTODY, DISTRIBUTION AND SALE OF POSTAGE STAMP LABELS.

Approved by the Government of India in Financial Department letter No. 715, dated 9th February 1877.

(N. B.—These Rules apply both to Service Stamps and to Ordinary Stamps, with the exceptions noted in Rules V and VIII.)

Supplies from Central Depôts.

I.—Supplies of postage stamps for the Madras Presidency, including Mysore and the local depôts subordinate to Madras, shall be supplied by the Superintendent of Stamps at Madras on the indent of officers in charge of local depôts.

II.—Supplies of postage stamps for the Presidency of Bombay, including Sind, Berar, the Central Provinces, and local depôts subordinate to Bombay, shall be supplied by the Superintendent of Stamps at Bombay on the indent of officers in charge of local depôts.

III.—Stamps for the Bengal Presidency, including the North-Western Provinces, Oudh, the Punjab, Central India, Rajpootana, Assam, and British Burmah, and local depôts subordinate to Calcutta, shall be supplied by the Superintendent of Stamps at Calcutta on the indent of officers in charge of local depôts.

IV.—The above mentioned supplies from central to local depôts shall be issued on credit.

Local Depôts.

V.—Every Treasury throughout India, including those attached to political, customs and salt agencies, shall be a local depôt for the sale of postage stamps, provided that the value of the stamps sold at one time to any purchaser shall not be less than Rs. 5, and shall not include any fraction of a rupee. At any station at which there is a collector of land revenue, neither a salt agent nor collector of customs shall be entrusted with the custody and sale of postage stamps. All sales under this rule will be for cash on delivery; and when the purchaser is one of those who are required to retail stamps under Rule VIII (not being a person employed in a Government Treasury), or is one specially authorized under Rule IX, a discount of one-half anna per rupee will be allowed. But to purchasers other than the above, no discount will be allowed; and officers in charge of local depôts must see that discount is not allowed except to the privileged officers above referred to. The sale of embossed envelopes shall be subject to the same conditions, except that they shall be sold in packets containing sixteen envelopes each, portions of a packet not being saleable. The price of each packet shall be the value of the stamps borne by the envelopes contained in it, the discount (if any) being calculated on that value.

The above rule is only partially applicable to "Service Stamps," which may be sold *only to Government officials without restriction as to a minimum amount on a written application, accompanied by payment of the value in cash*, and on which *no discount is allowed*. A receipt containing in detail the gross value of each description of Service Postage Stamps sold will be granted by the treasury officer for the amount paid to him.

VI.—A supply equal to the probable consumption for five months of the district attached to each local depôt shall be kept in each, and as soon as the number in store has fallen below the number expended during the preceding six months, the collector, or other officer in charge of the depôt, shall indent* on the central depôt of his Presidency for a number equal to the consumption of the last three months for which accounts have been rendered to the central depôt of the Presidency. If by any accident the stock of any value should run short before the receipt of a fresh supply from the central depôt, the officer in charge of the treasury will indent on neighbouring districts for a quantity sufficient to meet the demand, which may be supplied or not, according to the discretion and on the responsibility of the officer indented on, with reference to the wants of his own district. It will be the duty of the Superintendent of Stamps of the Presidency to report to the Director General of the Post Office, for the orders of

* Form 1.

Government, every occasion on which it may appear, from the monthly statement or otherwise, that the store of stamps of any particular value in any district has fallen below the authorized amount.

Branch Depôts.

VII.—Every branch treasury and every tehsil treasury shall be a branch depôt for the sale of postage stamps under the conditions described in Rule V. It will receive its stamps from the local depôt to which it is subordinate, keeping always in store a supply sufficient to meet the probable demands of one month, estimated according to the average of former sales. It will keep an account of sales in the same form (3) hereafter prescribed for the treasurer's account, and will indent for supplies in the same form (4) as hereafter prescribed for the treasurer's indent. It will render an account monthly to the local depôt in Form 6A immediately on the expiration of the month.

Retail sale of Stamps.

VIII.—A supply of stamps *for sale by retail* shall be kept available at every post office, receiving house, tehsildaree, thana and every police station at which letters are received for despatch, and with every licensed stamp-vendor; and it shall be the duty of the officer to whom the person in charge of any of the above-named places is subordinate, to take steps to ensure that the supply kept on hand is at all times equal to at least one week's demand. Persons in charge of the above-mentioned places will receive discount on purchases under Rule V.

This rule does not apply to "Service Stamps."

By the term "licensed vendor," as used above, is meant a stamp-vendor licensed under rules framed by the local Government in accordance with Section 48 of the General Stamp Act (XVIII of 1869).

Authorization of certain retail vendors other than the above.

IX.—A district officer may authorize the grant of discount at half-anna per rupee on purchases under Rule V to any person who is a *bonâ fide* retail vendor of postage stamps, although he may not be one of those required to retail them under the above rule. Such authority shall be given in writing, and must be produced by the person authorized when claiming discouut on purchases: the authority will hold good for only 12 months from the date on which it is given, and may be revoked at any time at the discretion of the district officer. No such authority may be given to any person employed in a Government Treasury. The authority so given may at the discretion of the district officer be made subject to conditions to be expressed in the writing of authority in any or all of the following respects, *viz*:—the maintenance of a sufficient supply of all or any specified denominations of postage stamps for retail: a particular shop, place or locality, or particular shops, places or localities, in which postage stamps are to be exposed for sale: the days and hours during which they are to be so exposed: and any restriction upon the sale in shops, places or localities other than those specified. A register showing the name, residence, and occupation of every person so authorized, and the date of the authority, shall be kept by the district officer.

Custody of Stamps in Local Depôts.

X.—The bulk of postage stamps in store at any local depôt shall be kept in parcels, containing a known number of sheets, in the treasury or other secure place, in one or more strong chests or presses, under double locks,—the key of one lock of each chest or press always remaining in the hands of the collector or other officer in charge of the stamps, and the key of the other in the hands of the treasurer.

XI.—The remainder of the stamps in store shall be in the hands of the treasurer, and shall not exceed the probable demand of fourteen days, estimated according to the average of former sales.

indent, after being approved or altered by the officer in charge of the postage stamps, shall be signed by him, and complied with as directed in the following rule. The indent thus signed shall be the warrant for the issue of the stamps.

XIV.—The officer in charge of the postage stamps shall cause the store under double locks to be opened, and the required number to be counted and delivered to the treasurer in his presence. A store-book‡ shall be kept in English, in which the number and value of the stamps delivered to the treasurer shall be entered, and a balance struck at the time of delivery. This balance will be attested by the initials of the officer in charge and of the treasurer, both of whom shall invariably be present during the whole time that the store under double locks, or any part of it, remains open. The deliveries shown in the store-book will agree with the indent as approved.

‡ Form 5.

XV.—If the treasurer require stamps at any intermediate time, the same process will be observed as is prescribed in the two preceding rules.

XVI.—Stamps will be supplied from the store under double locks only to the treasurer and to branch depôts, and on indent from them respectively. Sales should be made not out of store, but from the supply in the hands of the treasurer or the supply in branch depôts.

XVII.—As soon as possible after the arrival of a despatch of postage stamps from a central depôt, or from any other local depôt, the packets or boxes are to be opened, one at a time, in the presence of the officer in charge of stamps. The stamps contained in each box or packet are then to be immediately counted and compared with the invoice,§ which, after being receipted, will be returned by the first post to the depôt whence they were despatched. Unless the officer in charge of the stamps can certify that the stamps contained in any given packet or box were immediately counted by himself personally, or in his presence, he will be held responsible for the value of any that may be found deficient. The stamps are then to be placed in the store under double locks and entered in the store-books, and no stamps are to be delivered to the treasurer or sold to any party without being first brought into store.

§ Form 2.

XVIII.—Officers in charge of stamps will have the stamps in store, both those under double locks and those in the hands of the treasurer, counted in their presence on the last open day of September and March in each official year, and will certify having done so in the following terms at the foot of the monthly accounts of sales and stock* for those months furnished to the Superintendent of Stamps:—

* Form 6.

"*I do hereby certify that I have personally counted the postage stamps in store on* 18 , *the actual value of which is Rupees* (here enter the amount in words and figures); *and that the rules prescribed by the order of the Government of India, dated 9th February 1877 are duly observed.*"

XIX.—On occasions of transfer of charge, postage stamps will be made over in the same manner and under the same precautions as the cash balance in the treasury.

XX.—The officer in charge of each local depôt will submit, within the first week of each month, an account† to the Superintendent of Stamps of his Presidency, showing the balance in hand at the sudder and branch treasuries at the close of the preceding month, and the sales effected during that month.

† Form 6.

Returns to be made by Central Depôt.

XXI.—The Superintendent of Stamps of each Presidency will, on the 15th of each month, in addition to any account required by the Accountant General, furnish the Director General of the Post Office with a memorandum‡ showing the number of stamps distributed by him during the preceding month; and at the close of each month he will also furnish another memorandum§ showing the number and value of stamps in hand, and the total amount of the actual sales of each local depôt and of all the local depôts supplied by him.

NOTICE TO MARINERS.

INDIAN OCEAN, SEYCHELLES, MAHÉ ISLAND.

Exhibition of fixed red lights at Port Victoria.

Information has been received from Her Britannic Majesty's Chief Commissioner of the Seychelle Islands that, on the 1st March 1877, a *fixed red* light was exhibited from a lighthouse recently constructed on the north-west edge of the Southern reef at the entrance to Port Victoria.

The light is exhibited at an elevation of 37 feet above the level of high water, visible through an arc of 142°; or, from S. 1° E. through south and west, to N. 39° W., except where obscured by the outlying islands, and in clear weather should be seen from a distance of 9 miles.

The illuminating apparatus is *catoptric* or by reflectors.

The building is of granite, 42 feet from base to vane, and painted white. Position as given, latitude 4° 36′ 48″ S., longitude 55° 31′ E.

The same authority has also notified that a *fixed red* light is shown towards the anchorage in the Inner harbour at Port Victoria.

Directions.—A vessel entering St. Anne's road at night when about 3 cables distant from the north-west point of St. Anne's Island should steer S. W., observing to keep the lighthouse between the bearings of S. W. by W. and S. W. by W. ½ W., until the south

point of St. Anne's Island bears E. S. E.; thence a S. W. ½ S. course to the anchorage, with the light bearing from W. by S. ¾ S. to W. by S. At this position the channel into the Inner harbour will be open, but at night should never be attempted by strangers without the aid of a Pilot.

At the entrance to the Port moorings are laid N. 55° E. 3½ cabels from the lighthouse for the steamers of the Messageries Maritimes, with an iron buoy, painted *red*, to support the bridles. Caution therefore is necessary in anchoring near the vicinity of this buoy, which should have a berth of half a cable to avoid fouling the moorings, the anchors of which are placed nearly east and west.

[*All Bearings are Magnetic. Variation* 4° 40′ *W.*]

RESOLUTION ON THE ADMINISTRATION OF THE OPIUM DEPARTMENT FOR THE YEAR 1875-76.

REVENUE DEPARTMENT.—MIS. REVENUE.

Calcutta, the 26th May 1877.

READ—

Letter No. 313B, dated 17th April 1877, from the Secretary to the Board of Revenue, submitting the reports of the Opium Agents of Behar and Benares on the operations of the Agencies during the season 1875-76.

THE total number of beeghas under poppy cultivation in the Behar and Benares Agencies during the year 1875-76 was 849,168, which yielded an outturn of 148,818 maunds of opium. This is the largest outturn on record.

2. The extent of land under opium cultivation, the outturn, and average produce per beegha in the Behar and Benares Agencies during the past six years are as follow:—

YEAR.	BEHAR.			BENARES.		
	Land under cultivation.	Outturn.	Average produce per beegha.	Land under cultivation.	Outturn.	Average produce per beegha.
	Beeghas.	Mds.	Srs. C.	Beeghas.	Mds.	Srs. C.
1870-71 ...	487,550	45,763	3 12	346,485	30,976	3 9
1871-72 ...	497,801	51,913	4 2 7/8	365,471	29,528	3 3 7/8
1872-73 ...	471,280	54,846	4 10	356,442	33,258	3 11
1873-74 ...	410,278	60,861	5 15	328,654	43,000	3 3 5/8
1874-75 ...	510,313	68,977	4 10	359,353	39,201	4 5
1875-76 ...	470,926	68,704	5 13 1/4	378,242	60,113	6 4

3. The season at both agencies was a very favourable one, as is shown by the high rate of the average produce. The outturn was worst in the unirrigated lands to the north of the Ganges, and best in the Behar lands south of the Ganges, where the whole of the cultivation is irrigated. In the Shahabad district the general average produce was as high as 8 seers 10 chittacks per beegha.

4. Advances for the construction of wells for irrigation purposes were made liberally, and with good results. Manuring experiments were not very successful. The experimental cultivation during the season under review was again confined in both agencies to seed selected by Mr. Scott, but it was found that the average produce per beegha obtained from the selected seed was rarely, if ever, greater than that obtained from the ordinary seed. The experiments, therefore, must be said to be very discouraging, and they have been renewed during the present season in a few of the sub-agencies only.

5. The policy of continuing rewards in the form of presents of shawls, &c., to deserving cultivators, has been under consideration during the year, and it was found that the officers who were best qualified to give an opinion were in favour of the system. The distribution of these rewards is in accordance with old custom, and it seems to be appreciated by the people, and to stimulate them to the production of better opium. The extension of the challan system of weighing opium has also been under discussion, and there is much difference of opinion as to its advantages over the system of home weighments, which still prevails over most of the Benares Agency. The principal argument in favour of the challan system is that it is calculated to relieve the officers at head-quarters, especially the Principal Assistant, of some mechanical work, and to enable them to devote more time and attention to their proper duty of analysis. On the other hand, home weighments are said to be more popular with the cultivators, and this is a point of special importance at the present time, when prices are about to be reduced. In the meantime the orders extending the challan system to Ghazipore and Azimgurh are temporarily in abeyance.

6. It is unnecessary to do more than refer to the recent important notification declaring that the price to be paid by Government to cultivators for the next crop will be reduced from Rs. 5 to Rs. 4-8 per seer of the present consistency. The area under cultivation for the next season will also be reduced by the abolition of the Chota Nagpore Sub-agency and of the Rohinee factory in the Monghyr district.

7. The Lieutenant-Governor observes with satisfaction the favorable report of the working of the saw-mill at Bankipore under Mr. Girling, the engineer in charge. He is also glad to acknowledge the valuable services of both the Agents, Mr. H. W. Alexander at Patna and Mr. H. Rivett-Carnac at Ghazipore, and of the two Principal Assistants, Drs. Sheppard and Durant. Mr. Money, the Member in charge of the Board of Revenue, exercised as usual the most assiduous and efficient supervision over the affairs of the department throughout the year.

By order of the Lieutenant-Governor of Bengal,

Junior Secy. to the Govt. of Bengal.

		Central Districts.		
Rajshahye and Cooch Behar Divn.	15	Darjeeling	.....	Return not received.
	16	Julpigoree, May 26 '77	8 17	Heavy rain fell on the 21st instant, resulting in a rapid rise of the river. In Julpigoree, Silligoree, Patgram, and Alipore, excessive rain has injured the crops. When it is not raining the weather is very hot and close, and the atmosphere is charged with damp. Most of the *bitri dhan* is too strong to be injured now. *Cheena* has suffered a little. So far there has been no cholera in the district this year, and this is probably attributable to the early rains.

	18	Furreedpore, „ 26 „	·97	There has been heavy rain during the week, alternating with sultry weather. 2·2 inches registered at Madaripore. The river is rising rapidly. The cultivation of the low lands is still impeded by the unusual rainfall.

	24	Chittagong Hill Tracts, „ 22 „	3 87	Weather—Very hot during the first part of the week. Heavy falls of rain, accompanied with squalls, have lowered the temperature since the afternoon of the 21st instant. The clouds have not yet cleared away, and the wind is blowing from the south-east. The falls of rain during the week have much improved the prospects of the paddy crop in the *jooms*. The *joomeahs* are very busily engaged in sowing. Cholera has again broken out in the Chengri Valley.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

Commissariat beer ... ... Mds. 4,910 Rs. 2,391

Government stores ... ... ,, 12,994 ,, 32,556

The small increase in the former is merely a set-off against the decrease in the latter half of 1876.

That in other Government stores has been mainly in the despatch of arms and ammunition to the Agra and Ferozepore arsenals, in connection (it is said) with a change being made in the arming of the troops by the adoption of the Martini-Henri Rifle.

Coal—Upward ... . Mds. 99,167 Rs. 15,639

Downward .. ... ,, 3,11,972 ,, 45,888

The increase in the upward coal is steady.

The downward traffic is largely increased (some 330 tons a day above 1876).

Ghee ... ... Mds. 9,131 Rs. 10,283

There is a large and continuous demand for the Calcutta market and an ample supply in the Cawnpore district, so that this traffic continues to show considerable increase.

Grain and pulses .. ... Mds. 9,87,468 Rs. 4,22,763

Made up as under—

Wheat	,, 4,79,424	,, 3,30,453
Rice	,, 1,63,276	,, 14,640
Other cereals	,, 2,60,545	,, 65,183
Pulses	,, 84,223	,, 12,487

Thus it will be seen that one-half the increase in weight and nearly four-fifths of the increase in earnings lies with the one staple of wheat, which is pouring in from the Punjab and from Oudh mainly for export from Calcutta.

Other Cereals—Of this increase Cawnpore contributes about 6,000 tons in traffic to the famine districts, and the Punjab about half as much, which nearly all goes in the same direction.

Pulses.—The greater portion of this increase is also in edible pulses going to Western India.

The very large increase in—

Gunny of ... ... Mds. 51,918 Rs. 56,370

is an index of the activity of trade in produce.

The increase is entirely in the despatches from Howrah for bagging produce up-country, and the weight shown above implies the bagging of at least 100,000 *tons* more produce than was arranged for at the same time last year.

Hides ... ... Mds 12,013 Rs. 7,798

The export trade has been brisk throughout April, and a good supply has come in from Tirhoot and the Patna district.

Iron ... ... Mds. 42,486 Rs. 53,467

The general traffic in iron is still brisk, and there was also a large despatch of ironwork to Nusseerabad for some special works there.

Jaggree ... ... Mds 38,021 Rs. 33,765

The cane cultivation is still developing in the Shahabad and Buxar districts, and the increase is steady.

Opium ... ... Mds. 24,989 Rs 30,121

There were exceptional despatches of the "provision" opium, owing to previous delays in getting it to the Presidency for some departmental reasons.

Salt ... ... Mds. 62,331 Rs. 22,155

This is almost entirely in the despatches from Howrah; prices *ex ship* have been low, and dealers have bought for direct despatch to up-country marts.

Stone ... ... Mds. 9,632 Rs. 1,745

This is a despatch of rubble stone from Luckhiserai to Patna.

Tobacco ... ... Mds. 15,433 Rs. 11,264

Large quantities have been offered at Barrh and Mokameh.

There has also been a good deal from the Purneah district *vid* Caragola ferry.

Decreases.

Betelnuts ... ... Mds. 3,180 Rs 4,329

This is a very small fluctuation, looking at the large increases which have been shown for so many months past.

Cotton ... ... Mds. 29,058 Rs. 42,018

The *increase* over 1876 in the previous month was 45,000 maunds, Rs. 67,000, owing to an impression obtaining that there would be room to operate in export trade; but this has proved erroneous, and there are large stocks on hand in Calcutta, while the export for the whole month of April was barely 20,000 maunds.

Firewood ... ... Mds. 28,435 Rs. 252

Kunkur ... ... „ 35,100 „ 465

These are two branches of the traffic which have been almost obliterated for the time by the pressure of more important staples.

Piece-goods ... ... Mds. 22,541 Rs 35,519

The stagnation in this trade just now is remarkable. Money is dear, prices are low, holders are unwilling to press sales and cause a further fall.

... the head of "Cotton Goods:"—"The dearness of

This decrease is mainly due ...
owing to the demands of other traffic

Saltpetre ... ... Mds 17,168 Rs ...

The price of saltpetre has been steadily rising in the Calcutta market owing to the expectation of war, but there are said to be no stocks on hand, and there would probably be a much heavier traffic in this staple but for the excessive demand for carriage of other staples

Seeds show increase in weight of 1,28,616 maunds, with decrease in earnings of Rs 7,708

The money decrease is merely nominal.

The demand for export is very great, and buyers are taking what they can most readily get.

Sugar shows decrease in weight of 7,311 maunds, with increase in earnings of Rs. 9,429.

Neither fluctuation is of much importance.

The train mileage for the period has been—

That in merchandise is as before due to the very heavy grain traffic to Bombay and Western India owing to the famine, a state of things which seems unhappily likely to last for some months yet.

J. C. BATCHELOR, *Traffic Manager.*

Reports of Fluctuations of Traffic on the Eastern Bengal Railway for the Month of April 1877.

Report on the Traffic for four weeks ending 28th April 1877.

Dated the 23rd May 1877.

From—JAMES BRANDER, ESQ., Traffic Superintendent,
To—The Agent, Sealdah.

The quantity of goods carried during the above period was 6,10,758 maunds, as against 4,38,149 maunds in the same period of last year, showing an increase of 1,72,609 maunds.

The following are the principal staples that have added to this increase:—

Increases.

Grain ... ... Mds. 1,01,215

This staple, as was expected, still holds its own in the market, owing to the demand for exportation.

Hides ... ... Mds 6,237

This item shows an increasing tendency, more demand having arisen in the market.

Piece-goods ... ... Mds. 4,415

It is satisfactory to note that this traffic, which paid high freight, is still increasing; being all upward traffic, tends to reduce the empty mileage.

Railway materials ... ... Mds. 8,083

We are still despatching a considerable quantity of material for the Northern Bengal State Railway, which adds to our upward revenue.

Salt ... ... Mds. 22,918

This article of commerce continues to show a satisfactory increase, and as this traffic now seems to be fairly established, it will no doubt continue to grow.

Seeds ... ... Mds. 59,765

These are still increasing, showing that eastern country seed is again being sought after, and that large quantities are arriving at Goalundo.

All other goods ... ... Mds. 37,317

This miscellaneous traffic continues to thrive, and shows a considerable increase. This traffic is nearly all upward

Decreases.

Gunny ... ... Mds 6,958

This is easily accounted for owing to the great demand for sacks in the interior.

Jute ... ... { Drums 30,198 / Bales 12,782

The decrease shown in the above article is owing to the season being earlier over this year than last and the jute presses up-country closed

Tobacco ... ... Mds. 12,413

This produce still seems to fall off, owing, I have no doubt, to the present want of demand in the market here and in Europe for the article.

Turmeric ... ... Mds. 6,143

This article shows a decrease owing to there having been a smaller quantity offered for carriage, but this product fluctuates very much owing to demand in Calcutta.

I attach the usual statement showing the increases and decreases of the principal staples.

Statement showing the Increases and Decreases in Maunds of Staples carried over the Line for the four weeks ending the 28th April 1877, as compared with the corresponding period of 1876.

NOTIFICATION.

The 30th April 1877.—The following rules, for the guidance of the Benches of Magistrates to be established in Calcutta under Section 9 of the Presidency Magistrates' Act IV of 1877, framed by the Chief Magistrate of Calcutta and sanctioned by the Lieutenant-Governor, are published for general information :—

1. The Bench shall try such cases as may be referred to it by either of the Stipendiary Magistrates, subject to the provisions of Rule 8. Provided, further, that no case triable by the High Court only shall be so referred.

2. Benches shall ordinarily sit for the first hearing of cases on the dates and at the time mentioned below. A special Bench may, however, be convened on any other day by either of the Stipendiary Magistrates :—

[*Here insert dates and time of sitting.*]

3. A Bench shall ordinarily be composed of not less than three Magistrates, when they are all Honorary Magistrates, or of two, when one of them is a Stipendiary Magistrate and the other an Honorary Magistrate. The Honorary Magistrates will sit in the rotation arranged by the Commissioner of Police, but any Magistrate not named may sit unless the Chief Magistrate otherwise directs.

The Stipendiary Magistrates shall be *ex-officio* members of Benches.

4. The Chief Magistrate shall, if present, officiate as Chairman. In his absence the Junior Magistrate shall, if sitting, officiate as Chairman. In the absence of both the Stipendiary Magistrates the Bench may elect its own Chairman.

5. The Chairman shall conduct the proceedings of the court, and exercise all the functions in that behalf usually exercised by a Presidency Magistrate when sitting alone. He shall decide upon the admissibility of evidence, and maintain order in the court; but it shall be open to any member of the Bench to put any question to the witnesses, either direct or through the Chairman, as the latter may deem advisable, and to suggest any matter for the Chairman's consideration.

6. Each member of the Bench shall have a voice in the finding and sentence. In a Bench of three or other uneven number, the opinion of the majority shall prevail. When the numbers are even, the Chairman shall have a casting vote.

7. The Chairman shall generally record the evidence and judgment in cases in which a record of evidence and a judgment are necessary; but such duty may, with his consent, be performed by any one of his colleagues.

8. The Bench may hold one or more adjourned sittings, if this be found necessary for the disposal of business, or of part-heard cases; but it shall be open to the Bench, at the close of its regular sittings, either to refer unheard cases back to the Magistrate under whose order of reference they received them, or to postpone them to some other day, as may seem most convenient. Any part-heard case postponed to a further sitting of the Bench may be proceeded with if any member of the Bench has been present at the previous hearing in the case, but subject to the provisions of Section 156 of the Presidency Magistrates' Act.

Any part-heard case may, however, be sent back to the Magistrate under whose order of reference it was received, should it appear unsuited for trial by a Bench. In such cases the Magistrate shall recommence the trial.

ESTABLISHMENTS FOR CARRYING OUT DISTRICT ROAD CESS WORKS.

Circular No. 38E, dated Fort William, the 29th May 1877.

From—G. A. D. ANLEY, ESQ., C E, Asst. Secy. to the Government of Bengal in the Public Works Department,

To—All Commissioners of Divisions.

IT is of very great importance to have a well organized system of establishments for carrying out district road cess works, and the Lieutenant-Governor has had this question under his consideration.

2. Some of the nominations by District Committees which have come up for the approval of Government have been of persons who have not been up to the desired standard, though sometimes a good deal was to be said in their favour.

3. The impossibility of Committees obtaining fully qualified engineers has led to such men not being summarily rejected, and to their being allowed a trial in temporary employment.

4. It is now possible to introduce an improved state of things, and Circular No. 37 of this day's date has intimated that tests will be more stringently applied than heretofore.

5. I am to observe that some progress has been made in giving practical training to students of the Civil Engineering classes of the Presidency College who have passed examinations for the various classes of the Public Works Department. When they have completed the prescribed practical instructions, they will be attached temporarily to the Public Works Department, where they will continue to be trained and to acquire practical knowledge.

6. The Lieutenant-Governor hopes that in this way District Committees will be able to obtain duly qualified men at a salary which they can afford; for as these men will not be on the Government pension list, it will be unnecessary to grant them salaries sufficient to cover the contributions which Government servants accepting local employment have to make towards their leave allowances and pension.

7. Some of the salaries now given by District Committees are larger than need be. This has partly been due to the necessity of making allowances to those Government officers who have taken employment under Committees, in order to cover their contribution to pension, and the scale of remuneration which has thus arisen seems to have had some effect on the scale of salaries generally. The Lieutenant-Governor trusts that salaries will eventually come to a more reasonable level, when the difficulty which has been noticed above has been removed, and will be more commensurate with the engineers' responsibilities than is now the case in some instances.

8. In conclusion, I am to remark that, when submitting the names of temporary employés under Rule X of the Notification No. 319 of 29th June 1875, Committees sometimes think it sufficient to report that the persons concerned have given satisfaction during the year. Manifestly such a recommendation may be of a very qualified nature, as the duties performed may have been of a very ordinary description, affording little or no real test of the person's qualification. The Lieutenant-Governor considers that Committees ought to have a better stamp of men than can be passed under such a test, and permanent employment will not be sanctioned on other than well established evidence of fitness and capability. A very stringent application of these principles might bear very severely on old servants of Committees, and to such His Honor will afford such consideration as may be compatible with the public interests and the maintenance of a proper standard of efficiency.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table,—"Prof. papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page, by adding 1° Fahrenheit for every 500 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Clouds.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above being all comparable, afford the data for constructing a meteorological chart for the month which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

THE following Notification is published for general information.

By order of the Lieutenant-Governor of Bengal,

Offg. Secretary to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATION.

Simla, the 7th June 1877.

His Excellency the Right Hon'ble the Governor-General in Council has resolved to borrow Two-and-a-half Crores of Rupees for the public service in the manner following.

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of four per centum per annum: the form and conditions of these notes will be those of the notes of the Consolidated Transfer Loan of 1842-43, of which loan they will form a part. 6. The amounts of accepted tenders must be paid, in five equal instalments, on the following dates:—

10. Scrip receipts for instalments paid will be given by the Presidency Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government treasuries at which payment is made: these receipts will, as soon as possible, be exchanged for promissory notes.

The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and placed upon the table, in a sealed envelope, when the tenders are opened, but will not be declared unless tenders for Two-and-a-half Crores of Rupees are received but not accepted.

12. The rate stated in a tender must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

3. A Bench shall ordinarily be composed of not less than three Magistrates, when they are all Honorary Magistrates, or of two, when one of them is a Stipendiary Magistrate and the other an Honorary Magistrate. Any part-heard case postponed to a further sitting of the Bench may be proceeded with if any member of the Bench has been present at the previous hearing in the case, but subject to the provisions of Section 156 of the Presidency Magistrates' Act.

Any part-heard case may, however, be sent back to the Magistrate under whose order of reference it was received, should it appear unsuited for trial by a Bench. In such cases the Magistrate shall recommence the trial.

Procedure on Native being found by committee to be insane.

6. If the said committee or regimental committee (as the case may be) are satisfied that the Native is insane, the officer commanding the division or district or force may, if he thinks fit, make an order under his hand for the reception of the said Native into a lunatic asylum, and shall then send him thither under military escort; and the officer in charge of such asylum shall receive the Native into the asylum and detain him therein until he is discharged therefrom, in accordance with the local military regulations in force for the time being.

Procedure for discharge of European or Native military lunatic.

7. Whenever it appears to the officer in charge of a lunatic asylum that the discharge of a military lunatic, whether European or Native, is necessary either on account of his recovery or for any other purpose, such person shall be brought before the visitors of the asylum, and on the visitors recording their opinion that the discharge should be made, the general officer commanding the division, district, or force, or other officer authorized to order the admission of military lunatics into asylums, shall forthwith direct him to be discharged, and such discharge shall take place in accordance with the local military regulations in force for the time being.

Payment of expenses of lunatic.

8. The Paymaster of the military circle within which any such asylum is situate shall pay to the officer in charge of such asylum the expense of the lodging, maintenance, clothing, and medicine of every lunatic, whether European or Native, received and detained under this Act.

Legalization of past receptions in asylum.

9. All military lunatics heretofore received into lunatic asylums shall be deemed to have been so received in accordance with law.

REVISED BUDGET ESTIMATE, PROVINCIAL SERVICES.

FINANCIAL DEPARTMENT.—FINANCE.

Calcutta, the 6th June 1877.

READ—

Resolution of this Government, dated the 22nd February 1877, on the estimate of Receipt and Expenditure of the Provincial Services of Bengal for the year 1877-78.

Letter from the Government of India, Financial Department, No. 1899, dated 29th March 1877, surrendering certain additional revenues and services to the use, management, and responsibility of the Government of Bengal.

The Resolution of this Government, read above, reviewed the estimate of receipts and expenditure of the revenues and services transferred to the Provincial Government in 1870. According to this estimate the Provincial Services Budget for 1877-78 opened with a balance of Rs. 47,692, and, after deducting the current expenditure from the yearly revenue, the year closed with a small credit balance of Rs. 10,790. It should, however, be observed that this result was obtained by taking credit in the budget for a grant or contribution of Rs. 70,000 from the Provincial Reserve Fund.

2. The Resolution of the Government of India, read above, now transfers to the control of the Provincial Government certain additional revenues and services, and calls for a revised estimate for the year 1877-78.

3. The Lieutenant-Governor understands that no actual revision of the details of the budget provisions is called for, as the estimates when framed

were well considered and are not susceptible of reduction. But a revised general estimate is required, so as to combine the receipts and expenditure of the services now transferred with those transferred in 1870; and this general revised estimate is rendered the more necessary owing to a retrenchment or deduction of Rs. 5,90,000 from the amount of the Imperial assignment made to the Bengal Government. This reduction, which is ordered in paragraph 26 of the Government of India's Resolution above quoted, makes it necessary to revise the general provincial estimate, so as to show how the Local Government now proposes to carry on its financial administration, and a revised general estimate has accordingly been prepared and is hereto annexed.

4. This estimate is an amalgamation or consolidation of the provincial estimate of 1877-78, as already sanctioned, with the receipts and charges of the several budget heads now transferred to provincial control. The only material alteration it has been found necessary to make is under the head of "Stamps." The Government of India has surrendered to the Bengal Government the revenue under this head for a payment to the Imperial Exchequer, during 1877-78, of Rs. 98,50,000. But, from returns which have been called for by the Local Government, it appears that it may reasonably be expected that a sum of at least Rs. 5,90,000 in excess of the original estimates will be realized during 1877-78 on account of sales of stamps, owing to the operations under the Land Registration Act VII (B C.) of 1876, and this anticipated income being added to the Stamp revenue surrendered by the Government of India (Rs. 98,50,000), produces an equilibrium in the closing balance of 1877-78, which still stands at about Rs. 11,000 under the head of Provincial Services.

5. A grant of Rs. 7,000 has been made to the Local Government in consideration of its undertaking the charges for the police guard on duty at the Government Houses—Calcutta and Barrackpore. These charges will be debited against the Police Budget, and an addition of Rs. 7,000 has been accordingly made to the allotment under this head.

6. In the same manner, the Government of India has granted a sum of Rs. 7,000 for the repairs of the offices of the Superintendent of Stamps and Stationery, of the obelisks (navigation marks) on the banks of the river Hooghly, and of the Bishop's Palace. These repairs will be undertaken by the Department of Public Works, and the allotment to that department has accordingly been increased by a sum of Rs. 7,000.

7. In preparing these revised estimates, the Lieutenant-Governor has not lost sight of the fact that, according to the orders of the Government of India in the Financial Department, No. 1801, dated the 26th March 1877, the Bengal Government is liable to the Supreme Government for a further sum of Rs. 27,47,000 on account of Extraordinary Public Works, Irrigation Works, and State Railways. This liability is to be met by the taxation imposed under the Public Works Cess law, which has lately received the sanction of the Governor-General.

8. The head of Provincial Reserve Fund remains unaltered, and under this head the year 1877-78 opens with a credit balance of Rs. 1,03,027, and closes with a balance of Rs. 2,90,246 as before.

9. Taking together the balances under both the heads of Provincial Services and Provincial Reserve Fund, it will be seen that a total working balance of Rs. 3,01,445 is left in the hands of the Provincial Government for general administrative purposes and unforeseen expenditure beyond the actual provision made in the various departmental budgets.

ORDER.—Ordered that a copy of this Resolution, and of the annexed Estimate, be submitted to the Government of India, Financial Department, and that copies be also forwarded to the Accountant-General, to the Public Works Department, Public Works Department, Irrigation Branch of this Government, and to the Judicial, Political, Appointment, Revenue, and General Departments of this Office.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1876.

POLICE.

Calcutta, the 24th May 1877.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1876.

THE total number of cases reported in the Town and Suburbs of Calcutta during the past year was 35,733. In 1875, 37,763 cases were instituted. The decrease is in great measure owing to a falling off in the number of conservancy prosecutions in the Suburbs, but it is to some extent observable under most heads, cognizable and non-cognizable, and in offences under the Penal Code, as well as in miscellaneous offences. The number of persons arrested shows a corresponding falling off, and the increase which nevertheless took place in convictions is ascribed to the withdrawal of magisterial powers under Act IV of 1866 from the Deputy Commissioner. This has rendered it necessary for the police to place all persons arrested before either the Commissioner or the Magistrate, and persons discharged with a warning by the Magistrate are shown as convicted, whereas persons similarly released by the Deputy Commissioner could not be so shown. It is found that 25,861 persons out of 35,368 arrested were convicted in 1876, against 22,792 out of 36,930 in 1875. The convictions for offences under the Penal Code show that in the Town there is one criminal in every 126 persons, and in the Suburbs 1 in 170. The proportion of criminals to population is about the same for Hindoos and Mussulmans in the Suburbs. In the Town, however, the proportion borne by Mussulman criminals to population is more than double that of the Hindoos. The explanation of both phenomena is no doubt to be found in the circumstance that the low floating population of the town, which provides the lascars, porters, carters, and the like, is chiefly made up of Mussulmans.

2. The total number of true cases of offences against property fell from 2,808 in 1875 to 2,565 in 1876, and the value of the property stolen from Rs. 1,64,646 to Rs. 1,05,667. The Commissioner claims to regard this as a proof of the successful efforts of the police during the year. The Lieutenant-Governor, however, remarks that the number of cases detected has decreased in still greater proportion, and the diminution in dishonest crime may not unreasonably be credited rather to the successful prosecutions of 1875 than to the vigilance of 1876. It may even be apprehended that the diminished success in convictions in the past twelve months may result in an increase in the number of offences against property during the current year. The falling off in the value of property stolen cannot be taken as a necessarily favourable symptom. The statistics of property stolen and recovered are often violently disturbed by some exceptional circumstance entirely beyond the control of the police. Thus a great part of the difference in the value of the property stolen in 1875 and 1876 is represented by the value of the jewels of the Maharajah of Cashmere, which were stolen in the former year. When once a theft occurs, the amount stolen may be great or small, without culpability of the police being in any way increased or lessened. In 1874 there was a falling off in offences, a large increase in detections, and at the same time a very large increase in the value of the property stolen, over the preceding year.

3. *Town.*—Turning to the detailed classification of crime, the Lieutenant-Governor remarks that serious offences against person and property both show an increase, and minor offences a decrease. The difference is so small that no explanation is offered, nor indeed is any possible. Four murders were committed during the year—two by drunken sailors and two by natives—and five attempts at murder were made, in four of which natives were the culprits, while in the fifth the offender was a European soldier. In 1875 there were only three murders and two attempts. The Lieutenant-Governor admits, however, that ordinarily the occurrence of offences of this nature is no reproach to the police. They cannot usually be expected to prevent murders of this sudden character, and they can only be blamed if they fail to detect the murderers. Mr. Eden

remarks with satisfaction that in this year, unlike 1875, there have been none of those atrocious cases, once so common in Calcutta, in which prostitutes are murdered for the sake of their ornaments. The two native murderers were convicted. The sailors were acquitted under circumstances which reflect no discredit on the police. In four out of the five cases of attempt at murder the offenders were convicted; in the fifth the accused was pronounced insane and was removed to a lunatic asylum. Three cases of culpable homicide occurred. In one case death resulted from rupture of the spleen, and the accused was discharged; in one the accused was convicted; and in the third case (No. II) there was an apparent failure of justice. The Lieutenant-Governor desires to be informed if any steps were taken to punish the man Cook, at whose hands, according to his own statement, the native boatman met his death. There were 13 cases of grievous hurt, of which five were withdrawn by the complainants. In one the accused absconded, and in four convictions were obtained. The other three were cases of stabbing, and in none of them was the offender brought to justice. Generally speaking, the Lieutenant-Governor is satisfied with the action of the Calcutta police in regard to offences against the person. The only unsatisfactory feature is the failure to obtain convictions in cases of stabbing arising out of drunken brawls; but in these the attendant circumstances doubtless render it difficult to establish judicially the guilt of the offender.

4. It is by their action in preventing and dealing with offences against property that the police of a large city must be judged. In Calcutta so many shops containing valuable property are left at night unguarded and protected only by a flimsy padlock, and the habit of entertaining as servants persons of unknown antecedents is so common, that the difficulties of the police in both directions are much enhanced. Under all the circumstances, Mr. Eden considers it satisfactory that only 102 cases of burglary occurred in Calcutta during the past year, and that of these 25 were detected. Only 73 out of the 102 were successful burglaries, and of these only 60 occurred at night. Out of 1,961 true cases of theft, 821 were successfully enquired into. This is a satisfactory result. Under the heads of "lurking" and "possessing suspicious property," the Lieutenant-Governor is glad to observe that arrests have not been so indiscriminate as last year. The Lieutenant-Governor, however, is unable to follow Mr. Metcalfe's argument on this point. Apparently he urges that the withdrawal of magisterial powers from the Deputy Commissioner has led to the police being more careful in their arrests, since now all people arrested have to be brought before a Magistrate; all such persons discharged by a Magistrate will under the existing rule be shown as acquittals in the returns, and it is presumably the dread of this which has led to the police being instructed "not to arrest without a reasonable prospect of securing a conviction." Mr. Metcalfe apparently regrets this restriction. To the Lieutenant-Governor, on the other hand, some restriction seems obviously required, and though the motive which has led to this increased caution on the part of the police is not one which can be highly commended, he trusts that cautious action in this direction will be strictly maintained. At the same time the Lieutenant-Governor observes that the probability of a conviction is a very unsafe guide for a police officer in judging of the propriety of an arrest, especially when his suspicions are first aroused. A police officer should arrest no one capriciously, hastily, or without reasonable grounds; but he must be singularly wanting in a sense of what the public have a right to expect from him if he omits to arrest a man against whom he has fair proof, or strong suspicion, simply because he is afraid that the judicial officer will acquit him. All that Government expect is that the Commissioner will check the action of the police in the exercise of the discretion allowed them, not by any hard-and-fast rule, but by taking proper notice of any instances of want of judgment or arbitrary conduct. But no police can be efficient if they are for ever haun[illegible] by the fear of showing too many acquittals.

5. The circumstances under which the forgery case connected with the office of the Executive Engineer of the Presidency Division was detected, and the forgers convicted, were most creditable to Darogah Shama Churn Mookerjee, and the Lieutenant-Governor hopes that he has already been rewarded with promotion.

6. *Suburbs.*—In the Suburbs there was little variation in the amount of cognizable crime. Three murders and one attempt at murder occurred, and all were detected. One of these, the notorious case of Judoonath Gangooly, is wrongly entered in the report under culpable homicides. In two out of the three cases of culpable homicide the accused were convicted. The sentence of six months' imprisonment and Rs. 50 fine passed by the Deputy Magistrate of Sealdah on the persons who tortured a woman with ground chillies and burnt her with heated metal seems to have been most inadequate, and a report on the subject will be called for from the Commissioner of the Presidency Division. One hundred and twenty-two burglaries occurred, of which 63 were successful and 27 cases were detected. Three hundred and thirty-five cases of theft were detected out of a total of 841. The number of cases is not excessive, nor are the results specially bad. The suburban area is large and the constables' beats are extensive, while the construction of the houses, the irregular formation of the streets and lanes, and the defective lighting, afford facilities for the commission of burglaries. Still, though the results are fair, the suburban police has not been so successful as the city force.

7. There was a slight decrease in the number of suicides and some increase in the number of accidental deaths. The most noteworthy accident that occurred was the unfortunate explosion of the torpedo boat on the river, in which eleven persons lost their lives.

8. The imports of all descriptions of fire-arms and of gunpowder during the past year show a remarkable decrease, and this is especially noticeable in respect of arms intended for the Bengal frontier districts and the Upper Provinces. The instance quoted by Mr. Metcalfe seems to suggest the necessity for a rule requiring dealers to enter on transit passes the arms and ammunition sold. It may be questioned, however, if even this would be sufficient to prevent the use of passes a second time. Mr. Metcalfe's recommendations on this point should be submitted in a separate communication, when they will be duly considered.

9. The Lieutenant-Governor observes that the decrease in the number of operations under the European Vagrancy Act which has been effected of late years is still sustained. This is attributable to the vigilance which has been exercised over the proceedings of importers of horses from Australia. Attempts have often been made to evade the responsibilities imposed by the Vagrancy Act by entering the names of the grooms on the ship's articles as seamen, and then having them discharged as such in Calcutta. A little confusion has arisen in some cases, owing to a diversity of opinion as to the actual capacity in which the men in charge of the horses were employed on board. The great distinction to be observed is whether the men are servants of the ship, hired by the master under the usual seaman's agreement to look after any horses that may be on board, or have been hired by the owner of the horses to accompany the animals on the voyage. In the former instance, though the men might be technically held to be seamen, the Shipping Master would be quite justified in refusing to discharge them, on the ground that they would be unlikely to obtain further employment as sailors; in the latter, the importers should be held responsible for the expense of deporting the men, should action be taken against them under the Vagrancy Act. In no case should the cost be a charge upon the public revenues.

10. The number of men dismissed from the police (1,481, or 4·8 per cent.) is large. In the Suburbs the number of dismissals increased from 6 to 44. The only satisfactory feature about this return is the absence of the names of European constables from the list, and the fact that only one officer of the higher grades was removed. The number of deserters, particularly in the Suburbs, continues to be large. Mr. Eden is glad to see that the gross number of fines inflicted shows a substantial decrease on the previous year. He regrets, however, to observe that it is still considered advisable to inflict this punishment on Inspectors. In the Lieutenant-Governor's opinion an Inspector should very rarely be fined. If he is regardless of reprimands he should be reduced or discharged. The Lieutenant-Governor observes that the proportion of Bengalees to up-country men in the force is 311 to 1,867. It is undoubted that Bengalees are not generally well suited for duties of watch and ward, and particularly for night patrol. But Mr. Eden must observe that watch and ward is not all that police officers have to look to, and that no civil police

can be efficient if most of the men are only fit for duty as sentries; and efforts should be made to induce Bengalees, who are essential for detective purposes, to join the force. It is out of the question to expect men from the Upper Provinces to be of any real use in detecting crime among a Bengalee population. The arguments adduced against the enlistment of Bengalees as constables do not hold against their appointment to the higher grades. It appears that the numbers of Bengalees and up-country native officers were nearly the same on the 31st December 1876 as on the same date in 1875. The last report showed only 39 of the latter, but it has been ascertained that 20 were then on special duty in connection with the Prince of Wales's visit, and were consequently not shown in the return. The Lieutenant-Governor must insist upon the employment of a greater number of intelligent and educated Bengalees in the Calcutta Police.

11. It is impossible to reconcile the figures of old offenders borne upon the registers of the Town and Suburbs as given in the two last reports. It is stated, however, that 793 old offenders "disappeared" in 1875 and 395 in 1876. It would seem that many of those who are entered as "disappeared" in 1875 were, in consequence of a careful scrutiny of the register, struck off altogether in 1876, and that many of them also re-appear in the Suburban register, having been found at their homes in the Suburbs. The Lieutenant-Governor considers that the police should have been able to give more definite information regarding the destination of the large body of criminals who have been lost sight of. It may be presumed that a great number of them have gone to practise crime in the interior, or in other sections of the town, and a thoroughly efficient metropolitan police should be able to warn the provincial authorities of the departure of noted criminals for their jurisdiction. Similarly, there can be little doubt that the criminal ranks in Calcutta have during this period received considerable accessions of persons convicted in the interior; but it does not appear whether any such names have been entered on the registers. All this points to what has been the subject of much regret to Government—the want of cordial and free interchange of communication between the metropolitan and the provincial police. The Lieutenant-Governor trusts that vigorous, but discreet, action will be taken under the Presidency Magistrates' Act to have security for good conduct required from persons of notoriously bad livelihood, and that old offenders on fresh conviction will be severely dealt with.

12. Mr. Eden desires to record his acknowledgments of the zeal and energy exhibited by the police in conducting the extra duties which devolved upon them in connection with the census of Calcutta. He is also glad to learn that the Inspectors have given satisfaction to the Health Officer by the attention which they have displayed in the performance of their duties as registering officers of births and deaths.

13. Mr. Metcalfe concludes his report by remarking that, so far as his experience goes, he would be disposed to recommend the extension of the jurisdiction of the Commissioner to Howrah. This proposal has already engaged the attention of Government on more than one occasion, and it has been merged in the larger question of appointing one head to the police of Bengal, metropolitan and provincial. The disadvantages of the present system are sufficiently obvious, and evidence is constantly appearing that crime is committed in Calcutta by persons residing beyond its limits, and *vice versâ*. At the same time there is perhaps only a small portion of Howrah that can be fairly designated a city area; the remainder in no way differs from the usual agglomeration of villages of which mofussil municipalities are composed, and it has been pronounced by competent authority to be unsuited for police administration on the metropolitan system. The whole question, however, is still in abeyance, and the Lieutenant-Governor will be ready to consider any recommendations which further experience may suggest to Mr. Metcalfe.

14. The Lieutenant-Governor is glad to observe the testimony borne by the Commissioner to the efficiency of Mr. Charles, who has been in immediate charge during the greater part of the year. The Superintendents and most of the Inspectors have also merited the satisfaction of their superiors.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Government of Bengal.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, [illegible] Surveyor-General's Office.

The [illegible]metric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

GRANT OF INCREASED PENSIONS.

No. 1007.

GOVERNMENT OF INDIA.

FINANCIAL DEPARTMENT.

PENSIONS, GRATUITIES, &c.

SIMLA, THE 31ST MAY 1877.

READ the following:—

No. 434, dated 29th December 1876.

From—The Government of India,
To—The Secretary of State for India.

WE have the honor to refer for Your Lordship's consideration an application from the * * * for the grant of an increased pension to Lieutenant and Assistant Commissary A. B. * * * *

It will be observed that Lieutenant A. B. has already been granted the invalid pension of his rank, viz. Rs. 175 a month; but in consideration of the very high and honourable character borne by him, and of his long and faithful service of over 47 years, the Government of * * * recommend sanction to the grant to him of the pension of a Deputy Commissary, viz. of Rs. 240 a month. We beg to support this recommendation.

Extract (paragraphs 1 and 2) from a despatch from the Secretary of State to the Government of India, No. 92 (Military), dated 8th March 1877.

PARA. 1. With your Financial letter No. 434, dated 29th December 1876, you forward, and recommend for favourable consideration, an application from the Government of * * for the grant of increased pension to Lieutenant and Assistant Commissary A. B. of the * * department at that presidency.

2. On the recommendation of the Government of * *, supported by Your Lordship, I authorize you to grant Lieutenant A. B. the higher pension of a Deputy Commissary in lieu of that of an Assistant Commissary, to which only he is entitled under the regulations. I desire, however, to express my general disinclination to increase the non-effective charges by the grant of any pensions in excess of what the regulations of the service provide, save in cases of very exceptional and distinguished service.

3. Mere length of service, however faithfully performed, is not, I consider, in itself a sufficient ground for exceptional reward, while in this case it would appear that A. B. was permitted by the Government of * * out of consideration for himself personally, to extend his service beyond the date when it could be usefully or satisfactorily rendered.

LIBERALITY OF SREE MUTTEE BISHESWARI DEBYA CHOWDRANI AND SREE MUTTEE HURO DOORGA DEBYA CHOWDRANI.

No. 521T., dated Darjeeling, the 10th June 1877.

From—S. C. Bayley, Esq., c.s.i., Secy. to the Govt. of Bengal, Political Dept.,
To—The Officiating Commissioner of the Dacca Division.

I am directed to acknowledge the receipt of your letter No. 85, dated the 1st instant, reporting that Sreemuttee Bisheswari Debya Chowdrani, zemindar of Gouripore, and Sreemuttee Huro Doorga Debya Chowdrani, zemindar of Ambaria, have respectively given Rs. 5,000 and Rs. 1,000 to the Nusseerabad dispensary in Mymensingh, in order to raise the status of the institution and thus secure the services of an assistant surgeon to the town of Mymensingh.

2. I am to request that you will be good enough to convey to those ladies an expression of the Lieutenant-Governor's appreciation of their liberality. The charitable dispensaries of the country confer such undoubted benefit directly and indirectly upon all classes, that the Lieutenant-Governor is specially glad to recognise such instances as this of well directed liberality in support of them.

3. The papers in the present case will be published in the *Calcutta Gazette*.

4. You will now be good enough to submit a formal proposal, with all necessary particulars, for reclassifying the Nusseerabad dispensary.

No. 85, dated Dacca, the 1st June 1877.

From—F. B. Peacock, Esq., Officiating Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Political Department.

With reference to your letter No. 692T, dated 7th June 1876, I have the honor to bring to the notice of His Honor the Lieutenant-Governor that Sreemuttee Bisheswari Debya Chowdrani, zemindar of Gouripore, has given the very handsome donation of Rs. 5,000 to the charitable dispensary at Nusseerabad, in order that it may be re-classified in class III, grade 1, and thus secure the services of an assistant surgeon for the town of Mymensingh, and that Sreemuttee Huro Doorga Debya Chowdrani, zemindar of Ambaria, has also given Rs. 1,000 with the same object. I trust that I may be permitted to communicate to them the Lieutenant-Governor's appreciation of their liberality.

From—H. H. Risley, Esq., Offg. Asst. Secretary to the Government of Bengal,
To—The Offg. Secretary to the Board of Revenue, Land Revenue Department.

I am directed to acknowledge the receipt of your letter No. 416A., dated 11th May 1877, with enclosures, regarding the inspection by the Deputy Collector in the Soonderbuns of the protective works on Dhobelat and other grants on Saugor Island, and to request that an expression of the Lieutenant-Governor's satisfaction may be communicated to Baboo Prosad Doss Dutt who, in constructing the works in Dhobelat, has not only carried out his engagements to the full, but has done more than his agreement bound him to do.

No. 416A., dated Fort William, the 11th May 1877.

From—A. MACKENZIE., Esq., Offg. Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Revenue Department.

WITH reference to your demi-official letter dated 9th instant, I am directed to submit, for the information of Government, copies of the papers noted on the margin, regarding the inspection by the Deputy Collector in the Soonderbuns of the protective works on Dhobelat and other grants in Saugor Island.

From—A. D'B. GOMESS, Esq., Soonderbun Commissioner,
To—The Secretary to the Board of Revenue, Lower Provinces.

* * * * * * * *

I note with much pleasure the pains taken by Baboo Prosaud Dass Dutt in constructing the protective works in Dhobelat. It would appear that he has gone beyond the letter of his obligation, and has made a better construction than was required of him. Baboo Prosaud Dass Dutt is one of the best Soonderbun grantees I have known, and was one of the first who gave efficient help to his ryots in the cyclones that swept over Saugor Island in 1864 and 1867.

No. 137A., dated Fort William, the 14th March 1877.

From—A. MACKENZIE, Esq , Offg. Secretary to the Board of Revenue, L.P.,
To—BABOO PROSAUD DASS DUTT, Grantee of "Dhobelat," on Saugor Island.

IN reply to your letter of the 5th instant, I am directed to forward herewith a copy of a report, No. 437, dated 20th ultimo, from the Commissioner of Soonderbuns, on the inspection by the Deputy Collector of the protective works in the four estates in Saugor Island named on the margin. The report has been recorded, but the facts noticed therein have given much satisfaction to the Board.

Dated the 29th November 1876.

From—J. ELLISON, Esq., Surveyor in the Soonderbuns,
To—The Commissioner of the Soonderbuns.

I HAVE the honor to submit a rough ground and elevation plan of the protective works in the Saugor Island estate of Dhobelat.

2. The work is complete and well done: the grantee had the safety of his ryots at heart, for he has not confined himself to the dimensions allowed by the deed, but he has, with the exception of the tank, exceeded them. He has, moreover, set the example and built a cutchery on the level sward within embankments, which will shelter his ryots should they ever have occasion to resort to the protective works. The sward is kept free from water by means of a pucca drain, and is perfectly dry. He has made ample allowance for the sinking of the embankments. Their present height is 19 feet 6 inches, and they have been properly rammed and turfed.

3. The northern embankment has been terraced on the inner slope, and although it has been recommended in the deed, I do not think it an advantage; it weakens the embankment considerably, and for this reason the grantee has terraced the northern side, which is the side least exposed to the fury of the storm-wave.

P.S.—I beg to add that none of the ryots' huts appeared to me to be situated beyond a mile from the protective works. The copy of the grant deed of chuck Dhobelat is herewith returned.

RULES REGARDING BURIALS.

No. 159.

Extract from the Proceedings of the Government of India, in the Home Department (Ecclesiastical),—under date Simla, the 6th June 1877.

READ again—

Home Department Resolution No. 275—287, dated the 8th September 1875, laying down certain rules for the guidance of Chaplains of the Church of England in regard to the burial of suicides, &c.

Read also—

Office memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding for an expression of opinion a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above Rules.

RESOLUTION.

On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided—

1*st*, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic brought for burial, unless he be excused from doing so by the rubrics and canons of the Roman Catholic Church: and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the military authorities shall make proper arrangements for the decent interment of the corpse;

2*ndly*, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz. dying unbaptized even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier on either of the three above-mentioned grounds, the military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse;

3*rdly*, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the military authorities for the consideration and orders of the Government of India.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 8th September 1875.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

Reports of Fluctuations of Traffic on the East Indian Railway for the Month of May 1877.

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JUMALPORE, THE 11TH JUNE 1877.

Remarks on Traffic of East Indian Railway for four weeks ending 26th May 1877.

The approximate figures for the period are as follows :—

	Coaching.		Goods		Total.
	Mds.	Rs.	Mds.	Rs.	Rs.
	4,80,186	5,54,852	56,50,570	24,38,601	29,92,833
	4,96,195	5,60,723	43,23,970	19,55,509	25,16,313
Increase			13,26,600	4,82,411	4,76,520
Decrease	16,209	5,891			...

The decrease in coaching earnings is very trifling and a mere fluctuation.

In merchandise traffic the increases are again very large, the principal staples being—

Increases.

Coal.	Hides
Grain	Iron.
Gunny.	Tobacco

Decreases.

Commissariat beer.	Piece-goods.
Betal-nuts	For railway material.
Cotton.	Salt
Firewood.	Sugar.
Jaggree.	Timber.

Increases

Coal—Upward ...	Mds.	2,48,550	Rs. 1,08,034
Downward	,,	3,97,930	,, 57,060
Total		6,46,480	1,65,094

The up traffic having been more than double that of last year and the down traffic some 50 per cent. more

Grain in its several divisions, viz.—

Wheat	+ 6,64,719	+ 3,61,281
Rice	+ 37,810	— 7,762
Other cereals	+ 83,899	+ 33,077
Pulses	+ 68,910	+ 14,276
	8,74,338	4,00,872

Wheat, it will be seen, covers nine-tenths of this increased earnings; the demand for export is enormous, and the latest market reports show that with an unusually heavy tonnage on the berth, freights are still going up.

Gunny ... Mds. 11,622 Rs. 48,894

Very large quantities are still being sent up from Howrah

Hides ... Mds. 6,731 Rs. 4,161

Prices have been good in Calcutta and demand considerable.

Iron ... Mds. 40,132 Rs. 40,559

There has been a general demand in the up-country markets for ordinary bar, rod, and sheet iron

Tobacco ... Mds. 9,772 Rs. 9,670

Tobacco has come in freely. We have been able to get a good deal of it away upwards.

Decreases

Commissariat beer ... Mds. 8,387 Rs. 14,921

This is merely the accident of a despatch of a thousand hogsheads from Howrah towards the end of May 1876. Such despatches are not usual at this time of year.

Cotton ... Mds. 32,748 Rs. 51,112

There is no export market for cotton, while the carriage of loose cotton has been set aside to a great extent in favor of grain, &c., while the great scarcity of wagons has been felt

Jaggree ... Mds. 61,781 Rs. 8,712

Salt	...	,, 85,118	,, 15,808
Sugar	...	,, 20,370	,, 6,006
Timber	...	,, 7,356	,, 987

In all these cases, too, there has been plenty of traffic offering if we could only have taken it.

For railway material ... Mds. 15,954 Rs. 17,848

This is principally in miscellaneous stores for the state railways.

Piece-goods ... Mds. 13,476 Rs. 17,078

I need only here refer to my remarks on this subject in my April report, in which this decrease was fully anticipated.

Commercial matters are looking a little better and money somewhat easier during the last week, and some improvement may now be expected.

Seeds again show, as in April, an increased weight with decreased earnings and for the same reasons.

JUBBULPORE LINE TRAFFIC.

	Coaching.		Goods.		Total.
	Mds.	Rs.	Mds.	Rs.	Rs.
1877 ...	22,440	16,812	9,51,230	2,17,266	
1876 ...	20,525	9,812	4,30,410	1,04,742	
Increase ...	1,915	7,000	5,20,820	1,10,524	
Decrease ...	...				

As regards merchandise figures the increase is undoubted, and is, it will be seen, over cent. per cent. in both weight and earnings.

Of the increase in weight 3,97,000 maunds is in grain and pulses and 75,200 maunds in seeds sent through to foreign lines *vid* Jubbulpore.

The following is a statement of grain and seeds sent to Howrah and *vid* Jubbulpore during four weeks ending 26th May 1877:—

	Wheat.	Pulses.	Other cereals.	Seeds.
	Mds.	Mds.	Mds.	Mds.
To Howrah ..	8,72,244	525	2,02,692	7,62,360
Vid Jubbulpore	2,01,010	1,08,694	87,495	75,207
Total	10,73,254	1,09,219	2,90,187	8,37,567

From this it will be seen that of the whole weight lifted on the line of railway in up and down traffic together just one-third has been in the two samples of grain and seeds sent into Howrah station alone, and one-twelfth in traffic in the same staples to foreign railways *vid* Jubbulpore

This will illustrate the necessity of the increased accommodation at Howrah I have so often asked for.

HIGH COURT, ORIGINAL JURISDICTION,

The 15th June 1877. (1261—2)

No. A—17.

FROM THE AUDITORS OF THE ACCOUNTS OF THE MUNICIPAL COMMISSIONERS FOR THE TOWN OF CALCUTTA,

TO THE MUNICIPAL COMMISSIONERS FOR THE TOWN OF CALCUTTA.

GENTLEMEN,

WE have the honor to inform you that we have audited the cash and store accounts of the Calcutta Municipality for the year 1876, and have found them to be correct.

2. The abstract account of the year's transactions has been examined and certified, subject to the following remarks on some of the figures which it contains.

3. The information usually given in the abstract account has been amplified this year so as to show clearly against each heading of revenue and expenditure by what amount the actuals have either exceeded, or fallen short of, the budget figures. Revenue.

4. Except in the cases noted below, the estimates of revenue in the General Fund Account have generally been exceeded, the largest excess being contributed by—

Fees from tolah mehters' *depôts*, Rs. 16,341-14-0 or more than 50 per cent. of the estimate.

Fees for the removal of business refuse, Rs. 11,025-14-0, these receipts having been clearly under-estimated for 1876, as compared with the actuals for 1875.

Miscellaneous receipts, Rs. 10,274-6-5, omitted altogether from the year's budget.

On the other hand, the deficiencies of revenue are due chiefly to—

	Rs.	A.	P.
House-rate	6,508	1	0
Market receipts ...	... 15,613	11	0
Road department ...	... 50,000	0	0

5. This last item of Rs. 50,000 was sanctioned by the late Justices as a contribution from the Drainage Loan Account towards the cost of repairing roads, but as the loan in question was granted by the Government specially for drainage works, the money could not be applied to any other purpose without the approval of Government, and as the orders of Government were not applied for, the transfer was not made.

6. As regards the excess under tolah mehters' depôt fees and the deficiency under market receipts, we would beg to call your attention to paragraph 6 of our letter to your address, No. 104A, of the 15th January last, reporting on the accounts to the 30th September, and to remark that it has been pointed out by us in each of our successive annual reports that the receipts from tolah mehters' depôts are subject to no check whatever, the amounts credited being received in lump sums from the Inspector of Nuisances without details or accounts of any kind. We observe further that the amount credited in the account as shop-rents of the Dhurrumtollah Market would have been less even than it is, but for an arrangement under which all the tenants' rates paid by the shopkeepers (which used to be credited to the Lighting, Police, and Water-rate accounts when the market was private property) are now credited as market revenue in the gross amounts paid by the tenants as rents and taxes.

7. There is one other item among the receipts of the General Fund to which we would call attention. Rs. 563 are credited at page 2 of the account as the fees realized for the renewal of debenture bonds, whereas the number of bonds renewed during the year was, we find, 646, and a rupee being payable for each renewal, the fees should have amounted to Rs. 646. No proper account appears to have been kept of these fees, which have always been received by the clerk in charge of the loan work instead of by the treasurer, and in the absence of any explanation of the short credit, the amount has been realized from the clerk concerned, whose services have, we understand, been dispensed with.

We are strongly of opinion that the receipt of money on behalf of the Municipality by any officer or employé, except the rate collectors and the treasurer, should be absolutely prohibited, the appointment of a salaried treasurer to the Municipality having removed objections that might have been raised under former arrangements to the procedure recommended.

8. In the accounts of the other funds, the realizations in excess of estimated receipts are due to the police and lighting-rates being payable in advance under the new law (so that the rates for five quarters are credited in the accounts) and to increased sales of water.

9. *Drainage Loan Account.*—The credits to the drainage account include this year a sum of Rs. 27,706 transferred to it from the head of "House Drainage Deposits," under which the amount had been brought forward on the ledger for a series of years. House drainage work has, during these years, been carried out by Municipal officers, and pipes and other stores have been used for the work, but the fees recovered from house-owners to meet the expenditure have remained at credit of the suspense heading of "House Drainage Deposits."

10. Under the expenditure headings in all the accounts, the figures, as a rule, are well within budget limits, but this is largely due to the pay for eleven months only of all Municipal officers and employés being included in the accounts, pay for December 1875 having been drawn and disbursed within that month. Expenditure.

11. It is also necessary to remark that, in making up the budget figures as shown in the accounts, credit has been taken for a large number of amounts which are regarded as having been sanctioned as additions to budget grants by the late Justices, or the Commissioners in meeting, although in the record of the proceedings of those meetings sanction is given merely to specific items of expenditure without any reference to the extension of budget limits.

12. Moreover, in our comparison of the expenditure with the budget grants for 1876 we have been guided by the resolution passed by the late Justices in meeting on the 17th April 1876, making the totals only of the major headings of the budget binding on the Chairman as the limits of his expenditure, and empowering him to redistribute the amounts sanctioned under the minor headings of a budget grant at his discretion.

13. In the following cases the grants sanctioned under the major headings of the budget have been exceeded—

	Rs.	A.	P.
Interest Account	43,282	8	6
Road Department	20,380	3	6
Municipal Railway	5,413	12	0

14. The excess here shown in railway expenditure is nominal, being due to the readjustment of a payment made in a former year, and is met by a credit to the Municipal tramway on the other side of the accounts.

15. The grant for expenditure in the Road Department was given in a lump sum in 1876, and the excess cannot be explained in detail.

16. The overcharge in the Interest Account has been caused by the full amount of interest due on debenture loans at the end of the year having been charged to revenue, and placed in a separate drawing account at the Bank, under the provisions of section 337 of Act IV of 1876, which requires the Commissioners to "set aside yearly out of the annual income, before making any disbursements in respect thereof, the interest which may fall due on any debentures."

Heretofore the Municipal estimates and accounts have shown as the annual interest charge only the amount of interest actually paid to debenture-holders in the course of each year, the budget figures being calculated on an average of the sums so paid, and charged in the accounts of former years. The proportion of the interest due and payable, which was not claimed by debenture-holders in the course of each year, did not appear in the accounts of the year, and the unpaid amount therefore of all interest of past years has, under the procedure now enjoined by law, been written off with interest which fell due in December as a charge against the revenue of 1876, and forms the difference in excess of the budget grant for that year under notice.

This write-off, however, as it stands at present, viz. Rs. 1,60,939, includes merely the estimated amount of the unpaid interest on debenture loans on the 31st December, and is subject to readjustment on the completion of statements which are under preparation, showing the outstanding interest in full detail for each debenture on the several loan registers.

17. We have considered it necessary in our audit of the expenditure since September 1876 to review with care the sanctions on record for all existing establishments, with special reference to section 36 of Act IV of 1876, which requires the salary of every appointment in the Municipal establishments, whether permanent or temporary, to be determined by a resolution of the Commissioners in meeting. We have brought to the Chairman's notice from time to time cases in which sanctions were wanting or were insufficient, and we

observe that our objections have been almost entirely met by the resolution adopted by the Finance Committee on the 4th ultimo, and confirmed by the Commissioners at their quarterly meeting of the 25th idem. The resolution is as follows:—"That with regard to establishments, whether permanent or temporary, for which a lump sum was sanctioned in the budget for 1876 without specification of the scale of allowance, the arrangements made by the Chairman in each case at his discretion be sanctioned, provided the total expenditure for the year has not exceeded the sanctioned amount."

18. In the following cases, however, the provisions of this resolution do not apply, inasmuch as there is no distinct sanction of even a lump sum in the budget for the salaries paid to the employés in question.

General Fund.—Establishment entertained for the preparation of statistics of deaths, Rs. 300.

Lighting-rate Fund. Inspector of Lighting, Rs. 225 per mensem. The pay of this appointment is charged to the head *Lighting Oil Lamps* in the lighting-rate account.

Cost of supplying water to the shipping, Rs. 7,894-12-3. We would call attention to our remarks regarding these charges at paragraph 5 of our report, No. 101A, dated 16th January last, and would point out that the expenditure for the year is as follows:—

	Rs.	A.	P.
Establishment ...	3,374	0	0
Contingencies	4,520	12	3
Total ...	7,894	12	3

These figures will be found at page 6 of the Water-rate account in abstract of the revenue from the sale of water, of which the net amount only is credited in the account.

The expenditure is still not susceptible of audit.

19. Among the items of contingent expenditure incurred in connection with the election of Municipal Commissioners we find the following charges:—

Cold tiffin for 32 persons, with a quart of beer for each, Rs. 59.

Not being an item of recognized expenditure connected with elections, we have been unable to admit the charge without the special sanction of the Commissioners.

20. *Balance of General Fund.*—The account of the General Fund closes this year with a nominal cash balance of Rs. 75 2-1, being the undrawn balance of the separate drawing account at the Bank, to which the interest and contribution on Government Loans had been transferred in December, in excess of the sum ultimately claimed by the Accountant-General.

21. This small balance is unconnected with the ordinary banking account of the General Fund, which closed on the 31st December without a balance in the Bank's pass-book, and with a deficit on the books of the Municipality of Rs. 5,153-1-8, that being the amount of outstanding cheques at the close of the year.

22. This result was brought about by the determination arrived at in the month of December to open separate drawing accounts at the Bank for the Fire-Brigade, Lighting-rate, and Debenture Interest Funds, and the consequent withdrawal of the balances of those funds from the drawing account of the General Fund, which they had always been previously held.

23. These separate drawing accounts closed at the end of the year with the following balances:—

	Rs.	A.	P.
Lighting-rate Fund ..	65,552	13	9
Fire-Brigade Fund ...	33,915	9	3
Interest on Debenture loans	1,60,939	0	0

and these sums, but for the change of practice referred to, would have remained at credit of the General Fund.

24. In order to meet the cash requirements of the General Fund, for which the balance at the Bank, after these withdrawals, proved quite insufficient, recourse was had to the balance of the Drainage Loan Account, and advances were obtained from that account from time to time in the course of the month of December, to make good the deficiency in the General Fund Account. The net sum which remained due to the Drainage Loan Account at the end of the year on account of these advances was Rs. 1,21,421-12-2.

25. We have already pointed out at paragraph 5 of this report that it is objectionable, without the sanction of Government, to apply the balance of a Government loan to any purpose but that for which the loan was sanctioned by the Government. There is the same objection, it seems to us, to even temporary advances for general purposes from a loan balance, and we recommend therefore that the action which has been taken in this matter be reported for the orders of Government, and sanction be obtained retrospectively to the advances made.

26. On the other hand we desire to point out that of the sum of Rs. 1,53,097-4-5, representing the value of stores which were held in the Jaun Bazar Depôt on the 31st December, having been paid for from the cash balance of the General Fund, more than a third, or Rs. 54,680-11-1 as shown below, represents the value of cast-iron pillars and other iron work purchased for the construction of the new Municipal Market, but remaining unused up to date:—

	Tons.	Rs.	A.	P.
C. I. columns	168·58	26,129	11	4
Do. bases, capitals, and rings	61·10	9,470	8	0
Do. brackets ...	72	11,160	0	0
Base stones ...		7,972	0	0
C. I. plates and W. I. bolts	1·86	288	1	9
Total		54,680	11	1

This money ought to have been disbursed, in the first instance, from the balance of the loan specially obtained for the construction of the market, and it ought not to be recovered from the consolidated Market Loan Account. The balance of that account, however, was only Rs. 8,165-14-10 on the 31st December.

27. *Balance Sheet.*—We have examined and certified the balance sheet of the 31st December appended to the account. The balances shown in cash, stores and material in hand are borne out by stock lists produced to us under the signatures of the officers in charge of the stores in each case as the results of a final stock-taking on the 31st December. It seems desirable, in our opinion, to establish some independent check on the accuracy of these stock lists.

28. The rest of the balances, with the exceptions noted in the following paragraphs, have been analyzed and checked in detail and their correctness verified.

29. In consequence of a clerical error in an advice of investment forwarded by the Comptroller-General as Trustee of the Water-supply Loan Sinking Fund, which was not detected till after the books were closed, the balance of investment account of this Sinking Fund on the Municipal books exceeds the proper amount by Rs. 1,191-14-0. The error will be corrected this year.

30. The balance of the Comptroller-General's personal account on the Municipal books, representing the cash balance held by him as Trustee on the 31st December, differs from the amount acknowledged by him as in his hands on that date as follows:—

	Rs.	A.	P.
Balance as per Municipal books	5,22,731	11	9
Do. as per Comptroller-General's account ...	273	11	9
Difference ...	52,000	0	0

The cheque for this difference, which was issued on the 21st December, does not seem to have been cashed at the Bank till the 5th January 1877.

31. Similarly, in the case of the Trustees of the Municipal Loan Sinking Fund, the balance against them on the books on the 31st December was Rs. 73,946-14-3, whereas their final account for December closes with a balance of Rs. 44,941-8-10.

Difference short credited, Rs. 29,005-5-5. Of this sum Rs. 24,805-5-5 were charged in the Bank's pass-books on the 28th December 1876 under written instructions from the Chairman, dated 23rd idem, directing the Bank to place the amount at the disposal of the Accountant-General, and the difference, Rs. 4,110, was included in a cheque also issued in favour of the Accountant-General, which was not cashed till the 5th January 1877.

32. The difference last noticed has arisen, we would beg to point out, under the practice heretofore incorrectly adopted of paying in cash to the Trustees the full amount of the Sinking Fund contributions for subsequent investment by themselves, whereas under section 337 of Act IV of 1876 the Commissioners are required to make the investments in the names of the Trustees, and to deliver only the securities to the Trustees, to be held by them under the law.

33. So also, as regards the Sinking Fund Account on the Municipal books, we observe that only one such account is at present maintained, and that all Sinking Fund contributions, whether for Debenture or for Government loans, are credited indiscriminately to this account. The law (section 337) provides, however, for the creation of only one Sinking Fund for the repayment of Debenture loans, and exempts all Government loans from the operation of the section. It is clearly necessary, therefore, that a separate account should be kept of the Sinking Fund created under section 337 of the Act, in order that the balance disposable may be readily ascertained.

34. We have brought the matters referred to in the two preceding paragraphs to the Chairman's notice, in order that the provisions of the law may be observed in future.

We have the honor to be,
GENTLEMEN,

Rights and liabilities of seller and buyer.

(*a*.) If the buyer, or any person claiming under him, suffers loss by reason of any invalidity of the seller's title not known to the buyer when the contract was entered into, the seller, or, where the seller is not the person for whose benefit the consideration was received, then such other person is responsible for the loss so suffered.

(*b*.) The seller has a charge upon the property for the amount of the purchase-money, or any part thereof, remaining unpaid; but as soon as the assurance (if any) is registered, such charge shall cease.

EXPLANATION.—Money for which a bill of exchange has been taken remains unpaid, within the meaning of this clause, until the bill is paid.

(*c*.) After the contract has been made, the seller is entitled to the rents and profits of the property until the time fixed for the completion of the sale, and if he has received any such rents and profits which accrued after that time, he must on completion account for them to the buyer. The buyer must, on completion, pay to the seller interest on the purchase-money from the time fixed for the completion of the sale. But this is not to preclude either party from obtaining compensation where loss has been occasioned by the default or delay of the other party.

(*d*.) The buyer is entitled to a charge on the property for the amount of any purchase-money properly paid by him in anticipation of the completion of the sale.

(*e*.) In the absence of fraud or misrepresentation, the seller is not answerable for any latent defect in the property sold.

(*f*.) After the contract has been made, the buyer is liable to bear any loss arising from the destruction or decrease in value of the property, and not caused by the vendor's fault, and is entitled to the benefit of any improvement in, or increase in value of, the property.

(*g*.) The seller is bound to execute a proper assurance of the property when the buyer tenders it to him for execution at a proper time and place.

(*h*.) When the buyer has been let into beneficial possession of the property pending discussion as to the seller's title thereto, and the contract is not completed owing to defects in such title, the buyer is liable to pay for his use of the property.

(*i*.) When the completion of the contract is delayed by the buyer, and, after the day fixed for completing it, the seller expends money on the property, the seller is entitled to recover the amount so expended, provided that such expenditure was required for the preservation of the property, or by any law for the time being in force.

12. Save as provided by section 11, clause (*b*), a contract for the sale of, or relating to, immoveable property, whether registered or not, shall not have the effect of creating any interest in, or charge on, such property; but the only right of any person under the contract shall be to apply for specific performance, or for compensation, or for both, according to the rules laid down in the Indian Contract Act, 1872, and the Specific Relief Act, 1877.

Contract for sale not of itself to create interest in property.

13. A person paying the consideration for any immoveable property, but having the transfer of it made to another person, is not by reason of such payment entitled to such property or to any interest therein.

Purchase of immoveable property which buyer causes to be transferred to another.

CHAPTER IV.

OF MORTGAGES AND CHARGES.

14. When any interest in specific property is actually or contingently transferred by one person to another for the purpose of securing the payment of money, the transfer is

Mortgage, mortgagor, and mortgagee defined.

called a mortgage, the transferor is called a mortgagor, the transferee a mortgagee, the money of which payment is secured is called the mortgage-money, and the instrument (if any) by which the transfer is effected is called a mortgage-deed.

For the purposes of this chapter, any person claiming as heir, legatee, assignee, lessee, or otherwise the interest of the transferor in the property subject to the mortgage, or any part of such interest, is a mortgagor; and any person claiming as heir, legatee, assignee, or otherwise the interest of the transferee under the mortgage, or any part thereof, is a mortgagee.

EXPLANATION.—A judgment-creditor who attaches any mortgaged property or mortgage-money claims under the transferor or transferee (as the case may be) within the meaning of the second paragraph of this section.

Illustrations:

(*a*.) A, binding himself personally for the repayment of a loan, pledges certain land to B as collateral security for such repayment, but does not actually deliver possession.

(*b*.) A, not so binding himself, pledges certain land as in illustration (*a*), and covenants that in default of payment of the loan on a certain date the land pledged shall pass to B.

(*c*.) A borrows money from B, and gives up certain land to B that he may retain possession thereof until he has, from the rents and profits of the land, repaid himself the sum so lent.

(*d*.) A, binding himself as in illustration (*a*), pledges certain land to B as a collateral security for the repayment, and permits B to receive the rents and profits of the land until he has repaid himself the loan, but does not actually deliver possession.

(*e*.) A, not so binding himself, covenants that on default of payment of the loan on a certain date the land pledged shall pass to B. A meanwhile puts B into possession of the land, and allows him to receive the rents and profits in discharge of the loan.

(*f*.) A charges certain land in favour of B with Rs. 1,000 and interest at the rate of twelve per cent. per annum.

(*g*.) A charges a certain fund in favour of B with the amount which shall be due to him on the balance of A's account not exceeding Rs. 1,000, together with interest thereon at the rate of twelve per cent. per annum.

(*h*.) A borrows Rs. 10,000 from B and conveys certain land to B in trust that the same shall stand charged with the payment to B of the Rs. 10,000 and interest, and subject thereto in trust for C and others, and the deed confers express power on B in default of payment to sell the land.

Each of these transactions is a mortgage. A is the mortgagor, B the mortgagee.

(*i*.) A, in consideration of a loan of money paid to him by B, makes over his land to B for a term of twenty years, but does not bind himself to pay to B principal or interest. This is not a mortgage.

Respective rights of mortgagor and mortgagee.

15. On the completion of a mortgage the mortgagor has the following rights:—

(*a*) he may, at any time after the mortgage-money has become payable, or has been paid, and before his right to redeem the mortgaged property is foreclosed or the property is sold, institute a suit (hereinafter called a suit for redemption) to have the mortgaged property retransferred to him;

(*b*) he may, at any time after the mortgage-money has become payable and before such suit is barred, tender to the mortgagee or deposit in the principal Civil Court within the local limits of whose ordinary original civil jurisdiction the mortgaged property, or any part thereof, is situate, to the account of the mortgagee, the whole amount for the time being due on the mortgage.

And the mortgagee has the following rights:—

(*c*) he may take possession of the mortgaged property at or after the time, if any, specified in the mortgage-deed for payment of the mortgage-money, or, if no time is so specified, at any time after the mortgage-money has become payable to him;

(*d*) he may, at any time after he is entitled to take possession of the mortgaged property, and before it is redeemed, institute a suit against the mortgagor (1) for a foreclosure of his right to redeem the property, with or without possession thereof, or (2) for a sale of the property, or (3) for either of such remedies;

(*e*) where the mortgagor deposits money in court under clause (*b*) of this section, the Court shall forthwith cause written notice of the deposit to be served on the mortgagee, and the mortgagee may, on depositing the mortgage-deed (if any) in the same Court and on filing a written statement (verified in manner prescribed by law for the verification of plaints) of the amount due to him under the mortgage, apply for and receive in payment of such amount the money so deposited;

(*f*) if at the date of the mortgage the mortgaged property is insured against fire, the mortgagee, in case of damage to the property by fire, may (in the absence of contract to the contrary) require the insurance-money to be laid out in reinstating the property.

Rights and duties of mortgagee in possession.

16. When, during the continuance of the mortgage, the mortgagee takes possession of the mortgaged property, he has the following duties and rights:—

(*a*) he shall manage the property as a person of ordinary prudence would manage it if it were his own;

(*b*) he shall collect all rents and other profits arising out of the property;

(*c*) he shall, in the absence of an express contract to the contrary, pay out of the income of the property the Government revenue and all other charges of a public nature due in respect thereof, and keep down the interest due on all mortgages of the property prior to his own, and on all mortgages of the property subsequent to his own, of which he has notice;

(*d*) he may spend such money as is necessary for the due management and preservation of the property and add it to the principal money secured, at the same rate of interest;

(*e*) where the property is by its nature insurable, he may insure and keep insured from loss or damage by fire the whole or any part of such property, and add the premiums paid for any such insurance to the principal money secured, at the same rate of interest;

(*f*) he shall keep accurate accounts of all sums received and spent by him as mortgagee;

(*g*) he shall, at any time during the continuance of the mortgage, give the mortgagor, at his request and cost, true copies of such accounts and of the vouchers by which they are supported.

Receipts of mortgagee in possession.

17. When the mortgagee is in possession of the mortgaged property, unless there is an express contract in writing between the mortgagee and the mortgagor that his net receipts therefrom shall, so long as the mortgagee is in possession thereof, be taken in lieu of inter-

est on the principal sum secured by the mortgage, such receipts shall be debited against him in reduction of the amount (if any) from time to time due to him on account of interest on the principal sum so secured, or, so far as such receipts exceed any interest due, in reduction of such principal sum.

Injunctions to restrain waste.

18. Where the mortgagor remains in possession of the mortgaged property, or any part thereof, and commits or threatens to commit waste thereon, the mortgagee may obtain an injunction to stay the waste: provided that the security is insufficient or will be rendered insufficient by the waste complained of. Where the mortgagee takes possession of the mortgaged property, or any part thereof, and commits or threatens to commit waste thereon, the mortgagor may obtain an injunction to stay the waste.

EXPLANATION.—A security is insufficient within the meaning of this section unless the value of the mortgaged property exceeds by one-third, or, if consisting of houses, exceeds by one-half, the mortgage money.

Foreclosure and Sale.

Preliminary decree in foreclosure suit.

19. In a suit for foreclosure or sale, if the plaintiff succeed, the Court shall pass a preliminary decree, ordering—

(*a*) that an account be taken of what will be due to the mortgagee for principal and interest on the mortgage and for his costs of the suit, on the day next hereinafter referred to;

(*b*) that upon the defendant paying to the plaintiff or into Court the amount so due on a day within six months from the date of the decree, to be fixed by the Court, the mortgagor shall, if necessary, be put in possession of the mortgaged property by the mortgagee free from all incumbrances created by the mortgagee or any person claiming under him, or, where the mortgagee claims by derived title, by those under whom he claims; but

(*c*) that if such payment is not made on or before such day, the mortgagor shall be absolutely foreclosed of all right to redeem such property.

Procedure in case of payment of amount due and subsequent costs.

If payment is so made of such amount and of such subsequent costs as are mentioned in section 30, the mortgagor shall (if necessary) be put into possession of the mortgaged property.

Final decree for foreclosure.

If such payment is not so made, the plaintiff shall be at liberty to apply to the Court for a decree for the foreclosure of the said mortgage, and the Court may then pass a decree ordering the defendant to be foreclosed of all right to redeem the mortgaged property, and may, if necessary, deliver possession of the property to the mortgagee; and thereupon the mortgagor's right to redeem and the debt secured by the mortgage shall both be extinguished.

Power to order sale at instance of mortgagee.

20. In any suit by the mortgagee under this chapter, the Court may, at the instance of the plaintiff, decree that, in default of the defendant paying to the plaintiff or into Court the amount for the time being due on the mortgage and the plaintiff's costs of the suit, the mortgaged property or a sufficient part thereof be sold, and that the proceeds of the sale (after defraying thereout the expenses of the sale) be paid into Court and applied in payment of what is due for the time being to the plaintiff on the mortgage, and that the balance, if any, be paid to the defendant or other persons entitled to receive the same.

Power to decree sale in foreclosure suit.

21. When the mortgagee sues only for a foreclosure, the Court may, at the instance of the mortgagor, decree that, in default of such payment, the mortgaged property or a sufficient part thereof be sold, if (*a*) the Court considers that the mortgagee will not be damnified thereby, and (*b*) the mortgagor furnishes such security, if any, as the Court thinks fit for the payment of the balance due for the time being by him on the mortgage.

Mortgagee not to bid at sale.

22. At any sale under section 20 or section 21 the mortgagee shall not bid for or acquire any interest in the property sold without the leave of the Court, or without submitting to such conditions as the Court may impose.

Recovery of balance due on mortgage.

23. If the nett proceeds of any such sale are insufficient to pay the amount due for the time being on the mortgage, the balance may be recovered in the same suit in the same manner as under a decree for money, or by any other legal process open to the mortgagee.

Power of sale.

24. Power may be expressly conferred by the mortgage deed on the mortgagee to sell, or concur in selling, the mortgaged property, or any part thereof, on default made in payment of any principal money or interest, payment of which is secured by the mortgage deed. But in exercising such a power, the mortgagee shall be subject to the following rules, namely

(*a*) he shall use all reasonable diligence to obtain a fair price for the property;

(*b*) no such sale shall be made (1) until after six months' notice in writing of the intended sale has been given to the mortgagor, or (2) after the amount for the time being due on the mortgage has been paid or tendered to the mortgagee by or on behalf of the mortgagor, or (3) pending a suit for redemption of the property, or (4) so as to give the mortgagee any interest in the property;

when a sale has been effected in professed exercise of any such power, the title of the purchaser shall not be liable to be impeached on the ground that no such default had been made or that the rules so prescribed had not been complied with.

Receipts for purchase-money given by the mortgagee exercising such power shall discharge the purchasers therefrom.

The proceeds of every such sale shall be applied as follows:—

first, in defraying the expenses incident to the sale, or properly incurred in any attempted sale under the power;

secondly, in or towards satisfaction of the amount for the time being due on the mortgage; and

thirdly, the surplus (if any) of the said proceeds shall be paid to the mortgagor.

Redemption.

Preliminary decree in redemption suit.

25. In a suit for redemption, if the plaintiff succeed the Court shall pass a preliminary decree for taking the accounts, as provided by section 19, between the mortgagor and mortgagee, and directing that upon the mortgagor paying, within six months from the date of the decree, to the mortgagee or into Court what (if anything) is found due to the mortgagee for principal, interest, and costs, the mortgagee shall re-convey the mortgaged property to the mortgagor, free from the mortgage and from all incumbrances created by the mortgagee or any persons claiming under him; and that if such amount is not so paid, the plaintiff's suit shall thenceforth stand dismissed, and that he shall be foreclosed of all right to redeem the mortgaged property.

Loss occasioned by mortgagee's default.

26. If the mortgagee fail to perform any of the duties imposed upon him by section 16, he may, when the said accounts are taken, be debited with the loss (if any) occasioned by such failure.

Procedure where nothing due or amount paid.

27. If on taking the accounts nothing is found due to the mortgagee, or if the amount found due, together with such subsequent costs as are mentioned in section 30, is paid according to the decree, the mortgagor shall, if necessary, be put into possession of the property.

Procedure when amount due is not paid.

But if such amount and costs are not so paid, the mortgagor shall be absolutely foreclosed of all right to redeem the property, and the Court shall, if necessary, deliver possession thereof to the mortgagee.

Interest.

Payment of interest.

28. When the mortgagor and mortgagee have contracted as to the payment of interest on the principal money for the time being due to the mortgagee under the mortgage, interest shall be payable in accordance with such contract: provided that where the mortgagor has tendered or deposited in Court the whole amount due to the mortgagee, such interest shall cease from the date of the tender or from the time when the mortgagee could take such amount out of Court, as the case may be.

Proviso.

Costs.

Costs of mortgagee.

29. The mortgagee is ordinarily entitled to add to his debt his costs properly incurred of any suit under this chapter. But such costs, or any part thereof, may be disallowed if the mortgagor has tendered to the mortgagee or has deposited in Court the whole amount due to him under the mortgage, and if the mortgagee has unreasonably refused to accept such tender or to take such money out of Court in discharge of his claim, or if he has prevented a mortgagor willing and able to make such tender or deposit from making it by refusing or neglecting to give him proper information as to the state of the accounts required to be kept under section 16.

Costs of mortgagee subsequent to decree.

30. In finally adjusting the amount to be paid to a mortgagee in case of a redemption or a sale by the Court under this chapter, the Court shall, unless the conduct of the mortgagee has been such as to disentitle him to costs, add to the principal debt such costs of suit as have been properly incurred by him since the decree for foreclosure, redemption, or sale up to the time of actual payment.

Deposit of Title Deeds.

Effect of deposit of title deeds.

31. The deposit of title deeds with intent to create a mortgage on the property comprised therein but without actual transfer of such property, shall be deemed to be only evidence of a contract for a mortgage of the property, and shall entitle the depositee merely to institute a suit for specific performance of such contract.

Sale of Property subject to Prior Mortgage.

Sale of property subject to prior mortgage.

32. If any property the sale of which is directed under this chapter is subject to a prior mortgage, the Court may, with the consent of the prior mortgagee, order that the property be sold free from the same, giving to such prior mortgagee the same interest in the proceeds of the sale as he had in the property sold.

Application of proceeds.

33. Such proceeds shall be brought into Court and applied as follows:

first, in payment of all expenses incident to the sale or properly incurred in any attempted sale;

secondly, if the property has been sold free from any prior mortgage, in payment of whatever is due on account of such mortgage;

thirdly, in payment of all interest due on account of the mortgage in consequence whereof the sale was directed, and of the costs of the suit in which the decree directing the sale was made;

fourthly, in payment of all principal moneys due on account of that mortgage; and

fifthly, the residue (if any) shall be paid to the person proved to be interested in the property sold, or, if there be more such persons than one, then to such persons according to their respective interests therein.

Mortgage to balance of account.

34. If a mortgage made to secure the balance of a running account expresses the maximum to be secured thereby, a subsequent mortgage on the same property shall, if made with notice of the prior mortgage, be postponed to the prior mortgage in respect of all advances or debits not exceeding the maximum, though made or allowed with notice of the subsequent mortgage.

Illustration:

A gives to his bankers, B & Co., a charge on Sultanpore to secure the balance of his account with them to the extent of Rs. 10,000. A then gives to C a charge on Sultanpore to secure Rs. 10,000, and C gives notice thereof to B & Co. At the date of the second charge, the balance due to B & Co. does not exceed Rs. 5,000. B & Co. subsequently advance to A sums making the balance of the account against him exceed the sum of Rs. 10,000. B & Co. are entitled, to the extent of Rs. 10,000, to priority over C.

Right to pay off mortgage in order to prevent sale.

35. Any person having an interest in mortgaged immoveable property may, at any time before a sale of such property has taken place under this chapter, tender to the

next prior mortgagee the amount due to him on account of his mortgage. Such mortgagee is bound to accept such tender and to give a receipt for the sum due, and on such receipt being registered, his interest in the property in respect of the mortgage shall absolutely cease.

Effect of such payment by person having sole interest in property charged.

36. In such case, where the person making the tender has, subject to the mortgage, the absolute ownership of the property, the mortgage shall cease to exist, and the property shall vest in the person making such tender.

Effect of payment by person only partially interested.

37. If the tender be made by a person not having, subject to the mortgage, the absolute ownership of the property, he shall acquire in respect of the property all the rights and powers of the mortgagee to whom he has made such tender.

Tacking abolished.

38. No mortgagee paying off a prior mortgage, whether with or without notice of an intermediate mortgage, shall thereby acquire any priority in respect of his original security. And no mortgagee making a subsequent advance to the mortgagor, whether with or without notice of an intermediate mortgage, shall thereby acquire any priority in respect of his security for such subsequent advance.

Redemption of one of two properties separately mortgaged

39. If the owner of two or more properties create separate mortgages on them by separate assurances, each mortgage may be dealt with irrespectively of the other, though the mortgages are created in favour of the same mortgagee.

Illustration:

A, the owner of farms Z and Y, mortgages Z to B for Rs. 1,000. A afterwards mortgages Y to B for Rs. 1,000, making no stipulation as to any additional charge on Z. A may institute a suit for the redemption of the mortgage on Z alone.

Rights and powers of transferee of mortgage debt or mortgaged property.

40. If property subject to a mortgage, or the right to receive mortgage money, be transferred to a third person, the transferee has all the rights and powers of his transferor under the mortgage, and is subject to the liabilities existing between his transferor and the mortgagor or mortgagee, as the case may be.

Where such a transfer is made for the purpose of securing the payment of money, the original mortgage debt, if recovered by either the transferor or the transferee, is applicable—*first*, in payment of the costs of such recovery; *secondly*, in or towards satisfaction of the amount for the time being secured by the transfer; and the residue (if any) belongs to the transferor.

Charge made by assurance or will.

41. If by any assurance other than a mortgage deed, or by any will, or under the provisions of this or any other Act, or by operation of law, certain property of one person is made security for the payment of certain money to another, all the provisions hereinbefore applied to a mortgagor shall apply to the owner of such property, and all the provisions hereinbefore applied to a mortgagee shall apply to the owner of such money.

CHAPTER V.

OF LEASES OF IMMOVEABLE PROPERTY.

Form of written lease.

42. A lease may be made in the form in the second schedule hereto annexed, or in any other form which expresses an intention of the parties to give and take, for rent or a fine, possession of, or profits derived from, immoveable property, for a time shorter in duration than the lessor's interest therein.

Exclusion of day on which term commences.

43. Where the time limited by a lease is expressed as commencing from a particular day, in computing that time such day shall be excluded.

Duration of term.

Where the time so limited is a year or a number of years, in the absence of any express agreement to the contrary, the lease shall last during the whole anniversary of the day on which such time commences.

Option to determine lease.

Where the time so limited is expressed to be determinable before its expiration, and there is no express agreement as to the party having the option of determining it, the lessee shall have such option.

Rights and liabilities of lessor and lessee.

44. Unless a contrary intention appears from the lease, the lessor and the lessee, as against one another respectively, possess the rights and are subject to the liabilities mentioned in the twenty-two rules next following, or such of them as are applicable to the property leased:—

(*a*). During the continuance of the lease the lessee is entitled to the enjoyment of all lights, waters, water-courses, drains, ways, and other easements enjoyed as incident to the property leased at the time when the lease was made.

(*b*). The lessor is bound to put the lessee in possession of the property leased, and to deliver it to him in a condition reasonably fit for the purpose for which both parties contemplate that the lessee is to use it.

(*c*). If the lessee is, by reason of the invalidity of the lessor's title, or by any act or default of the lessor, or of any person claiming under him, or of any person claiming by a superior title to his, disturbed in the peaceable enjoyment of the property leased, the lessee is entitled to compensation from the lessor for any loss thereby caused, and may also obtain from any Court of competent jurisdiction a decree for the rescission of the lease.

(*d*). If the lessee is, by reason of the invalidity of the lessor's title, deprived of any substantial part of the property leased, or of anything essential to his enjoyment thereof, he is entitled to compensation from the lessor for any loss thereby caused, and may also obtain from any Court of competent jurisdiction a decree for the rescission of the lease.

(*e*). In the absence of fraud or misrepresentation, the lessor is not answerable for any latent defect in the thing leased.

(*f*). The lessor is bound to do all things necessary for maintaining the roof, walls, beams, floors, stairs, and drains of any house or other building comprised in the lease, and may for that purpose enter such building at all reasonable times.

(*g*). In all other respects the lessee is bound to keep, and at the end of the lease to restore, the property leased in as good condition as it was in at the time when he was put in possession, subject only to reasonable wear and tear.

(*h*). Deteriorations arising from want of painting or plastering, or from breaking of glass, are not to be considered as wear and tear, but shall be made good by the lessee.

(*i*). If by fire, tempest or flood, or violence of an army or of a mob, or other superior force, any part of the property leased be wholly destroyed or rendered substantially unfit for the purposes for which it was let, the obligation of the lessor as to that part shall cease unless he consents to reinstate the part so destroyed or rendered unfit; but in case of refusal or neglect to reinstate the same, the lessee shall be entitled to be discharged from his lease.

If the injury be occasioned by the wrongful act of either party, such party shall not be entitled to avail himself of the benefit of this provision.

(*j*). In case any rent remains unpaid at the end of a month from the time when it was payable and demanded, or in case, within a reasonable time after notice, default is made by the lessee in the performance of any of his other obligations under the lease, the lessor may institute a suit for a decree for the rescission of the lease and for possession of the property leased unless the lessee shall, within a time to be specified by the Court, pay such arrears and perform such obligations, and also pay all costs and expenses sustained by the lessor through the lessee's default.

(*k*). In case the lease is rescinded for the default of the lessee, he is bound to pay the rent up to the time of such rescission, and also to make compensation for any other loss resulting from his default.

(*l*). If the lessor neglects to make, within a reasonable time after notice, repairs which he ought to make, the lessee may make the same himself, and deduct the expense of such repairs from the rent, or otherwise recover it from the lessor.

(*m*). If the lessor neglects to make any payment which he is bound to make, and which, if not made, is recoverable against the property leased, the lessee may make such payment himself, and deduct it from his rent, or otherwise recover it from the lessor.

(*n*). Every lessee who receives notice of any proceeding to recover the property leased to him or any part thereof, is bound to give notice thereof to the lessor with reasonable diligence; and in default of so doing, he is liable to make compensation to the lessor for any loss or expenses occasioned by such omission.

(*o*). The lessee is bound to give notice to the lessor, within a reasonable time, of any encroachment made upon, or any interference with, the lessor's rights concerning the property leased; and, in default of so doing, he is liable to make compensation to the lessor for any loss or expenses occasioned by such omission.

(*p*). The lessee may use the soil and its products for all purposes of enjoyment as a reasonable owner would use them; but he may not destroy them wastefully, nor remove them after the expiration of the lease.

(*q*). No lessee of immoveable property who erects thereon any building, engine, or machinery for agricultural purposes shall remove the same without first giving to the lessor or his agent one month's previous notice in writing of his intention so to do, and thereupon the lessor or his agent may elect to purchase the thing so proposed to be removed, and the lessee's right to remove the same shall thereby cease, and the same shall belong to the lessor, and the value there of shall in case of dispute be ascertained and determined by two referees, one to be chosen by each party, or by an umpire to be named by such referees, and shall be paid or allowed in account by the lessor.

(*r*). Subject to the provisions of clause (*g*) and clause (*q*), the lessee has a right to remove at any time during his possession of the property leased, or within a reasonable time afterwards, all things not being products of the soil which he has affixed to the soil.

(*s*). When a lease of land determines in consequence of an uncertain event over which the lessee has no control, the lessee is entitled to all the crops growing upon the land for the season current when the lease determines, and to free ingress, egress, and regress to reap and carry them.

(*t*). Upon the death of the lessor or of the lessee, his legal representative shall have all the rights and be subject to all liabilities of the lessor or lessee whom he represents.

(*u*). If the lessor transfers the property leased, or any part thereof, or any part of his interest therein, the transferee shall possess all the rights, and, if the lessee so elects, be subject to all the liabilities of the lessor as to the property or part transferred so long as he is the owner of it; but the lessor shall not by reason only of such transfer cease to be subject to any of the liabilities imposed upon him by the lease, unless the lessee elects to treat the transferee as the person liable to him: provided that if the lessee pay rent to the lessor without having reason to believe that such transfer has been made, he shall not be liable to pay such rent over again to the transferee.

Where only a part of the property leased is transferred by the lessor, he may determine what proportion of the rent reserved by the lease is payable in respect of the part so transferred.

(*v*). The lessee has a right to transfer his lease. The transferee may again transfer it. The lessee shall not, by reason of such transfer, cease to be subject to any of the liabilities attaching to the lease, unless the lessor elects to treat the transferee as the person subject to such liabilities. Subject as aforesaid, each successive transferee, so long as he is entitled to the property leased, possesses all the rights and is subject to all the liabilities of the lessee.

Saving of right to distrain.

45. Nothing in this Act shall affect any right to distrain which a lessor may exercise under any local law for the time being in force.

Duration of certain leases in absence of written agreement or local usage.

46. In the absence of any written agreement and of any local law or usage to the contrary, a lease of property for purposes of cultivation shall be a lease from year to year terminable by six months' notice, ending with the end of a year of the tenancy; and a lease of property for any other purpose shall be a lease from month to month

terminable by fifteen days' notice ending with the end of a month of the tenancy.

Every notice under this section must be in writing signed by, or on behalf of, the party giving it and served on the party who is intended to be bound by it.

Effect of holding over.

47. If a lessee of property remains in possession thereof after the expiration of the lease, and the lessor accepts rent from him, or otherwise assents to his continuing in possession, the lease is, in the absence of an agreement to the contrary, renewed from year to year or from month to month, according to the purpose for which the property is leased, as specified in the last preceding section.

Illustrations:

(*a*). A lets a house to B for five years. B sub-lets the house to C at a monthly rent of Rs. 100. The five years expire, but C continues in possession of the house and pays the rent to A. C's lease is renewed from month to month.

(*b*). A lets a farm to B for the life of C. C dies, but B continues in possession with A's assent. B's lease is renewed from year to year.

CHAPTER VI.

OF EXCHANGES.

"Exchange" defined.

48. Exchange is a contract by which the parties mutually give, or agree to give, one thing for another, neither thing or both things being money only.

Rights and obligations of parties.

Each party has the rights and obligations of a seller as to that which he gives and the rights and obligations of a buyer as to that which he takes.

Exchange of money.

On an exchange of money, each party thereby warrants the genuineness of the money given by him.

CHAPTER VII.

OF SETTLEMENTS.

"Settlement" defined.

49. "Settlement" means in this Chapter any disposition of property—

(*a*) which is not testamentary, and is not founded on any valuable consideration, or

(*b*) which is made in consideration of marriage, or

(*c*) which is made for the purpose of dividing property of the settlor among his family or those for whom he desires to provide,

but does not include a gift made by a Hindu, Muhammadan, or Buddhist.

Consideration not necessary to make settlement binding.

50. In order that a settlement should be binding, it is not necessary that it should be made for a consideration.

Voidability of settlement made in fraud of creditors.

51. A settlement made for the purpose of depriving present or future creditors or other persons having demands against the settlor of their demands on him is voidable at the option of such creditors or other persons, and so far as regards the demands of such creditors or other persons, but not as against a person who, having no knowledge of the purpose for which the settlement was made, has contracted for or acquired an interest therein by marriage or for other valuable consideration, nor as against claimants under such persons. Such settlement is nevertheless binding on the settlor and on all persons claiming under him.

EXPLANATION.—Where there is no positive evidence of fraud, the intent to deprive creditors and other persons of their demands on the settlor may be inferred from

(*a*) the indebtedness of the settlor at the date of the settlement,

(*b*) want of consideration for the settlement, and

(*c*) any other circumstance indicative of fraud.

Condition restraining alienation of interest.

52. A condition or limitation in a settlement or will restraining any person from parting with or disposing of his interest is void.

Condition making interest determinable on insolvency or alienation.

53. A condition or limitation contained in a settlement or will making an interest thereby reserved or given to or in trust for any person to cease on his becoming insolvent, or endeavouring to transfer or dispose of the same, is void.

Vesting of gift in general terms.

54. If by a settlement property be given to a person then living in general terms, without indicating the time when it is to be paid or delivered, such person has a vested interest therein from the day of the execution of the settlement; and if he dies without having received it, it shall (subject to any legal disposition thereof which he may have made) pass to his legal representatives.

Vesting in interest of gift to unborn person not entitled to possession immediately on birth.

55. Where by the terms of a settlement a thing is given to a person not in existence, but he is not entitled to possession of it immediately upon his birth, a right to receive it at the proper time shall, unless a contrary intention appears by the settlement, become vested in such person upon his birth, and shall (subject to any legal disposition thereof which he may have made) pass to his legal representative if he dies before that time, and without having received it. And in such cases it is from his birth said to be vested in interest.

Application of sections of Act X of 1865 to gifts contained in settlements.

56. The provisions of the Indian Succession Act, 1865, sections 100 to 104, both inclusive, 107 and 108, 111 to 127, both inclusive, and 167, shall be applicable, so far as the nature of the case will admit, to gifts contained in settlements.

Right to income of property coming into possession under settlement.

57. Whenever a person becomes entitled in possession by virtue of a settlement to money or any other property yielding income, he shall be entitled to receive the interest or income thereof from that time.

CHAPTER VIII.

OF GIFTS FOR RELIGIOUS AND CHARITABLE PURPOSES.

Gift to charitable uses by person having certain relatives.

58 No person having a nephew or niece, or any nearer relative, shall have power to give any property to religious or charitable uses by any instrument which is required to be registered, unless such instrument be executed not less than twelve months before his death and duly registered.

59. Subject to the provisions of the last preceding section, property may be assured in perpetuity for the benefit of the public in the advancement of religion, knowledge, commerce, health, safety, or any other object beneficial to mankind. But no such assurance shall take effect until it has been sanctioned by some public authority to be designated by the Local Government by notification in the official Gazette.

Assurance of property in perpetuity for use of any community or institution.

The grant or refusal of such sanction may be notified by an entry in the book in which the assurance is registered, and the registering officer shall make such entry on receiving from the public authority aforesaid a written order in this behalf.

If no such order is made within two years next after the time when the property becomes applicable for the benefit of the public, it shall be deemed that sanction has been granted.

If such sanction is refused, the property shall devolve as if no such assurance had been made.

CHAPTER IX.

OF APPORTIONMENT.

60. All rents, annuities, pensions, dividends, and other periodical payments shall, upon the determination of such payments by the death of the recipient or otherwise, be apportionable as if they had been made to accrue due from day to day, but to be payable on the days appointed for the payment thereof.

Apportionment of rents and other periodical payments.

Nothing in this section shall affect any express provision in any instrument binding on the recipient.

CHAPTER X.

OF CERTAIN RIGHTS AND LIABILITIES OF LIMITED OWNERS.

61. A person having a limited interest in any immoveable property is not entitled to do or omit any act the doing or omitting of which is destructive or permanently injurious to such property.

Rights and obligations of persons having limited interest in property.

EXPLANATION.—No act done in the reasonable use and enjoyment of property is destructive or injurious within the meaning of this section, though it may exhaust the substance of the property.

Illustrations:

(*a*). A Hindu widow is in possession as such of land protected from floods and rendered cultivable by a dyke. She is not entitled to cut the dyke and turn the land into a lake.

(*b*). A is tenant for life of land on which a dwelling-house stands. He is not entitled to pull down the house, nor must he suffer it to fall for want of necessary repairs.

(*c*). A is tenant for life of land in which coal lies. He is entitled to work and use the coal.

(*d*). A is tenant for life of land planted with trees. He is entitled to cut the trees at maturity, but is not entitled to cut them when immature, except for the purpose of thinning out or otherwise benefiting the plantation.

Save as aforesaid, such person or his legal representative has the same right as a lessee to remove during the continuance of such interest, or within a reasonable time afterwards, all things which he has affixed to the soil in which he had such limited interest, and all crops growing upon the land for the season current when such limited interest determines.

62. A person having a limited interest in possession in any property is bound to discharge all periodical payments due on account of any mortgage thereon taking effect during the continuance of his interest in priority to such interest, and all taxes and other public periodical charges to which such property is liable.

Obligation of limited owner in possession of property mortgaged.

63. Every advantage or increase of value accruing (accidentally or through the exertions of any one having a limited interest) to any property in which successive interests exist, belongs to all the persons having any interest in the property in the same shares and manner as they are entitled to the property.

Right to increase of value to property in which there are successive interests.

EXPLANATION.—A person having a mortgage on property has not thereby an interest within the meaning of this section.

64. Any person claiming any immoveable property after the death of any minor, married woman, or other person, and having reason to believe that such minor, married woman, or other person is dead, and that his or her death is concealed by his or her guardian, husband or any other person, may once a year move the High Court to order the person concealing or suspected to conceal such person to produce him or her at such time and place, and before such persons (if any) as the Court may direct. And the High Court, if it think fit, shall make such order, and in case of disobedience thereto, the person so claiming the property may enter thereon and receive the profits thereof as if the person so concealed or suspected to be concealed were dead.

Discovery of death of tenant for life.

65. Nothing in this chapter applies to lessees.

Saving of lessees.

CHAPTER XI.

OF THE DISCRETION OF THE COURTS TO DEAL WITH SETTLED LAND.

66. If any person having under a settlement or will a limited interest in possession in any immoveable property, apply under this section to the High Court or District Court within the local limits of whose ordinary orginal civil jurisdiction such property or any part thereof is situate, the Court may, if it deem it just and expedient to do so,—

Powers exercisable by Court on application of person interested in possession in settled immoveable property.

(*a*) make such leases of the whole or any part of the property for such terms of years, for such rents, with such powers, and with such conditions, reservations, and exceptions as the Court thinks fit;

(*b*) make such sales of the whole or any part of the property for such sums, payable either at once or periodically, with such powers, and with such conditions, reservations, and exceptions as the Court thinks fit;

(*c*) appropriate any part of the property for the formation of streets, roads, gardens, or other

open spaces, tanks, sewers, drains, or water-courses, and authorize the erection of buildings and works thereon;

and generally deal with the property in any way the Court may think just and beneficial to the persons interested therein.

Service of notice and advertisement of application.

67. Every such application shall be in writing, and notice thereof shall be served through the Court on all trustees under the settlement or will, and on any other persons who in the opinion of the Court ought to be so served, and shall be published in such newspapers as the Court may direct.

Appearance to oppose or support application.

68. The Court may permit any person, whether interested in the property or not, to appear and be heard in opposition to, or in support of, any such application on such terms as to costs or otherwise as it thinks fit.

Costs of application.

69. The Court may order the costs of all or any parties to any application under this section to be paid out of any principal money receivable on account of any dealing with the property which is the subject of the application, or to be a charge on such property or on any other property belonging to the same owners.

Leases under section 66.

70. Every lease made under section 66 shall take effect in possession; and on every such lease shall be reserved the best rent that can be reasonably obtained, to be made payable half-yearly or oftener, without taking any fine or other benefit in the nature of a fine.

Payment into Court of money receivable under section 66.

71. All or any part of the proceeds of any lease, sale, or disposition under section 66 may, if the Court think fit, be paid into Court.

Power to direct payment of income to person entitled.

72. The Court shall declare what parts of such proceeds so received shall be considered as income, and may direct the same to be paid to the person for the time-being entitled in possession to the property dealt with; and the residue of such money shall be applied as the Court shall direct, in one or more of the manners following:—

Application of residue.

(*a*) the payment of the amount due in respect of any charge on the property dealt with;

(*b*) the purchase of other property or the investment in securities for the benefit of the persons interested in the property dealt with;

(*c*) the payment to any person becoming absolutely entitled to the property dealt with.

EXPLANATION. – In this section the term "securities" means—

(*d*) promissory notes, debentures, stock and other securities of the Government of India;

(*e*) bonds, debentures, and annuities charged by the Imperial Parliament on the revenues of India;

(*f*) stock or debentures of, or shares in, railway or other companies, the interest whereon has been guaranteed by the Government of India; and

(*g*) debentures or other securities for money issued by or on behalf of any municipal body under the authority of any Act of an Indian legislature.

CHAPTER XII.

OF POWERS.

Power to appoint defined.

73. Where a person is authorized to determine the disposition of property otherwise than by virtue of his ownership, he is said to have power to appoint such property.

Donor, donee, objects, appointee, defined.

The person who gives the power is called the donor, the person to whom the power is given is called the donee, and the persons for whose benefit the power is to be exercised are called the objects of the power. A person to whom any property is appointed is called an appointee.

Illustration:

A grants land to B for life, with remainder to such of B's children as B shall appoint. B appoints to C and D, two of his children, in equal shares. A is the donor of the power, B the donee; B's children the objects, and C and D the appointees.

General power.

A power authorizing the donee to appoint to whomsoever and for whatsoever interest he please is called a general power.

Special power.

A power restricted in respect either of its objects or the interests that may be conferred under it is called a special power.

Rules as to all powers.

Exercise of power vested in several donees.

74. Where a power is vested in several donees, all who are living must unite in its execution; but in case any one or more of them die during the continuance of the power, it may be exercised by the survivors, or the survivor, unless a contrary intention appears by the instrument creating the power.

Modes in which powers may be executed.

75. The donor may direct that the power shall be exercised by will only, or by non-testamentary instrument only.

If he directs that the power shall be exercised by will only, it must be exercised by will duly executed according to the provisions of the Indian Succession Act, or according to such other law as at the time of the execution of the power may be applicable to a will executed by the donee.

If he directs that the power shall be exercised by non-testamentary instrument only, it must be exercised by an instrument executed as an assurance and registered.

If he imposes no such restriction on the exercise of the power, it may be exercised either by such will or by such instrument as lastly hereinbefore mentioned.

Jurisdiction to aid defective executions abolished.

When the power is not properly exercised, no Court shall in any case compel the person in possession of the property to which the power relates to deliver the property as if the power had been properly exercised, or shall otherwise aid the defective execution.

Validity of forms hereby prescribed.

76. All appointments made in the manner directed by section 75 shall be deemed to be executed and attested in proper form, notwithstanding that some other mode of execution or attestation has been prescribed by the donor.

77. Where a power is to be exercised with the consent of several persons, all who are living must concur in the consent; but in case any one or more of them die during the continuance of the power, the consent of the survivors or the survivor is sufficient, unless a contrary intention appears by the instrument creating the power.

Concurrence where power is to be exercised with consent of several persons.

Consent to the exercise of a power must be given by an instrument executed as an assurance and registered

Consent to the exercise of a power need not be given by the instrument by which the power is exercised; but if it is given by a different instrument, such instrument must be executed at a time not later than the time at which the donee of the power executes the instrument by which he exercises the power.

78. If a person disposes of property in such manner as is authorized by a power vested in him, such disposition shall take effect out of the power, notwithstanding that the power is not mentioned or referred to in the instrument of disposition.

Recital of power not necessary.

Illustration:

Land is settled upon A for life with a special power to charge, by a non-testamentary instrument, portions in favour of his children. Subsequently a general power to dispose of the land by any instrument is vested in A. He executes an assurance by which he directs that a sum of money shall be raised out of the land and settled on his son B for life, with remainder to B's wife and children. Such an appointment cannot take effect under the special power, but may be treated as a valid exercise of the general power.

79. The donee of a power need not exercise it entirely and at once by a single instrument, but he may from time to time exercise any unexhausted part thereof at his discretion.

Power exercisable by several instruments executed at different times.

If the donee has purported to exercise his power in such a manner that his appointment is void, the power is to that extent unexhausted.

80. Where a power given by any instrument is void in its creation, no disposition or gift made by the same instrument shall be deemed void merely because it is intended to take effect after the interests to be appointed under the power or in default of any such appointment.

Disposition intended to take effect after interests appointed under void power.

Illustration

A marriage settlement provides that the settled property shall belong to the husband and wife successively for their lives, that after the death of the survivor of them, it shall go to such of the children of the marriage, and in such shares, as the husband and wife shall jointly appoint, the interest of each such child to become vested in him on his attaining the age of twenty-five years and that in the event of there being no child of the marriage who shall attain that age, or in default of appointment, the property shall belong to the husband or his legal representative.

Here the power to appoint the property is, under section 56, void in its creation; but the ultimate interest given to the husband takes effect.

General powers.

81. If the donor confers on the donee a general power, the donee shall, so far as regards his power of disposition, his creditors and all persons who contract with him for valuable consideration to obtain any interest in the property comprised in the power, be deemed to be the absolute owner of such property for such interest therein as the donor could dispose of.

Effect of general power.

This rule is to take effect notwithstanding that the donor has prescribed some particular method for executing the power.

Illustrations:

A, the absolute owner of land, settles it on B for life, with remainder to such purposes as B—

shall appoint, or
shall by deed appoint, or
shall by will appoint, or
shall by deed or will appoint,

and, in case B dies without making any such appointment on C absolutely.

If B—

grants the land by assurance, or
bequeathes it, or
contracts to sell it, or
incurs debt,

the property is liable, in the hands of either B or C, as the case may be, to the claims of B's grantee, legatee, purchaser or creditors, as the case may be.

If B dies having made no disposition of the property, C is entitled to it, subject to any claims which B's creditors may establish against it.

82. If the donor confers on the donee a general power and makes no disposition of the property, in the event of non-appointment, the donee shall be considered as the absolute owner of the property for such interest therein as the donor could dispose of.

Effect of general power with a disposition of property in case of non-appointment.

Illustration:

A, the absolute owner of property, settles it on B for life, with remainder to such purposes as B shall appoint, and makes no gift over in default of appointment. B dies without making any disposition of the property. The property vests in the representatives of B, and does not revert to A or his representatives.

Special powers.

83. If the donee has only a special power, he cannot confer any interest in the property comprised therein which could not have been conferred by the donor at the time of the creation of the power.

Interests conferible by donee of special power.

Illustrations:

(*a*). A settles a fund upon B for life, with remainder to such purposes as B shall appoint. After the settlement is made, C is born. B then appoints the fund to C for life, with remainder to C's children absolutely. The appointment is valid, though C has no children at the time.

(*b*). A settles a fund upon B for life, with remainder to his children as he shall appoint. At the date of the settlement B has no child, but afterwards has a son, C. B then appoints to C for his life, with remainder to his children. Such interest could not have been conferred A, and B's appointment is void.

84. Where the donee of a special power purports, in exercise of the power, to appoint to objects authorized by the power and also to objects not so authorized, the appointment in favour of the authorized objects shall take effect if their interests can be separated from those of the unauthorized objects.

Effect of appointment to objects, some authorized and others unauthorized.

Illustration:

Property is settled on A for life, and after his death on such of his children as he shall appoint, and in default of appointment to all A's children equally. A appoints that the property shall go after his death to his widow for her life, and after her death to two of his sons, C and D, in equal shares. There are five children of A. The

appointment in favour of A's widow is invalid, and the rents and profits of the property during her life will go to all the five children in equal shares, but after her death to C and D absolutely.

Appointment in excess of power when voidable at election of appointee.

85. Where the donee of a special power purports in exercise of the power to confer a larger interest than is authorized thereby, such appointment shall, if the appointee so elect, be void only for the excess, and good for the residue, if they can be separated.

Illustrations:

(*a.*) A has a life-interest in Ramnagar, with power to grant leases thereof for 30 years. A makes a lease of Ramnagar for 50 years. Such lease is good for 30 years only.

(*b.*) A having a life-interest in Ramnagar and Sultanpur, with power to grant leases of Ramnagar for 21 years, grants a lease comprising both Ramnagar and Sultanpur for 21 years. After A's death, the lessee may, if he thinks fit, elect to retain the lease as a lease of Ramnagar only till the end of the 21 years.

Invalidity of appointment creating authorized and unauthorized interests not separable.

86. Where, by an appointment under a special power, interests authorized and also interests unauthorized are created, and the interests authorized cannot be distinguished from those unauthorized, the whole is void.

Illustrations:

(*a.*) A fund is settled on A during his life, and after his death on his children, as he shall appoint. A appoints the annual income for the benefit of his son B and his wife and children, in such manner as trustees shall think fit. The appointment is wholly void.

(*b.*) Under a similar settlement, A, having legitimate children by B, his wife, and others by C and D, his concubines, appoints the property to be divided among his children by B, C, and D, the shares of the sons to be double those of the daughters. Here the interests authorized and unauthorized cannot be distinguished, and the appointment is wholly void.

Appointment with unauthorized condition.

87. When a person exercising a special power annexes to the gift a condition or qualification which is not authorized by the power, the gift is good and the condition or qualification only is void.

Illustrations:

(*a.*) A, having a power to appoint a fund among his children, gives a part of it to his son B on condition that B shall settle it on B's children. The condition is void and the gift is absolute.

(*b.*) A, having a power to appoint a fund to a limited class of objects, of whom B is one, appoints it to B, adding a condition that B shall release a debt owing to him by A, and also pay Rs. 1,000 to C. The appointment is good, but the condition is void.

Contract not to exercise power of leasing.

88. If a beneficial interest in immoveable property and also a power to let it are given to the same person, and he grants his interest in the property, he may enter into a contract not to exercise his power.

Invalidity of agreement not to exercise power.

89. Save as provided by section 88, an agreement or undertaking not to exercise a power which is given for the benefit of persons other than the donee is void.

Frauds on power.

90. Where a power given for the benefit of persons other than the donee is exercised with a view to the benefit, direct or indirect, of the donee, in any mode not intended by the donor, the appointment is void.

Illustrations:

(*a.*) A, having power to appoint a fund in favour of any of her children, appoints the whole fund absolutely to one child, who has previously entered into an agreement with her to give one-half of the fund to A's husband absolutely. The appointment is void.

(*b.*) A, having power to appoint a fund in favour of any of his children, appoints a portion of the fund to his son C, a minor, whom he knows to be suffering from a mortal disease; A being the person entitled to C's property in the event of his death. The appointment is void.

(*c.*) A, having power to grant leases of certain settled land, exercises the power in favour of B in consideration of Rs. 1,000 paid to A by B as a fine or premium. The lease is void, and A holds the Rs. 1,000 in trust for the persons interested under the settlement.

Right to property in default of appointment.

91. If the instrument by which a power of appointment in favour of specified objects is created does not provide for the event of no appointment being made, the property belongs (subject to any appointment that may have been made) in equal shares to the said objects.

Illustration:

A settles property on B for life, with remainder to B's children as he shall appoint, and makes no disposition in default of appointment. B has two children, C and D, and appoints Rs. 1,000, part of the property, to C. Then dies. Then B dies without making any further appointment. After paying Rs. 1,000 to C or his representative, the residue of the property is divisible in equal moieties between D and the representative of C.

Appointment of whole property to some only of several objects in favour of which power is given.

92. Under a power of appointment in favour of several objects, an appointment of the whole property to one or more of such objects exclusively of the others is valid:

Provided that, where the assurance creating the power declares the minimum amount or value of the share from which no object of the power is to be excluded, the appointment shall be invalid so far as it excludes any such object from any such share, and no farther.

CHAPTER XIII.

OF PROPERTY HELD BY SEVERAL PERSONS.

Right to property by survivorship created only by express words.

93. Where property is held by more persons than one, the share of any of them having at the time of his death a beneficial heritable interest therein shall become vested in his legal representative, unless the property is held under an instrument which expressly provides that on the death of one his share shall accrue to the survivors.

Nothing in this section applies to property belonging to an undivided Hindu family.

Illustration:

A and B jointly advance money on mortgage. A dies intestate. The money advanced by A belongs to his legal representative.

Partition of immoveable property.

94. When immoveable property is held in possession by joint owners, any one of them may institute a suit in the proper Court, and such Court may direct a partition of the property to be made among the joint owners, and for the purposes of partition may, in order to equalise the value of the shares, direct any money to be paid by one to another or to be charged on one share in favour of another.

Power to direct sale and to distribute proceeds.

If it appear to the Court that a sale of the property and a distribution of the proceeds would be more beneficial for the persons interested than a division of the property between them, the Court may, on the application of any such person, direct a sale of the property.

Power to allow person interested to bid for property sold for purpose of partition.

95. On any sale under the last preceding section, the Court may, if it think fit, allow any of the persons interested in the property to bid at the sale, on such terms as to setting-off or accounting for the purchase-money or any part thereof, or as to any other matters, as to the Court seems reasonable.

Payment into Court.

96. All sums of money paid under the two last preceding sections may, if the Court think fit, be paid into Court.

Saving of laws relating to partition of revenue-paying estates.

97. Nothing in this chapter shall affect any local law for the time being in force relating to the partition of estates paying revenue to Government.

Waste by one joint-owner.

98. When one joint-owner of immoveable property commits, or threatens to commit, waste to the same without the consent of the other joint-owner, that other may institute a suit to recover compensation for the injury caused to him by the waste or to obtain an injunction to stay the waste, as the case may require.

CHAPTER XIV.

OF ASSIGNMENTS OF THINGS IN ACTION.

Sale, &c., of things in action.

99. No sale or disposition of, or charge on, any debt, and no sale or disposition of, or charge on, any beneficial interest in moveable property, shall have any operation against the debtor or against the person in whom the property is vested, until notice of the sale, disposition, or charge is given to him, unless he is a party to such sale, disposition, or charge; and every dealing by such debtor or person, not being a party to, and not having received notice of, a sale, disposition, or charge, with the debt owing by him, or with the property vested in him, shall be valid as against such sale, disposition or charge.

Illustrations:

(*a*.) A owes money to B, who assigns the debt to C; B then demands the debt from A, who, having no notice of the assignment, pays B. The payment is valid, and C cannot sue A for the debt.

(*b*.) A has jewels deposited with B, a jeweller. A mortgages them to C. A then executes an assignment of them to D, who takes his assignment to B and gets the jewels from him before he (B) has received any notice of C's mortgage. B is justified in handing the jewels to D, and C has no remedy against D.

Notice to be in writing signed.

100. Every such notice must be in writing signed by the person making such sale, disposition, or charge, or by his agent duly authorized in this behalf.

Liability of assignee of thing in action.

101. The person to whom a debt or charge is assigned shall take it subject to all the liabilities to which the assignor was subject in respect thereof at the date of the assignment.

Illustration:

(*a*). A debenture is issued in fraud of a public company to A. A sells and transfers the debenture to B, who has no notice of the fraud. The debenture is invalid in the hands of B.

Saving of negotiable instruments.

102. Nothing in this chapter applies to debts secured by negotiable instruments.

STATEMENT OF OBJECTS AND REASONS.

This Bill embodies the bulk of the rules submitted in the sixth report of the late Indian Law Commission. One of its chief objects is to bring the rules which regulate the transmission of property between living persons into harmony with the rules affecting its devolution upon death, and thus to furnish the necessary complement of the work commenced in framing the law of succession, now Act X of 1865. Another is to render more simple and efficient the law relating to mortgages and conditional sales. The expediency of legislation on this subject was affirmed by the Judicial Committee of the Privy Council in the case of *Tambasvami Mudali* v. *Muhammad Husain*, L. R. 2 Indian Appeals, 241. Rules are also laid down on the other subjects hereinafter mentioned.

The Bill is divided into fourteen chapters.

Preliminary.

Chapter I contains the usual preliminary matter. The repealing clause will get rid of several obsolete statutes relating to land which are still in force in the Presidency Towns and, in the case of Europeans, may possibly be in force elsewhere. The saving clause exempts from the operation of the proposed Act acquired rights and liabilities incurred before the Act comes into force, subsequently acquired rights of pre-emption, options of mortgagees to make further advances (such options exist in Malabar and possibly elsewhere), contracts of bottomry and respondentia, transfers of British ships, sales in execution of decrees or for arrears of rent or revenue.

Assurance of Immoveable Property.

Chapter II deals with assurances of immoveable property. It declares (section 4) that every person competent to contract may make an assurance of property of which he is the owner, or which he is entitled to transfer, or on which he is entitled to create a charge. It declares (sections 5, 6, and 7,) that land may be conveyed (*a*) with the benefit of, or subject to, an easement; (*b*) subject to an obligation for the benefit of the public or of the neighbouring owner; or (*c*) with the reservation of any right of user, severance, and removal. It lays down rules (section 8) as to the mode in which the transfer *inter vivos* of immoveable property can alone be effected, and applies (section 9) to assurances the rules of construction contained in the Succession Act. It declares (section 10) that, unless a contrary intention appears by the assurance, a grant shall be deemed to pass to the grantee all the interest which the grantor is capable of passing in the subject, and a grant of land shall be deemed to comprise trees and fixtures. Covenants running with the land are dealt with by the same section.

Sales of Immoveable Property.

The Bill then enumerates (section 11) the rights and liabilities which, in the absence of any provision to the contrary, arise in the case of a sale of land. The principal changes in the law here made are as follows: the seller will be responsible for loss caused to the buyer or any person claiming under him, through any invalidity of the seller's title not known to the buyer when the contract was entered into, and the seller's lien for unpaid purchase-money will cease as soon as the assurance is registered. Section 12 declares that, except so far as regards the vendor's lien, a contract for sale shall not of itself have the effect of creating any interest in the property sold. The Bill will thus get rid of much difficult law relating to the purchaser's equitable ownership, and the rights created by charging and assigning it. Lastly, section 13 declares that a person paying the purchase-money for any immoveable property, but having the transfer made to another, will not by reason of the payment be entitled to the property or to any interest therein. It will thus become the absolute property of the transferee, unless he is made a trustee in some way more definite than by the mere payment of the money by another

person; and it is hoped that this rule will tend to prevent the litigation which arises from the doctrine of equitable presumption.

Mortgages and Charges.

Chapter IV deals with mortgages and charges. 'Mortgage' is so defined and explained as to include, besides simple mortgages, usufructuary mortgages, mortgages by conditional sale, and their combinations. The Bill declares (section 15) the respective rights of mortgagor and mortgagee on completion of a mortgage. It defines (sections 16, 17, and 18,) the rights and duties of a mortgagee in possession. It shows when the mortgagor or the mortgagee may obtain an injunction to stay waste committed or threatened by the other. It provides rules (sections 19—24) as to suits for foreclosure or sale. Powers of sale given by the mortgage deed to the mortgagee have been held void in the mofussil: the Bill (section 24) declares them to be valid, but contains provisions for the protection of the mortgagor similar to those in 23 and 24 Vic., c. 145, ss. 11—14. It provides rules (sections 25, 26, and 27,) as to suits for redemption. It contains provisions as to interest (section 28) and costs (sections 29, 30). It declares (section 34) that a deposit by a debtor of his title-deeds shall be deemed to be only evidence of a contract for a mortgage, and to entitle the creditor merely to sue for specific performance. Any person having an interest in the property charged may prevent a sale at the suit of a mortgagee (section 35) by paying off the mortgagee who requires it, and the registration of the mortgagee's receipt for the money will be sufficient without any further assurance. If the payment be made by a person having the whole interest in the property subject to the mortgage, the mortgage so paid off will (section 36) cease to exist; if the payment be made by a person not having the whole of such interest, he will acquire (section 37) the rights of the incumbrancer whom he has paid off.

The Bill abolishes the system of tacking, by declaring in sections 38 and 39 that no mortgagee paying off a prior mortgage shall thereby acquire any priority in respect of his original mortgage; that no mortgagee making a subsequent advance to the mortgagor shall thereby acquire any priority in respect of his security for such advance; and that, if the owner of two properties creates separate mortgages upon them by separate assurances, each property may be redeemed or dealt with irrespectively of the other, though the mortgages are created in favour of the same mortgagee.

It has been held that, where a mortgage extends to future advances, the mortgagee cannot safely make such advances, if he has notice of an intervening second mortgage. But the Bill (section 31) provides that, if a charge made to secure the balance of a running account expresses the maximum to be secured thereby, a second charge shall be postponed to the first charge in respect of advances not exceeding the maximum, though made subsequently to the second charge with notice thereof.

Leases.

Chapter V deals with leases of immoveable property. It lays down rules (section 43) as to the commencement and duration of leases. It states in some detail (section 41) the obligations which, in the absence of any stipulation to the contrary, are to arise out of the relationship of landlord and tenant. Special notice may be called to the provision enabling a lessee, where the lessor omits to make repairs which he is bound to make, himself to make them and deduct the expense from the rent, and the similar provision for the case of failure on the part of the lessor to make payments, which, if not made, are recoverable against the thing leased; to the provisions binding tenants to inform their landlords of proceedings to eject and of encroachments, and to the power of obtaining a decree for the rescission of a lease in a suit by either party in case of misconduct by the other.

The rules as to fixtures in section 44, clauses (*q*) and (*r*), are, it is thought, likely to prove useful. No distinction is made between ornamental trade and agricultural fixtures, save that the landlord is given a right (resembling that conferred by 15 Vic., Cap. 25, section 23,) to purchase agricultural fixtures.

The rest of this chapter saves (section 45) any right to distrain possessed under any local law, provides rules (section 46) as to the duration of leases in the absence of written agreement or of local law or usage, and treats (section 47) of the effect of holding over.

Exchanges.

Chapter VI deals with exchange or barter. It is taken from the New York Civil Code, and merely declares that each party has the rights and obligations of a seller as to that which he gives, and those of a buyer as to that which he takes; and that on an exchange of money each party warrants the genuineness of the money given by him.

Settlements.

Chapter VII deals with settlements, which are defined so as to include endowments and absolute gifts to children and others, excluding, however, gifts by natives. The Bill declares (section 50) that a settlement may be binding, though not made for a consideration. Settlements made in fraud of creditors will be voidable (section 51) at their option; but not as against persons who, without notice and for valuable consideration, have acquired interests thereunder. The English law, by which a voluntary settler of land can by subsequent sale defeat the settlement he has made, is not perpetuated here. Conditions restraining any person from parting with his or her interest will be void (section 52), and when property is settled on a married woman, it will therefore no longer be possible to deprive her of the

power of anticipation. Such power is the logical consequence of a married woman's capacity, under Act IX of 1872, to enter into contracts. The Bill also contains provisions as to making interests under settlements or wills determinable on insolvency or attempted alienation (section 53,) as to the vesting of gifts in general terms (section 54), as to the vesting of a gift to an unborn person not entitled to possession immediately on birth (section 55). Various sections of the Indian Succession Act (100—104, 107, 108, 111—127, 167,) are applied (section 56), so far as the nature of the case will admit, to gifts contained in settlements.

Gifts for Religious and Charitable purposes.

In accordance with the Succession Act, the Bill prohibits (section 58) persons who have near relatives from giving property to religious or charitable uses unless by an instrument executed not less than twelve months before their death and duly registered. And while allowing property to be given in perpetuity for such uses, the Bill requires (section 59) that it shall be given with the sanction of some public authority to be designated by the Government. A mode of notifying the grant or refusal of such sanction is provided Where the the sanction is refused, the property will devolve as if the gift had not been made.

Apportionment.

Chapter IX consists of a single section (60), treating of the apportionment of rents and other periodical payments.

Rights and Liabilities of Limited Owners.

In Chapter X the Bill abolishes the distinction between limited owners with and those without impeachment of waste. Such persons (section 61) will not be entitled to do any act destructive or permanently injurious to the property; but it is explained that no act done in the reasonable enjoyment of property (such, for example, as working a mine) is 'destructive' or 'injurious,' though it may exhaust the substance of the property. The power of such persons and their representatives to remove fixtures will be the same as that given to tenants under a lease. Persons having limited interests in possession will be bound (section 62) to discharge periodical payments due under prior mortgages and also taxes and other public periodical charges. The right to increase in the value of property in which there are successive interests is declared (section 63), and a provision (resembling that made by 6 Anne, Chapter 72, section 1,) is made for the production of tenants for life when the remainder-man has reason to suspect fraud.

Leases and Sales of Settled Estates.

Chapter XI is suggested by the English Statute 19 & 20 Vic., Cap. 20. It gives the Court (here defined to mean only the High Courts and the District Courts) a power to deal with lands subject to a settlement or will by lease or sale, or by appropriating any part of the property for the formation of streets, roads, gardens, tanks, &c. The various modes in which the proceeds of the sales or leases may be applied are specified.

Powers.

Chapter XII treats of powers, *i. e.* rights to determine the disposition of property otherwise than by virtue of ownership. It reproduces the principal rules of the English law on the subject. But the Bill does not propose to give the Courts power to aid defective executions of powers. This jurisdiction does not rest on any sound principle, and is, indeed, hardly consistent with a strict system of registration. In the case of the exercise of a power given to several donees some of whom die before it has been fully exercised, the Bill declares (section 74) that the survivors may do all that might have been done by the whole number. An analogous declaration is made (section 77) as to a power exercisable with the consent of several persons.

Property held by several persons.

Chapter XIII contains some rules as to the devolution of shares of several persons holding the some property. The Bill proposes to declare that a right by survivorship can be created only by express words. This chapter also contains some provisions (sections 94, 95, 96) as to partitions of immoveable property, which may be useful in cases to which no local law, as to the partition of revenue-paying estates, applies. In case of illegal waste by one of several persons holding the same property, power is given (section 98) to sue for compensation or to obtain an injunction.

Assignment of Things in Action.

Chapter XIV deals with the assignment of debts and other things which are not in the possession of the person entitled to them, but for the recovery of which he may be obliged to sue. The only change proposed to be made in what is now the law in all Indian Courts is that the Bill requires (section 99) the assignee to complete his title by giving the debtor notice in writing of the assignment. Negotiable instruments are excluded from the operation of this chapter.

The subject of the Bill is one of great difficulty and complexity, and errors will doubtless be found in the present draft. Ample time will be given for the searching criticism which it is hoped the draft will receive at the hands of the Local Governments, the Judges, and the legal profession.

Particulars of a competition for a Prize Essay on Oriental History on the occasion of the 4th Oriental Congress about to be held in Florence.

THE first thought of His Excellency the Professor Michele Coppino, Minister of Public Instruction, when the intention of convening in Florence the 4th International Congress of Orientalists was intimated to him, was to promote on this auspicious occasion some important work connected with oriental matters; and after having consulted the General Committee of the Congress, His Excellency has resolved to award a prize of five thousand Italian Lire to the Essay which should be adjudged to be best in the following respects:—

The subject will be—the changes of Aryan civilization in India. The Essay will be a historical and critical one on the characteristic and constituent elements of Aryan civilization from its first immigration into the Punjab, such as can be determined from the language, customs, religious creeds, manners, and will be a particularized history of that civilization in India, with an examination of the elements which have modified it in the different Indian countries.

Savants of any country are invited to compete.

Every one will be required to address his own manuscript post paid, either to "Professore Michele Amari, Senatire del Regno e Presidente del detto quarto Congresso e del Comitato ordinatore," or to the Italian Legation in any European or American State, not later than the 31st December 1877.

Each manuscript shall bear a motto (the author's name being omitted therefrom), and the same motto is to be repeated on the cover of a sheet of paper folded and sealed, which shall contain the author's name and address. This cover shall be forwarded together with the said manuscript either to the Senator Amari at Rome, or to one of the said Italian Legations.

The merit of the work will be decided by five persons, already chosen by the General Committee, from among the most eminent authorities in the culture of Aryan literature. The votes of these judges, given separately, will be taken by the General Committee, and the prize shall be awarded to that writing which has gained the votes of the majority, or of all the judges. The sealed cover containing the name of the author shall then be opened and all the others burnt.

The author of the Prize Essay shall retain the proprietary right to his own work; the other Essays will be returned to their authors on their application and at their expense. At the opening meeting of the Congress the President will announce the result of the competition and the names of the judges.

The Essay may be written in Latin, Italian, French, English, or German.

Neither members of the General Committee nor judges of the competition will be allowed to compete for the prize.

Delegates of the General Committee are begged to give as much publicity as possible to the present announcement, and to procure its insertion in the public press.

In the name of the General Committee.

M. AMARI, *President.*
A. DE GUBERNATIS, *Secretary.*

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing the Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal reported to Government during the week ending the 23rd June 1877.

No.	District	Date of	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
	Western Districts.			
Burdwan Div. 1	Burdwan,	June 25*'77	1·39	The rainfall at Culna has been 1 25, and at Raneegunge ·6. The rains appear to have set in. The prospects of the crops are good.
2	Bankoora,	„ 23 „	Nil	Weather—Some showers in the east and south-east; dry elsewhere; very hot, and now looks threatening. Rain is much required where it has not fallen, and some slight damage is done to the rice seedlings.
3	Beerbhoom,	„ 23 „	·18	Weather—Very hot. Rain is wanted.
4	Midnapore,	„ 23 „	·32	Weather—Very close, hot, and cloudy. The cooler weather on the 23rd instant seems to indicate the fall of rain in the neighbourhood. Rain is much wanted for the rice plants, which are exceptionally forward.
5	Hooghly,	„ 23 „	2 22	Weather—Oppressively hot on the 21st and 22nd instant. Heavy rain on the night of the 22nd. Early rice, jute, *sone*, and sugarcane are doing well. Late rice has germinated in places. Public health is good. Cattle disease still prevails in two villages in thana Bullagur.
	Howrah,	„ 23 „	2·04	Rains have regularly set in. The rain which has fallen during the week will greatly facilitate ploughing and sowing, which are now going on
	Central Districts.			
Presidency Div. 6	24-Pergunnahs,	June 25 †'77	2·42	Weather—Very warm and close, with rain at intervals. The rain has done much good to cultivation, and the young plants are doing well. Public health is generally good.
7	Nuddea,	„ 23 „	1·34	Weather—Sultry. A little rain has fallen towards the end of the week. More is wanted. The rice crops are in good condition and promise well. Cholera is reported from the Meherpore sub-division.
8	Jessore,	„ 23 „	·87	Weather—Hot and steamy, but very little rain until 23rd instant. Rice and indigo have both been suffering from the want of rain. The monsoon seems to have broken on the 22nd, and the rain which was falling at intervals on the 23rd will do good.
9	Moorshedabad,	„ 23 „	·55	Weather—Very hot and close. The prospects of the crops are fair, but a good fall of rain is beginning to be much wanted. There is cholera still in parts of the district.
Rajshahye and Cooch Behar Div. 10	Dinagepore,	„ 22 „	·09	Weather—Intense heat; clouds about, but little or no rain. 1·36 inches registered at Roygunge. State and prospects of the crops are very good. *Bhadoi* rice, *koshta* (jute), and sugarcane are looking particularly well. Rain would be welcome. No mangoes this year. Much sickness is caused by heat.
11	Rajshahye,	„ 23 „	1·55	There was no rain during the first five days of the week. The weather was intensely hot, and the young autumn rice plants were beginning to get scorched. On Friday the regular rainy season seems to have set in. Since that day there has been almost continuous rain. The break of hot rainless weather before Friday was favourable for the rice sowings in low lying lands which had not previously been sown, and also for the completion of the sesamum and spring rice harvests, which have yielded almost an average crop.
12	R———	„ 23 „	·66	Weather extremely warm and sultry, there being very little variation between the day and night temperature. ·74 of an inch of rain registered at Kurigram and ·33 of an inch at Gaibanda. The crops are all progressing very favourably. The cessation of the rains has given opportunity for sowing *aman* paddy in low and swampy lands. Jute which ran some risk on account of the heavy rains is improving. A good deal of the *aous* crop (*bittri dhan*) is being cut, with a good outturn. Public health on the whole is good. Some small-pox, but not of a fatal type, is prevalent in the south of the district.
13	Bogra	„ 23 „	1·07	Weather—Clear and very hot for the greater part of the week; rainy towards the end. The state of the crops is much the same as before, except that rain is wanted for the growth of both *aous* and *aman* plants.
14	Pubna,	„ 23 „	·45	Weather—Hot and dry. Rain fell on the 22nd instant at midday. State and prospects of the crops are favourable. Indigo manufacture has commenced. The cutting of *boro dhan* is nearly finished.

* Telegram of the 25th June shows rainfall during the seven days immediately preceding.

	16	Julpigoree, „ 23 „	10·23	Weather—Rainy, with [illegible] sultry days intervening. The prospects of the *bhadoi* and jute crops are [illegible] all over the district. 		Cooch Behar, „ 21 „	2·00	Weather—Very hot. The rains seem curiously local. The sub-divisions of Mathabhanga and Dinhatta, lying north and south, have had heavy rain, with 6·54 inches and 8·03 inches respectively; while Mekligunge to the west and the Sudder to the east of them have had a very moderate quantity, with 1·78 inches and 2·00 inches respectively. Prices of *dhan* rose slightly in Mekligunge, and it seems more rain is wanted there. From every quarter reports are prosperous, but rain is needed now for transplanting *amun dhan*. The public health continues good.
		Eastern Districts.		
Dacca Divs.	17	Dacca, June 25 '77	8·54	Weather—Rain since Wednesday. State and prospects of the crops are favourable.

Heavy rain which fell on Friday and Saturday has cooled the air. 1·60 inches registered at Goalundo and ·18 of an inch registered at Madareepore. The prospects of the crops are good. The interval of dry weather has given an opportunity for weeding, which was needed. The reaping of the *aous* crop (*bilati dhan*) has begun in Goalundo.
	19	Backergunge, „ 21 „	·14	Weather—The week has been the hottest week of the year, with an almost uninterrupted sunshine. There has been a deficiency in the rainfall during the last fortnight The general prospects of the crops are good, but rain is much wanted. In Dakhin Shahazpore the prospects of the *aous* crop are very good. The cattle continue healthy, except in one thana. Sporadic cases of cholera and fever still occur in almost every thana.
	20	Mymensingh, „ 22 „	·5	Weather—Unseasonably sultry. The prospects are fair, but the crops require rain.
	21	Tipperah, „ 22 „	2·15	Weather—Hot and oppressive, with occasional heavy showers. ·03 of an inch registered at Brahmunbariah. The drier weather has been favourable to all classes of rice crops.

Patna Divs.	25	Patna, June 25 '77	Nil	Weather—Extremely hot. Land is being prepared for the *bhadoi* and *kharef* crops. Health is generally good.
	26	Gya, „ 23 „	·22	Weather—Clear and very hot. The thermometer in the shade reached 109° during the year. No rain reported from the sub-divisions. Sowings are retarded for want of rain. Young rice plantations suffer too. Public health continues good.
	27	Shahabad, „ 23 „	·02	Weather—Very hot, with easterly wind. *Cheena* and sugarcane are in good condition. Rain is wanted, but the canals which re-open at the end of this month will afford considerable relief. Cholera continues in Sasseram.
	28	Durbhunga, „ 23 „	Nil	There has been some rain in the north, but generally the weather has been dry and extremely hot. Rain is much wanted both for indigo and cereals, the growth of which is retarded by drought, but with rain within the next week the prospects would be satisfactory. Indigo manufacture has commenced in some factories in the south. Sporadic cholera is still prevalent.
	29	Mozufferpore, „ 23 „	Nil	Weather—Very hot. In some parts of the Seetamurhee sub-division the rainfall during the week was 1·21. In the Hajeepore sub-division there was no rain, and it is much wanted in the Mozufferpore sub-division also. Public health is good.

A heavy storm seems to be imminent. ·07 of rain registered at Sewan. The intensely hot and dry weather is threatening the indigo crop, which is getting burnt up to some extent. Heavy rain is wanted soon. Plenty has fallen during the year, but the excessive dryness of the heat is quite unusual at this time of year.
	31	Chumparun, " 23 "	[illegible]	Weather—East winds blowing with great heat. The want of rain is beginning to be felt, and if it exists much longer, the consequences will be serious.
	32	Monghyr, " 23 "	·24	Weather—Intensely hot, the thermometer registering 130° in the sun. Rain is threatening, but is holding off. The crops will do very well if there be rain within a few days.

	34	Purneah, " 23 "	Nil	Weather—Hot 1·35 of rain registered at Kissengunge, and 1·20 at Arrareah The rain in the south of the district still keeps off. It is much wanted for the crops. Fever is very prevalent.
	35	Maldah, " 23 "	·5	Weather—Intensely hot, with occasional light showers State and prospects of the crops continue to be satisfactory, but more rain is now wanted. Cholera has quite disappeared.
	36	Southal Perghs. " 24 "	Nil	Weather—Oppressively hot and hazy till 23rd instant, when a cool breeze set in from the north, the horizon cleared, black clouds gathered overhead, and on the morning of the 24th a little rain fell. ·75 of an inch is registered at Godda The rains are ten days later than usual. The weather has so far been favourable, but rain is wanted.
	43	Manbhoom, " 23 "	·37	Weather—Hot and unseasonable. Rain is much wanted. The crops are good where rain has fallen. Throughout the Pachete pergunnahs rain has not fallen, and the seedling rice is said to be parched and in part lost. The ryots might have easily saved it in most cases by hand-watering. The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

W. M. JOHNSTON,

Report of Fluctuations of Traffic on the Eastern Bengal Railway for Month of May 1877.

Report on the Traffic for the four weeks ending 26th May 1877.

No. *A*—47-677, dated Calcutta, the 22nd June 1877

From—JAMES BRANDER, ESQ., Traffic Superintendent, Eastern Bengal Railway Company,
To—The Agent, Sealdah.

THE quantity of goods carried during the above period was 7,35,466 maunds, as against 4,70,172 maunds during the same period of last year, showing an increase of 2,65,294 maunds.

The increase is chiefly attributable to the following staples:—gram, including rice, piece-goods, foreign railway material, salt, seeds, and miscellaneous goods.

Those staples showing the greatest decrease are gunny, jute, sugar, tobacco, and turmeric.

Increases.

Grain, including rice ... ... Mds. 1,82,896

This staple still continues to arrive in large quantities for exportation.

Piece-goods ... ... Mds. 2,047

This staple, though not showing such a large increase as last month, still holds its own satisfactorily.

Foreign railway material ... ... Mds. 15,844

This large increase is owing to the quantity of plant being forwarded for the extension from Puradaha for the Northern Bengal State Railway.

Salt ... ... Mds. 28,407

This article still continues to show a large increase, as was expected.

Seeds ... ... Mds. 1,13,124

It is satisfactory to see that an increased demand is made for these, the increase being more than double that of last month.

Miscellaneous goods ... ... Mds. 33,542

This traffic still continues to show a satisfactory increase, and is adding to our revenue. It is chiefly upward.

Decreases.

Gunny ... ... Mds. 2,125

The decrease in this article is not so marked as before, though there is still a great demand for sacks for forwarding seeds, &c., from the interior.

Jute ... ... Mds. 77,165

The decrease is owing to the stock of jute being almost exhausted, and owing to the low prices at present offering no export is being made.

Sugar ... ... Mds. 5,924

The decrease in this commodity is attributable to the season drawing to a close, and the rains having commenced in the Jessore district.

	Tobacco.	Turmeric.
Tobacco and turmeric ... ... Mds.	22,407	5,063

These two articles still show a large decrease owing to there being no demand for them in the market.

I attach the usual statement showing the increases and decreases of the principal staples.

Statement of Increases and Decreases in maundage of Staples carried by the Eastern Bengal Railway Company for the four weeks ending 26th May 1877, *in comparison with that of the corresponding periods of* 1876.
